10. Status of Construction

13. Program Performance

Planning

a. What is the current phase of the project?

Design

b. Is the project "shovel ready" (i.e permitted)?

c. What is the estimated start date of construction?

d. What is the estimated completion date of construction?

Total State Funds Requested (must equal total from question #6)

a. What specific purpose or goal will be achieved by the funds requested?

The Florida Senate **Local Funding Initiative Request Fiscal Year 2026-2027**

N/A

No

10/01/2026 06/30/2027 **LFIR # 1572**

Complete questions 10 and 11 for Fixed Capital Outlay Projects

Construction

e. What funding stream will be used for ongoing operations and maintenance of the project?

1 —		
Taylor County will own, maintain,	and operate the Public Safety Complex.	
Details on how the requested sta	ate funds will be expended	
Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		
Other Salary and Benefits		
Expense/Equipment/Travel/Supplies/ Other		
Consultants/Contracted Services/Study		
Operational Costs		
Salary and Benefits		
Expense/Equipment/Travel/Supplies/ Other		
Consultants/Contracted Services/Study		
Fixed Capital Construction/Majo	or Renovation:	
Construction/Renovation/Land/ Planning Engineering	All funding will be used for the construction of the Public Safety Complex. The facility will be constructed on land owned by the County. The County will provide project management services. A FDEM grant is funding the design and engineering of the Complex. The project has an estimated cost of \$20M.	10,000

☑ Yes, Applied

The Florida Senate Local Funding Initiative Request Fiscal Year 2026-2027

LFIR # 1572

The goal of the Public Safety Complex is to have a facility large enough to efficiently and effectively operate in the event of a disaster or catastrophic event. The existing EOC does not have the capacity to accommodate multiple agencies or have sufficient area for pre and post disaster planning and recovery. The new facility will provide a special needs sheltering area. The Complex will offer combined services which will enable the County to better serve and provide for the safety and welfare for the community.

b. What activities and services will be provided to meet the intended purpose of these funds?

Emergency Management, Emergency Medical Services, Fire Rescue, and law enforcement will be co-located in the Complex with the primary focus being Emergency Management. In addition to these services, special needs sheltering facilities will be available in the Complex. The proposed Complex will be constructed to Cat 5 hurricane rated standards ensuring for the continuity of operations and services.

c. What direct services will be provided to citizens by the appropriation project?

Direct services will be Emergency Management services including pre and post-disaster planning and recovery. EMS, fire protection, and law enforcement services will also be provided. Currently there are no special needs sheltering facilities in the County. Those with special needs must be transported out of County for sheltering during an emergency or catastrophic event. The Complex will provide a sheltering area and associated services.

d. Who is the target population served by this project? How many individuals are expected to be served?

The entire population of Taylor County will be served. In addition, the facility would be available to other counties in the region should they need support or mutual aid. The Complex will benefit the entire Big Bend region.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Taylor County will have an adequate facility for Emergency Management to effectively operate and ensure the continuity of operations and disaster recovery efforts. In addition, the facility will offer EMS, Fire Rescue and law enforcement services. The Complex will offer sheltering facilities for special needs as well as essential personnel. It has become very obvious during pre-landfall and post-recovery efforts resulting from Hurricanes Idalia and Helene, the facility is critically needed by Taylor County.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

There is a critical need for the facility and when funding is secured the County will move forward with the project immediately. The County was awarded a FDEM grant in the amount of \$472,727.27 for the design and engineering of the Complex which will be complete when funding is received. This will enable the County to move forward with construction immediately. The County owns the land where the facility will be located. All deliverables and performance measures will be met per the terms of funding contract timelines.

14. Is 1	this project related to mitigation, response, or recovery from a natural disaster? Yes					
a. If	Yes, what phase best describes the project?					
\square	Mitigation (reducing or eliminating potential loss of life or property)					
	Response (addressing the immediate and short-term effects of a natural disaster)					
	□ Recovery (assisting communities return to normal operations, including rebuilding damaged infastructure)					
b. N	lame of the natural disaster (or Executive Order # for events not under a federal declaration):					
Ηι	urricane Idalia and Hurricane Helene					
15. Ha	s the entity applied for or received federal assistance for this project?
