Total State Funds Requested (must equal total from question #6) 400,000					

13. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The requested funds will support dredging near the Turnbull Bay Canal Bridge to restore water flow through the removal of built up sediment, reduce neighborhood flooding, and improve tidal exchange and water quality in Rose Bay.

b. What activities and services will be provided to meet the intended purpose of these funds?

Construction/Dredging of Turnbull Creek Canal near the Turnbull Bay Canal Bridge.

LFIR # 1853

c. What direct services will be provided to citizens by the appropriation project?

The project will deliver critical flood protection and drainage improvements for residents in New Smyrna Beach, especially during hurricanes and intense rainfall. The improved capacity due to sediment removal will allow for water offshed

d. Who is the target population served by this project? How many individuals are expected to be served?

This project would directly benefit residents near the Turnbull Canal and Rose Bay Area. Additionally, due to improved drainage, this project would also affect the City as a whole. This area has a large percentage of low and moderate income residents that are significantly affected by extreme weather events.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The City plans on measuring success through pre and post-construction monitoring of total sediment removal cubic yardage amounts, improvements to the water movement & capacity in the area, and tracking reductions in flood-related reports.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Liquidated damages will be assigned to the project for failure to perform based on contract time and deliverables.
