Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 2485

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

The City of Graceville is requesting funds to upgrade its existing grounds around the public works department/wastewater treatment plant. The city has 3 entrances into the plant on roads that have been pieced together for years that it wishes to address. The city, with these funds, will reclaim and pave the driveways leading to the public works department/wastewater treatment plant as well as add 3 security gates at each entrance that will be open/close with either remotes or sensors. The roads on site are in poor condition, and heavy rainfall causes them to close an entrance until water subsides. The proposed project will correct these issues and provide security onsite for everyone's safety.

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

This project will add security onsite where the City of Graceville has everyday operations, as well as fix the ongoing issues with the driveway as you enter or exit either the plant or the public works department.

b. What activities and services will be provided to meet the intended purpose of these funds?

3 gates being installed with access given to the approved personnel of the City of Graceville.

c. What direct services will be provided to citizens by the appropriation project?

This project will help the city to enter and exit the site at a quicker rate with a new drive, as well as secure the property that the city owns and uses on a daily basis to aid the citizens.

d. Who is the target population served by this project? How many individuals are expected to be served?

This serves the entire City of Graceville indirectly. Totaling approximately 2,432 residents.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

This project will allow the city to securely store equipment. By paving the outlets, the city can accommodate the citizens' needs at a faster rate and not have to worry about standing water or holes along the current driveways into the departments. The level of benefit can be measured by the time it takes the city to accomplish various tasks. In case of emergencies, the city staff will be able to get to their destinations quicker without wasting time, while doing it in a safe manner.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?
