Local Funding Initiative Request

Fiscal Year 2022-2023

LFIR # 2613

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

Village of Palmetto Bay is requesting funding for the construction and construction support for stormwater improvements to its sub-basins that need upgrading. Improvements include building additional catch basins, manholes, culverts & exfiltration to connect the catch basins within 3 identified Sub-Basins that require our most immediate attention. Improvements will reduce pollutant load contribution from 3 main pollutants from the sub-basins into Biscayne Bay Aquifer, control flooding during storms; such as Hurricane Irma; and improve surface water quality by limiting pollution to our waters.

12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Village of Palmetto Bay is requesting funding for the construction and construction support for stormwater improvements to its sub-basins. Improvements include building additional catch basins, manholes, culverts & exfiltration to connect the catch basins within sub-basins 11, 43 & 57/96. Improvements will reduce pollutant load contribution from 3 main pollutants from the sub-basins into Biscayne Bay Aquifer, control flooding during storms; such as Hurricane Irma; and improve surface water quality by limiting pollution to our waters.

b. What activities and services will be provided to meet the intended purpose of these funds?

The Village will have to secure contractor to perform the construction via our procurement process.

c. What direct services will be provided to citizens by the appropriation project?

There will be no direct services provided to the citizens, but this appropriated project will benefit the residents who are directly impacted by the flooding taking place on the sub-basin roadways.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population is residents of Southern Miami-Dade. Residents traversing from southern US1 north and along our arterial roads will benefit. The local residents will greatly benefit by no longer worrying about flooded roads to exit or enter their homes and neighborhood. We expect greater than 300 people will be served.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

With this funding the Village of Palmetto Bay will enhance/preserve/improve environmental of fish and wildlife quality by mitigating the environmental hazards associated with stormwater runoff. We will also protect the general public from harm by controlling flooding and other hazards associated with stormwater surges. We will additionally improve stormwater management, groundwater quality and surface water quality by reducing the loading pollutants into Biscayne Bay and control flooding and other hazards associated with stormwater surges.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Withholding of funds.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

Not applicable.
