

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2026-2027

LFIR # 1679

1. Project Title Hallandale Beach Stormwater Mitigation Project - Northeast Quad Injection Well System

2. Senate Sponsor Jason Pizzo

3. Date of Request 12/1/2025

4. Project/Program Description

Funds will improve stormwater infrastructure in Hallandale Beach's Northeast Quadrant, enhancing resilience and safety in response to frequent flooding. The project secures critical evacuation routes, reduces roadway LOS deficiencies, and supports economic stability. Aligned with Florida's resilience goals, it strengthens public safety, promotes sustainable urban water management, and reduces the number of repetitive flood-loss properties in Hallandale Beach. The project will increase the capacity of two (2) stormwater pump stations, each with a wet well, valve vault, injection wells and associated cabinets and controls.

5. State Agency to receive requested funds Department of Environmental Protection

State Agency contacted? No

6. Amount of the Nonrecurring Request for Fiscal Year 2026-2027

Type of Funding	Amount
Operating	0
Fixed Capital Outlay	2,000,000
Total State Funds Requested	2,000,000

7. Total Project Cost for Fiscal Year 2026-2027 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	2,000,000	40%
Matching Funds		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	3,000,000	60%
Other	0	0%
Total Project Costs for Fiscal Year 2026-2027	5,000,000	100%

8. Has this project previously received state funding? Yes

If yes, provide the most recent instance:

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		
2025-26	0	2,000,000	1555	Yes

9. Is future-year funding likely to be requested? No

a. If yes, indicate nonrecurring amount per year.

b. Describe the source of funding that can be used in lieu of state funding.

Fiscal Year 2026-2027

LFIR # 1679

Complete questions 10 and 11 for Fixed Capital Outlay Projects

10. Status of Construction

a. What is the current phase of the project?

☐ Planning ☒ Design ☐ Construction ☐ N/A

b. Is the project "shovel ready" (i.e permitted)?

No

c. What is the estimated start date of construction?

12/01/2026

d. What is the estimated completion date of construction?

07/31/2028

e. What funding stream will be used for ongoing operations and maintenance of the project?

Local Funding

11. List the owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The facility is owned and operated by the City of Hallandale Beach, FL

12. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Operational Costs		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Major Renovation:		
Construction/Renovation/Land/Planning Engineering	This scope of this project includes reconstructing two (2) stormwater pump stations, each with a wet well, valve vault, injection well and associated cabinets and controls.	2,000,000
Total State Funds Requested (must equal total from question #6)		2,000,000

13. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The funds requested will enhance stormwater infrastructure in Hallandale Beach's Northeast Quadrant, aiming to improve flood resilience and safety in areas frequently impacted by flooding. The project will secure critical evacuation routes, reduce roadway LOS deficiencies, and support economic stability. It aligns with Florida's resilience objectives by strengthening public safety, promoting sustainable urban water management, and protecting the community against severe weather and escalating environmental challenges.

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2026-2027

LFIR # 1679

b. What activities and services will be provided to meet the intended purpose of these funds?

The activities funded will include comprehensive stormwater management services aimed at reducing flood risks and protecting key assets such as residential structures, roads, and evacuation routes from potential flood damage. These services will involve infrastructure improvements, enhanced runoff management, and system modernization to ensure the City's resilience against flooding and long-term environmental challenges.

c. What direct services will be provided to citizens by the appropriation project?

The project area has the highest concentration of repetitive flood loss properties in the city (FEMA NFIP Repetitive Loss Database). The NE quadrant faces significant drainage challenges as it is one of the city's lowest elevation areas. Flooding in this area is exacerbated by limited connectivity in the drainage systems and frequent minor storm events, resulting in prolonged standing water and significant impacts on both residential properties and infrastructure. This project directly protects the citizens living in this high-hazard flood zone.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population for this project is the general community of Hallandale Beach. The initiative is expected to serve all residents and visitors, benefiting the entire population rather than any specific group.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected benefits of this project include a reduction in waterborne diseases, improvement in local aquatic habitats, fewer flood-related emergencies, and decreased flooding on major roads. It will also support local business revenue through improved infrastructure, create temporary construction jobs, and reduce flood duration from 12.5 to 8.25 hours for 100-year storms. Additionally, the project will restore 435 feet of evacuation route and recover 4,231 linear feet of roadway from LOS deficiencies, and lower peak water stages by up to 0.60 feet for North Atlantic Shores Blvd. for a 100-year storm and up to 0.30 feet for a 25-year storm. In the northeast quadrant, reductions of up to 0.15 feet are expected for both the 100-year and 25-year storms. Flood inundation duration will decrease by 4.25 hours for a 100-year storm, from 12.5 to 8.25 hours.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

The City of Hallandale Beach does not anticipate failing to meet any milestones or deliverables. However, it is expected that reimbursement would only be provided for deliverables successfully completed.

14. Is this project related to mitigation, response, or recovery from a natural disaster?

a. If Yes, what phase best describes the project?

- ☒ Mitigation (reducing or eliminating potential loss of life or property)
- ☐ Response (addressing the immediate and short-term effects of a natural disaster)
- ☐ Recovery (assisting communities return to normal operations, including rebuilding damaged infrastructure)

b. Name of the natural disaster (or Executive Order # for events not under a federal declaration):

Flood Events from April 2023 (17 inches) and June 2024 (19.4 inches)

15. Has the entity applied for or received federal assistance for this project?

- ☐ Yes, Applied
- ☐ Yes, Received
- ☐ No

Local Funding Initiative Request

Fiscal Year 2026-2027

LFIR # 1679

☒ No, but intends to apply

a. If yes, provide the FEMA project worksheet ID#:

The City submitted a Notice of Interest for Flood Mitigation Assistance

b. Provide the total project cost listed on the FEMA project worksheet:

16. Has the entity applied for or received state assistance for this project (other than this request)?

☒ Yes, Applied

☐ Yes, Received

☐ No

☐ No, but intends to apply

a. If yes, specify the program and state agency (ex. Local Government Emergency Bridge Loan, Department of Commerce):

Applied but not awarded, Florida Department of Environmental Protection.

Please complete questions 17 through 21 for Water Projects only.

17. Have you been awarded or applied for alternative state funding for this project?

☐ Water Quality Improvement Grant Program

☒ Resilient Florida Grant Program

☐ Wastewater Revolving Loan

☐ Drinking Water Revolving Loan

☐ Small Community Wastewater Treatment Grant

☐ Other (please specify, ex. Alternative Water Supply Grants)

☐ N/A

18. What is the population economic status?

☐ Financially Disadvantaged Community (ch. 62-552, F.A.C)

☒ Financially Disadvantaged Municipality (ch. 62-552, F.A.C)

☐ Rural Area of Economic Concern

☐ Rural Area of Opportunity (s. 288.0656, Florida Statutes)

☐ N/A
