13. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The Bartow Courthouse currently only has emergency power for life safety features such as lights, limited receptacle power and elevators. Power outages during Court operating hours can cause a significant interruption to the judicial process and depending on the time frame outage, several Court sessions would have to be rescheduled putting significant strain on the Court processes. It also disrupts the civic responsibility of several citizens that serve as jurors for multiple trials that are occurring. This project would allow all Court Operations to continue without interruption, giving the best outcome for Justice to be served.

b. What activities and services will be provided to meet the intended purpose of these funds?

Polk County Facilities Management Division will provide project management services and budget oversight through out the project from the beginning until project closeout.
