12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

With this funding request we will provide natural gas service to an under served area of our county.

b. What activities and services will be provided to meet the intended purpose of these funds?

This will provide new natural gas service and installation and repair of natural gas appliances for the homeowners in this area who have requested this service.

c. What direct services will be provided to citizens by the appropriation project?

Installation and repair of gas appliances will be offered to customers. This gas main extension will also make available gas service for back up generators to be used in the event of a natural disaster.

d. Who is the target population served by this project? How many individuals are expected to be served?

There are 112 homes in the subdivision that will be served by this gas main extension. We also expect to gain new customers along the mile and a half gas main that will lead to the target subdivision.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The availability of natural gas can improve home values and increase saleability of existing properties in the area and promote new home construction. This can be measured by the increased home values in the area.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?
