12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Provide a reliable electrical service to Station 103 for continuity of services during a power outage or major storm event.

b. What activities and services will be provided to meet the intended purpose of these funds?

Prevent or reduce the loss of property as the result of fire, and prevent or reduce loss of life, limb, or health by rapid EMS response, skilled care and rapid transport, by providing electrical services to Station 103 during power outages. Electricity is required to open/close bay doors, radio transmissions, AC, cooking and to maintain communication with other key partners.

c. What direct services will be provided to citizens by the appropriation project?

A continuously functioning generator will ensure the facility is able to provide uninterrupted fire, rescue, emergency medical services and emergency management functions to the immediate area.

d. Who is the target population served by this project? How many individuals are expected to be served?

Station 103 provides service to approximately 12,000 residents, however units from Station 103 can be dispatched to anywhere within the city. The City of Clermont has a population of approximately 42,482.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The anticipated outcome is to maintain continuity of services. The outcomes will be managed through analytics in the records management system as well as after action reports of major incidents.
