c. What direct services will be provided to citizens by the appropriation project?	
Durchage consultation and installation of multiple FormPote in Orange County Public Schools	

Purchase, consultation and installation of multiple FarmBots in Orange County Public Schools.

d. Who is the target population served by this project? How many individuals are expected to be served?

Orange County Public High Schools.

Over 250,000 students will see this in action on a daily basis.

Multiple media and social outlets will be covering and promoting these projects across the county, surrounding counties and across the state.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The ultimate goal with this project is to expand to all high schools in Orange County once they see how impactful Ag Tech is. This is only the ground floor of the ultimate vision of getting our next generation interested and excited about agriculture. We hope this project will even expose new audiences that we have not tapped into yet to collaborate with the Ag Department and FFA.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

If a school is not able to accept the project, then a letter of non acceptance will be submitted to Orange County Farm Bureau and then passed on to the appropriate juristdictions for funding to be re-allocated.
