Local Funding Initiative Request

Fiscal Year 2025-2026

LFIR # 1356

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

The current modular building FDOH-Marion utilizes for its Belleview clinic is 25+ years old and is well past its expected life cycle. This project is to construct a new site-built health facility on the existing property to replace the aging modular building currently in use.

The current structural condition of the facility is in fair to poor condition and there are minimal possibilities to remodel the building to make it more compatible with current health care facility functions. The new facility will be a modern site-built facility that is designed to provide health care services to the residents of southeastern Marion County. It will be designed to 140 MPH wind loads to allow it to withstand hurricane-force winds and be operational after such an event to aid in the recovery efforts.
