The Florida Senate **Local Funding Initiative Request Fiscal Year 2026-2027**

LFIR # 1199

10. Status of Construction		
a. What is the current phase of the project?		
○ Planning ○ Design		
b. Is the project "shovel ready" (i.e permitted)?	Yes	
c. What is the estimated start date of construction?	09/25/2024	
d. What is the estimated completion date of construction?	09/30/2029	
e. What funding stream will be used for ongoing operations	and maintenance o	f the project?
Water-generated revenue.		
11. List the owners of the facility to receive, directly or indirect relationship between the owners of the facility and the entitlement of the e		I outlay funding. Include the
Special District.		

12. Details on how the requested state funds will be expended

Spending Category	Description	Amount			
Administrative Costs:					
Executive Director/Project Head Salary and Benefits		0			
Other Salary and Benefits		0			
Expense/Equipment/Travel/Supplies/ Other		0			
Consultants/Contracted Services/Study		0			
Operational Costs					
Salary and Benefits		0			
Expense/Equipment/Travel/Supplies/ Other		0			
Consultants/Contracted Services/Study		0			
Fixed Capital Construction/Major Renovation:					
Construction/Renovation/Land/ Planning Engineering	The funds will be used for construction of the reverse osmosis facility.	10,000,000			
Total State Funds Requested (must equal total from question #6) 10,000,000					

13. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The requested funds will directly support the establishment of a reverse osmosis facility on Crawl Key, Marathon, FL. This critical infrastructure will provide a reliable and secure water source, ensuring uninterrupted service to citizens during emergencies and times of increased demand due to population growth and aquifer limitations.

b. What activities and services will be provided to meet the intended purpose of these funds?

The funding will be used to design, bid, permit, and construct a new reverse osmosis facility to provide uninterrupted access to safe and reliable drinking water during emergencies and periods of heightened demand. This facility acts as a crucial lifeline in times of need, enhancing overall community resilience.

☑ Yes, Received

The Florida Senate Local Funding Initiative Request Fiscal Year 2026-2027

LFIR # 1199

c. What direct services will be provided to citizens by the appropriation project?

d. Who is the target population served by this project? How many individuals are expected to be served? Residents and visitors to the Florida Keys will all benefit from this project. e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured? Provision of a reliable and secure water source to provide uninterrupted service to visitors and residents during emergencies and increased demand. f. What are the suggested penalties that the contracting agency may consider in addition to its standard penaltie for failing to meet deliverables or performance measures provided for in the contract? If performance measures and deliverables are not met, withholding of funds is the recommended penalty. 14. Is this project related to mitigation, response, or recovery from a natural disaster? Yes a. If Yes, what phase best describes the project? Mitigation (reducing or eliminating potential loss of life or property) Response (addressing the immediate and short-term effects of a natural disaster) Recovery (assisting communities return to normal operations, including rebuilding damaged infastructure) b. Name of the natural disaster (or Executive Order # for events not under a federal declaration): Hurricanes. 15. Has the entity applied for or received federal assistance for this project? Yes, Applied Yes, Received No No, but intends to apply a. If yes, provide the FEMA project worksheet ID#: b. Provide the total project cost listed on the FEMA project worksheet:	Sa	The funding will enable the operation of a new reverse osmosis facility, ensuring citizens have unintended and reliable drinking water during emergencies and periods of heightened demand.
