LFIR #3288

The City has two existing soccer complexes for our community that are heavily utilized by both adult and youth soccer leagues as well as general use by the public. Both existing complexes are exceeding capacity with certain facilities over-utilized. These circumstances warrant the City's new Capital Improvement Project for additional soccer fields in a low to moderate income neighborhood.

b. What activities and services will be provided to meet the intended purpose of these funds?

This will provide additional space and capacity for citizens to utilize and expand the ability for both adult and youth soccer leagues as well as general use by the public.

c. What direct services will be provided to citizens by the appropriation project?

This will provide additional space and capacity for citizens to utilize and expand the ability for both adult and youth soccer leagues as well as general use by the public including restroom facilities.

d. Who is the target population served by this project? How many individuals are expected to be served?

The general public is the target population and over 800 individuals are expected to be served.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The current space is used and enjoyed by youth and adult soccer teams throughout the community and providing additional space would greatly benefit the community. The benefit and outcome will be measured by the community's ability to have more youth and adult soccer leagues and games as well as increased community participation.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

	Penalty could include repayment of funds.
