14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The Florida Senate Local Funding Initiative Request Fiscal Year 2024-2025

LFIR # 2803

Miami-Dade County has been providing an alternative to institutionalization for over 40 years to seniors county-wide. The County's meals programming is designed to provide nutritionally sound meals to eligible seniors who are assessed as being in danger of malnutrition or food insecurity. The goal of the programming is to reduce or delay the need for increasingly expensive nursing or specialized home placement and allow our seniors to continue to age in-place with dignity.

b. What activities and services will be provided to meet the intended purpose of these funds?

Home delivery and congregate meal services and assistance, inclusive of the provision of culturally-sensitive and planned meals for specific medical conditions or disorders, e.g., diabetes or high blood pressure.

c. What direct services will be provided to citizens by the appropriation project?

Healthy and nutritious meals to the senior population of Miami-Dade County through 19 congregate meal sites, i.e., senior centers, or through home delivery services.

d. Who is the target population served by this project? How many individuals are expected to be served?

In 2017 the Profile of Older Floridians complied by FL Department of Elder Affairs, 68% of FL seniors face the threat of hunger, 1 in 7 seniors live in poverty and 63% of seniors are forced to choose between food and medical care. Seniors aged 60+ face increased risks of chronic health conditions, including diabetes and high blood pressure, conditions that can be mitigated by healthy food options. A minimum of 50 seniors can be expected to be served but the number may be higher due to changes in food and service costs and currently undetermined opportunities for leveraging existing and the requested resources for expanding programmatic capacity.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The goal of the programming is to reduce or delay the need for increasingly expensive nursing or specialized home placement and allow our seniors to continue to age in-place with dignity. The number of meals served to seniors can be tracked and a survey, or similar measure, post-participation in ongoing programming could be administered for quality assurance and monitoring efforts of said programming.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

A failure on the part of the receiving entity in meeting or providing deliverables or with overall non-performance will result in non-payment or a full return of the requested monies.
