LFIR # 2387

\$2,573,254,804.94 to provide financial aid to, among others, small businesses, veterans, senior meals, restaurants, hotel workers, first responders, landlords, low-income tenants, nonprofits, and day care centers, and also direct distributions to Miami-Dade municipalities.

11. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/ Other		0
Consultants/Contracted Services/Study		0
Operational Costs: Other		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/ Other	Electricity, flow, pressure, and other meters and instrumentation	700,000
Consultants/Contracted Services/Study	System analytics set-up and dashboard tools and processes	50,000
Fixed Capital Construction/Majo	r Renovation:	
Construction/Renovation/Land/ Planning Engineering		0
Total State Funds Requested (m	ust equal total from question #6)	750,000

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

This funding will support more efficient and cost effective operations at wastewater facilities, aimed at reducing the average annual expenditure of \$26 million in electricity. The project implements initiatives in the Department's Energy Management Plan for Wastewater Treatment Plants, which targets a 30% reduction in energy consumption by 2030.

b. What activities and services will be provided to meet the intended purpose of these funds?

This will be achieved through upgrading and expanding electrical metering and data analytics at wastewater facilities through the installation of electrical, flow, and pressure meters combined with an analytics tool to monitor and inform the optimization of energy use intensity at the wastewater process level.

c. What direct services will be provided to citizens by the appropriation project?

Energy is required to treat and dispose of wastewater at the three wastewater treatment plants serving Miami-Dade County.

d. Who is the target population served by this project? How many individuals are expected to be served?

The wastewater treatment plants serve more than 2.3 million residents.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

This project will improve energy efficiency in the delivery of wastewater services, reduce energy costs and emissions associated with wastewater treatment.

The department will track energy consumed per gallon of wastewater treated, the cost of electricity for wastewater treatment, and estimate greenhouse gas and pollution emissions reductions.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

LFIR # 2387

Failure to meet deliverables will jeopardize future funding years/requests.

13.	The owners of the facility to	receive, directly	or indirectly, an	ny fixed capital	outlay funding.	Include the
	relationship between the ow	ners of the facili	ity and the entity	·.		

Miami-Dade County

Please complete the questions below for Water Projects only.

17.	Have you applied for alternative state funding?
	□ Waste Water Revolving Loan
	☐ Drinking Water Revolving Loan
	□ Small Community Wastewater Treatment Grant
	☐ Other (please specify)
	☑ N/A
18. '	What is the population economic status?
	☐ Financially Disadvantaged Community (ch. 62-552, F.A.C)
	☐ Financially Disadvantaged Municipality (ch. 62-552, F.A.C)
	□ Rural Area of Economic Concern
	☐ Rural Area of Opportunity (s. 288.0656, Florida Statutes)
	☑ N/A
19. '	What is the status of construction?
	Not Ready
20. '	What percentage of the construction has been completed?
	0%
21. \	What is the estimated completion date of construction?
	06/30/2024
