Vehicle will be outfitted with computers, communications, surveillance and weather station equipment to assist in effective incident command operations. The convertibility of the vehicle will allow for risk reduction and response to emergencies. This vehicle may be utilized as an Arson command center during structure fires and investigations. The use of the SOV during extreme emergencies as a Critical Response Vehicle would be invaluable to our citizens, as it would facilitate the recovery and mitigation of any incident by having on scene.

c. What direct services will be provided to citizens by the appropriation project?

The SOV is a type of apparatus that will enhance the response and mitigation capabilities of the Fire-Rescue Department in its committed duty to safeguard the lives of the residents and visitors to the City of Miramar and effectively protect the properties and structures within its boundaries and wherever needed from a state regional aspect.

d. Who is the target population served by this project? How many individuals are expected to be served?

The City of Miramar and its surrounding cities for example, City of Pembroke Pines, City of Hollywood, City of West Park and City of Miami Gardens.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The use of the SOV during extreme emergencies as a Critical Response Vehicle would be invaluable to our citizens, as it would facilitate the recovery and mitigation of any incident by having on scene support and direction as needed. The efficient deployment of supervision to these critical scenes historically accounts for a rapid and efficient overall recovery thus minimizing cost and expenditures.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?
