Timely EKG screenings and interpretations that help detect underlying heart conditions in otherwise healthy student

athletes. d. Who is the target population served by this project? How many individuals are expected to be served? Student athletes of all ages, sports, and socioeconomic backgrounds. Approximately 15,000 individuals. e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured? That parents and student athletes have as complete a picture as possible of students' health prior to competing in athletics. To measure the efficacy of the program, the State could compare the following prior to and after implementation of the program: 1) public knowledge about the pros of an EKG screening, 2) accessibility of EKG screenings, 3) the number of detected underlying heart conditions. f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract? Failure to utilize the funds in the specified manner shall result in the funds being returned to the State. 14. Is this project related to mitigation, response, or recovery from a natural disaster?
