Construction/Renovation/Land/Planning Engineering	Construct new 250,000 gallon ground storage tank and pumping facility.	1,000,000
Total State Funds Requested (must equal total from question #6)		1,000,000

14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The Town of Astatula will construct a 250,000-gallon ground storage tank and pumping facility to address degrading water quality from ground water contaminates as well as reserve capacity for water supply.

b. What activities and services will be provided to meet the intended purpose of these funds?

This is a drinking water quality project with the intended purpose of providing safer, cleaner drinking water.

c. What direct services will be provided to citizens by the appropriation project?

Potable water supply is the direct service.

d. Who is the target population served by this project? How many individuals are expected to be served?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 1350

The entire Town of Astatula of approximately 2,000 will be served by this project.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The project will be assessed for effectiveness based on lab sampling results of the quality of water being supplied to the consumer. More particularly, the reduction of ground water contaminants present. Sampling of the water produced from the plant will be tested at a qualified laboratory for water contaminants.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Return of funds for failure to meet the deliverables.
