The funds were used for the health and safety of the workers and emergency protective measures.

#### Complete questions 11 and 12 for Fixed Capital Outlay Projects

- 11. Status of Construction
  - a. What is the current phase of the project?

<ul><li>Planning</li></ul>	O Design	<ul><li>Construction</li></ul>	O N/A		
b. Is the project "		No			
c. What is the est		9-1-24			
d. What is the es	timated complet	ion date of construc	tion?	11-25	

12. List the owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

Franklin County Sheriff's Office will be the only entity receiving capital outlay dollars. However, the project will be a regional transport portal and treatment facility for high level medical-substance abuse/behavioral health inmates as determined by acuity scale screening for Franklin, Gulf, Calhoun, and Liberty Counties. This partnership has been endorsed by all four Sheriff's under the defined geographical domain.

#### 13. Details on how the requested state funds will be expended

Spending Category	Amount	
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Operational Costs: Other		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Majo	r Renovation:	
Construction/Renovation/Land/ Planning Engineering	The requested funds will be utilized during initial phase PD&E for architectural and engineering design. During the second phase, procurement of professional services & (construction)	6,500,000
Total State Funds Requested (m	ust equal total from question #6)	6,500,000

#### 14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

## The Florida Senate Local Funding Initiative Request Fiscal Year 2024-2025

**LFIR # 2118** 

It is our intention to construct a 32 bed/12,000 sq.ft. corrections treatment pod, for co-occuring behavioral health and substance abuse, adjacent to our existing jail facilities. This facility will be a "in-house" licensed behavioral health and substance abuse licensed facility. It will provide 24hour/7day a week crisis transport, stabilization, and treatment through a collaborative partnership agreement with the four Sheriffs of Franklin, Gulf, Calhoun, and Liberty County. This licensed facility and innovative treatment program design with in-house licensed providers will reduce inmate recidivism, corrections facility costs, reduce staff turnover, and protect public safety as inmates re-enter the four county communities.

#### b. What activities and services will be provided to meet the intended purpose of these funds?

This facility will be a DCF licensed 24 hour/7days behavioral health and substance abuse crisis and treatment facility portal for inmates with complex, high acuity based co-occuring diagnosis within the four counties. The facility will provide an "in-house" multidisciplinary team, including psychiatrist, licensed MSW/therapist, care coordinators, and community outreach/reentry specialist that will guide the inmate with post release navigation and community reintegration. The facility will provide in-house treatment, behavioral health, and substance abuse rehabilitation services.

#### c. What direct services will be provided to citizens by the appropriation project?

The evidenced based statistics demonstrate significant public safety impacts including a significant reversal of incarceration trends, un-employment rates with the formerly incarcerated, and individual/families within the State Medicaid and/or DCF agencies. The collective clinical and financial synergies and economies of scale within this (4) county model will dramatically reduce taxpayer responsibilities with continued corrections costs, recidivism, staff-turnover, comp time, and community resources management.

#### d. Who is the target population served by this project? How many individuals are expected to be served?

This facility will target 10% of the highest acuity scaled inmates within the four county correction facilities. Our interdisciplinary team will assist the other county jails based on crisis stabilization, assessment, and portal navigation of the projected behavioral health/substance abuse individuals within their current jail rosters. We anticipate screening 26% to 50% of the inmate population based on internal metric data.

### e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

This facility will follow statutory guidelines (Chapter 397) and Chapter 65D-30 of the Florida Administrative Code. The evidence based studies suggest that cognitive-behavioral programs while incarcerated reduce recidivism by 15% with some studies showing trends upward to 30%. Recidivism will be tracked internally utilizing linear correlation coefficent statistics modeling. Psychiatric and addiction best practice (CMS) guidelines will be implemented and outcome measures reported. Utilizing DCF and AHCA annual reviews audits and measures will be followed and objectives met on annual basis.

### f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Construction will follow all Federal, State, and Local statues and will be followed in the bidding, contracting, construction, building inspection, and occupancy phases. Construction requisites cited within the Florida Model Jail Standards and ACA Core Jail Standards. All medical staff will follow and be reviewed by all professional, ethical, and scope of care guidelines outlined in statue. As a DCF/AHCA licensed facility all penalties based on statutory guidelines and agency rule will dictate performance measures, compliance, and penalty. DCF has authority to impose sanctions, and decertification of facility licensure and/or of individual practitioners.
