12. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

A new east-west connector roadway will be built along with a new signalized intersection. This improvement will require a new southbound turn lane on Highway 85. Property will need to be obtained and utilities relocated in order to construct it.

b. What activities and services will be provided to meet the intended purpose of these funds?

Services provided include relocating existing utilities and paving a new turn lane.

c. What direct services will be provided to citizens by the appropriation project?

This project will provide citizens with a safer and better-functioning intersection that will be sufficient for the current needs and future traffic demands.

d. Who is the target population served by this project? How many individuals are expected to be served?

This project will serve all drivers in town, especially those who travel on or around this roadway. Currently over 40,000 people will utilize this roadway on a daily basis.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected outcome of this project will be a safer and better-functioning intersection. Crash data and traffic counts in this area will be used to measure the success of the project.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Not receiving the full contracted amount. The city will enforce liquidated damages on any and all contractors who fail to meet required timelines.

13. The owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.
