## Local Funding Initiative Request

### Fiscal Year 2025-2026

LFIR # 2586

1. Project Title The LJD Jewish Family & Community Services, Inc.: Mental Health - Duval County

2. Senate Sponsor Thomas Leek

3. Date of Request 2/11/2025

#### 4. Project/Program Description

JFCS will expand its capacity to provide outpatient mental health and substance abuse counseling, as well as psychiatric services, to uninsured children, teens and adults in Duval County. Services will help at-risk individuals strengthen their level of functioning and improve their ability to cope with life challenges, building a stronger foundation for self sufficiency. Funding will help subsidize sliding-fee scale counseling services to lower income individuals in the community who do not have Medicaid or health insurance to cover behavioral health services. Funding will also help remove barriers to access, by providing resources such as, but not limited to, bus passes, Lyft transportation to/from sessions and equipment/tablets for telehealth services.

5. State Agency to receive requested funds Department of Children and Families

LFIR # 2586

We do not have access to a specific source of funding to support the activities described in this request. Medicaid will pay for some services, but will not fund staff positions. Those who are caught in the gap (without financial resource, Medicaid or insurance) would go without access to affordable mental health, substance abuse and psychiatric services without this funding.

#### 13. Program Performance

##### a. What specific purpose or goal will be achieved by the funds requested?

JFCS will have expanded capacity to provide outpatient mental health and substance abuse counseling, as well as psychiatric services, to lower-income uninsured children, teens and adults in Duval County. Services will help at-risk individuals strengthen their level of functioning and improve their ability to cope with life challenges, building a stronger foundation for self sufficiency. Funds will ensure that JFCS can provide sliding-fee scale counseling services to the community and remove barriers to access to critical mental health, substance abuse and psychiatric services for at-risk individuals.

##### b. What activities and services will be provided to meet the intended purpose of these funds?

Licensed and license-eligible therapists will provide outpatient mental health counseling services to children, teens and adults. A Substance Abuse therapist will provide outpatient substance abuse services to teens and adults. Funding will help subsidize sliding fee scale services, provide additional program oversight, expand psychiatric nursing services (provided by a contract psychiatrist and staff ARNP) and help remove barriers to access for uninsured individuals.

##### c. What direct services will be provided to citizens by the appropriation project?

Clients will receive a bio-psychosocial evaluation, treatment plan, counseling sessions and discharge planning. Sessions will typically be weekly, for up to 4 months. Clients may also receive psychiatric evaluation and medication management services. Additional support to access services may include bus passes, Lyft transportation to sessions, necessary equipment/tablets for tele-health sessions.

##### d. Who is the target population served by this project? How many individuals are expected to be served?

The target population is lower-income uninsured children, teens and adults in need of outpatient mental health, outpatient substance abuse and psychiatric/medication management services. A growing population in Jacksonville is caught in the middle ...hard working, providing for their families, yet unable to afford counseling. Though lower income, they do not qualify for Medicaid or they lack adequate health insurance for behavioral health care. Caught "in the gap," they can't afford traditional counseling services. JFCS is one of a handful of local agencies offering sliding-fee scale counseling. We expect to serve approximately 300 clients with legislative funds.

##### e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Families are operating in crisis mode, and need accessible, timely, affordable mental health care to cope with chronic stress and trauma, rising family tensions and economic uncertainty. Sliding fee scale counseling is imperative. Funding a Substance Abuse therapist with expertise in working with dual-diagnosed clients and helping families alleviate barriers to participating in counseling is equally critical. This will increase a client's ability to actively engage in services and improve their wellbeing and functioning. We expect 80% of clients will reduce their disruptive symptoms as measured by discharge summaries and/or progress note review. We also expect that 80% of dual-diagnosis clients with co-existing mental health and substance abuse issues will reduce or eliminate their dependency on illegal substances upon exiting the program. We will enter assessment and service plan data into our EHR system, pulling evaluative reports regularly.

##### f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

JFCS will respond to any and all corrective action items noted. The Director of Grants & Compliance and COO will work closely with the Director and Associate Director of Clinical Services to ensure that the organization abides by all contractual, regulatory and accreditation requirements in the provision of services.

#### 14. Is this project related to mitigation, response, or recovery from a natural disaster?
