School Bond Issuance Database

LFIR # 1265

	Since 2023 DOE has been required to have a system to track all school district bond debt, FS 1009.90(13). Over \$43 billion dollars have been raised by school districts using bond referendums. Prior to this system the state had little optics into the debt being incurred by districts until after the referendum was voted on and debt had been issued. The specific purpose is to have the legislature, OPB and DOE be able to know which districts are over leveraged before debt is issued as well as keep key language to ensure use of funds comply with the ballot language and purpose.
