Funding will provide for the extension of the force main for this project. Additionally, the funding will provide for roadway improvements to alleviate the traffic concerns, currently creating a safety hazard in the vicinity of the school's campus.

c. What direct services will be provided to citizens by the appropriation project?

Extended service with respect to the County's wastewater system and roadway improvements.

d. Who is the target population served by this project? How many individuals are expected to be served?

Individuals living, working, and attending school in the area.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

This project reduces potential exposure to wastewater from compromised and failing septic tank systems, will lead to removal of nutrient and bacterial sources of pollution from septic tank effluent, and reduces safety hazard to students and pedestrians in the area through roadway improvements. Benefits can be measured by number of septic tanks removed as well as number of accidents for the two different aspects of the project, respectively.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Failure to meet deliverables will result in nonpayment.
