Yes

11. Status of Construction

Planning

1

a. What is the current phase of the project?

Design

b. Is the project "shovel ready" (i.e permitted)?

c. What is the estimated start date of construction?

d. What is the estimated completion date of construction?

The Florida Senate **Local Funding Initiative Request Fiscal Year 2024-2025**

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

If yes, indicate the amount of funds received and what the funds were used for.

The City received a total of \$20M. The Utility was provided \$275,000 for a new vac truck, \$400,000 for septic to sewer, \$500,000 for utility billing assistance.

14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

In order to maintain an adequate water supply during emergencies, the new generator will be supplemented by two existing generators; a 2500 kw generator powers the Nano and the RO Water plant, and a 2000 kw generator that powers the north high service pump, the blending tank, and the deep injection well. Upon completion of this project, NMB will be able to support seven municipalities, plus parts of unincorporated Miami-Dade County during emergencies.

emorgenoice.
b. What activities and services will be provided to meet the intended purpose of these funds?
Installation of the new generator
c. What direct services will be provided to citizens by the appropriation project?
Continue providing uninterrupted potable water
d. Who is the target population served by this project? How many individuals are expected to be served?

More than 175,000 residents are served by NMB Water. The Utility has approximately 34,000 account:

Residential property: 29,949

Public buildings: 306

Businesses/commercial property: 2,353 Schools/hospitals/houses of worship: 178 Other: 1,259 (Sprinklers and Firelines)

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Being able to maintain the lime softening side of the water treatment plant, which provide approximately 15 Million Gallons per Day to the customers during emergencies out of the total 41 million gallons per day produced

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Not being able to supply the required amount of potable water to the population will require to do emergency water purchase from Miami-Dade Water and Sewer.
