a. What specific purpose or goal will be achieved by the funds requested?

## The Florida Senate Local Funding Initiative Request Fiscal Year 2024-2025

**LFIR # 3479** 

Florida has experienced explosive population growth over the past 3 years. That growth has led to an increasing need for not-for-profit community focused healthcare providers to expand their services and a significant increase in land acquisition and construction costs. Reimbursement rates for primary medical services for organizations like Healthcare Network, however, have not greatly increased. This funding will help Healthcare Network to expand to communities who need our services. Specifically, this funding will assist with the construction costs of the new facility.

b. What activities and services will be provided to meet the intended purpose of these funds?

Healthcare Network will provide pharmacy, pediatric, adult, dental, women's, and behavioral health services at this site.

c. What direct services will be provided to citizens by the appropriation project?

High-quality primary care services will be provided. Services such as, but not limited to, dental cleanings, behavioral health visits, well-child check-ups, drive through pharmacy services, and many more.

d. Who is the target population served by this project? How many individuals are expected to be served?

Healthcare Network serves all members of the community, but we focus on those most in need.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected benefit of this project is increased overall community health and increased access to high quality primary health care services. This will be measured by using data from Healthcare Network's electronic health record, such data points include new patients and total patient visits.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Failure to meet appropriate deadlines would require return or cancellation of funding.
