I. SUMMARY:

Creates the "Jeremy Fiedelholz Safe Day Care Act." Increases the penalty for violations relating to licensure or operation of a child care facility or family day care home, or misrepresenting one's qualifications with respect thereto, from a first degree misdemeanor to a third degree felony. Provides a third degree felony penalty for making other misrepresentations to certain persons regarding such licensure or operation, or for violating requirements relating to the staff-to-children ratio or the number of children at the facility. Provides a second degree felony penalty in the event a violation results in great bodily harm, permanent disability, or permanent disfigurement. Provides for ranking of violations on the offense severity ranking chart. Provides an effective date of October 1 of the year in which enacted.

Two amendments were adopted by the Committee on Family Law and Children. Amendment one clarifies the violations with respect to child care facilities and family day care homes, and provides a specified exception. Amendment two requires child care facilities and family day care homes to carry general liability insurance in an amount no less than \$100,000 for liabilities arising from the operation of the facility.

II. SUBSTANTIVE RESEARCH:

A. PRESENT SITUATION:

The Legislature has stated its intent regarding child care facilities in F.S. 402.301: It is the purpose of ss. 402.301- 402.319 to establish statewide minimum standards for the care and protection of children in child care facilities, to ensure maintenance of these standards, and to approve county administration and enforcement to regulate conditions in such facilities through a program of licensing.

Child care facilities: A “**child care facility**” is defined in F.S. 402.302(2) as any child care center or child care arrangement which provides child care for more than five children unrelated to the operator and which receives a payment, fee, or grant for any of the children receiving care, wherever operated, and whether or not operated for profit. Public and nonpublic schools, summer camps, summer day camps, and bible schools are not included in the definition.

“Child care personnel” means all owners, operators, employees, and volunteers working in a child care facility. For purposes of screening, the term includes any member over the age of 12 years, residing with a child care facility operator if the child care facility is located in or adjacent to the home of the operator or if the family member of the child care facility operator has any direct contact with the children in the facility during its hours of operation. A volunteer who assists on an intermittent basis for less than 40 hours per month is not included in the term “personnel” for the purposes of screening and training, provided that the volunteer is under direct and constant supervision by a person who meets the personnel requirements.

Florida Statute chapter 402.305 sets forth the licensing standards for child care facilities. The state is required to establish licensing standards that each licensed child care facility must meet regardless of the origin or source of the fees used to operate the facility or the type of children served by the facility. The minimum standards include requirements for:

- personnel;
- minimum staff credentials;
- staff-to-children ratios;
- physical facilities;
- square footage per child;
- sanitation and safety;
- nutritional practices;
- admissions and record keeping;
- transportation safety;
- access;
- child discipline;
- plan of activities;
- urban child care facilities;
- transition periods; and
- evening and weekend child care.

Counties whose licensing standards meet or exceed state minimum standards may designate a local licensing agency to license child care facilities in the county or contract with the Department of Children and Family Services to delegate the

administration of state minimum standards in the county to the department. Child care facilities in any county whose standards do not meet or exceed state minimum standards shall be subject to licensing by the department under state minimum standards. F.S. 402.306. Every child care facility in the state is required to have a license which shall be renewed annually. Pursuant to F.S. 402.309, provisional licenses may be granted to applicants who are unable to conform to all the standards.

The department or local licensing agency may deny, suspend, or revoke a license or impose an administrative fine not to exceed \$100 per violation, per day for violations of ss. 402.301 - 402.319. Where the violation could or does cause death or serious harm, the administrative fine may be imposed not to exceed \$500 per violation per day. If a child care facility is operating without a license, the department or local licensing agency is authorized to seek an injunction in the circuit court where the facility is located to enjoin continued operation of such facility.

Family day care homes: A "family day care home" is defined in F.S. 402.302(7) as an occupied residence in which child care is regularly provided for children from at least two unrelated families and which receives a payment, fee, or grant for any of the children receiving care, whether or not operated for profit. A family day care home is allowed to provide care for specified groups of children, designated by age.

Family day care homes are required to be licensed if they are presently being licensed under an existing county licensing ordinance, if they are participating in the subsidized child care program, or if the board of county commissioners passes a resolution that family day care homes be licensed. If no county authority exists for the licensing of a family day care home, the department shall have the authority to license family day care homes under contract. If not subject to license, family day care homes shall register annually with the department. F.S. 402.313.

A family day care home may volunteer to be licensed under the provisions of this act. The department or local licensing agency may impose an administrative fine, not to exceed \$100, for failure to comply with licensure or registration requirements. Rule 65C-20.002, Florida Administrative Code, sets forth the standards for family day care homes. The rule includes requirements for background screening, training, minimum age, emergency arrangements, health of operators and household members, and handicapped children.

Penalties: F.S. 402.319, which is the subject of HB 3581, sets forth the penalties for violation of the licensure or operation of child care facilities or family day care homes. It is a misdemeanor of the first degree for any person willfully, knowingly, or intentionally to:

- (1) Fail, by false statement, misrepresentation, impersonation, or other fraudulent means, to disclose in any application for voluntary or paid employment or licensure, a material fact used in making a determination as to such person's qualifications to be an owner, operator, employee, or volunteer in a child care facility or other child care program.
- (2) Operate or attempt to operate a child care facility without having procured a license as required by this act.
- (3) Operate or attempt to operate a child care facility under a license that is suspended, revoked, or terminated.

(4) Represent, by act or omission, a child care facility to be duly licensed pursuant to this act without being so licensed.

(5) Operate or attempt to operate a family day care home without a license or without registering with the department, whichever is applicable.

A first degree misdemeanor is punishable by a definite term of imprisonment not to exceed one year pursuant to F.S. 775.082. In addition to any punishment, a person who has been convicted of a first degree misdemeanor may be fined \$1,000.

A third degree felony is punishable by a term of imprisonment not to exceed five years. In addition to any punishment, a person who has been convicted of a third degree felony may be fined \$5,000.

A second degree felony is punishable by a term of imprisonment not to exceed fifteen years. In addition to any punishment, a person who has been convicted of a second degree felony may be fined \$10,000.

Current law does not require child care facilities or family day care homes to carry general liability insurance. Subsidized child care programs are provided coverage through the Division of Risk Management of the Department of Insurance pursuant to F.S. 402.3015(6)(f).

B. EFFECT OF PROPOSED CHANGES:

HB 3581 increases the penalty from a first degree misdemeanor to a third degree felony for knowingly violating provisions relating to licensure or operations of a child care facility or family day care home. Deletes the requirement that the act be done willfully or intentionally. Establishes a third degree felony penalty for failing to disclose all information required under ss. 402.301 - 402.318. Adds family day care homes to the types of facilities that must comply with the law.

The bill adds misrepresentation regarding the licensure or operation of a child care facility or family day care home to the actions constituting a third degree felony. Provides that it is a third degree felony to knowingly make any misrepresentation, by act or omission, regarding the number of children at the facility, the part of the facility designated for child care, or the training and screening requirements.

Pursuant to the bill, violations regarding the maximum number of children for which a family day care can provide care, and violations regarding staff-to-children ratio are added to the actions constituting a third degree felony. Amendment one provides an exception for specified emergency situations.

HB 3581 provides that a violation resulting in great bodily harm, permanent disability, or permanent disfigurement shall be a felony of the second degree.

Amendment two requires child care facilities and family day care homes to carry general liability insurance in an amount no less than \$100,000 for liability arising from the operation of a child care facility.
