20	Section 1. Section 364.025, Florida Statutes, 1998
21	Supplement, is amended to read:
22	364.025 Universal service
23	(1) For the purposes of this section, the term
24	"universal service" means an evolving level of access to
25	telecommunications services that, taking into account advances
26	in technologies, services, and market demand for essential
27	services, the commission determines should be provided at
28	just, reasonable, and affordable <u>flat</u> rates <u>for the first</u>
29	access line of residential and single line business to
30	customers, including those in rural, economically
31	disadvantaged, and high-cost areas. It is the intent of the

Legislature that universal service objectives of providing 1 2 affordable basic local telecommunications service to 3 low-income customers and customers located in high-cost areas 4 be maintained after the local exchange market is opened to competitively provided services. It is also the intent of the 5 6 Legislature that the interim mechanism for maintaining the 7 universal service objectives established by the commission in 8 Docket No. 950696-TP remain in effect until January 1, 2001, 9 and during this transition period the ubiquitous nature of the local exchange telecommunications companies be used to satisfy 10 these objectives. Until January 1, 2001 For a period of 4 11 12 years after January 1, 1996, each local exchange telecommunications company shall be required to furnish basic 13 14 local exchange telecommunications service within a reasonable 15 time period to any person requesting such service within the company's service territory. Each local exchange 16 17 telecommunications company shall be relieved of its obligations as a carrier of last resort, effective January 1, 18 2001, if in full compliance with s. 214(e)(4) of the 19 20 Communications Act of 1934, as amended by the 21 Telecommunications Act of 1996, 47 U.S.C. 214. 22 The Legislature finds that each telecommunications (2) 23 company should contribute its fair share to the support of the universal service objectives and carrier-of-last-resort 24 25 obligations. For a transitional period not to exceed January 26 1, 2000, an interim mechanism for maintaining universal service objectives and funding carrier-of-last-resort 27 obligations shall be established by the commission, pending 28 29 the implementation of a permanent mechanism. The interim mechanism shall be applied in a manner that ensures that each 30 alternative local exchange telecommunications company 31 3

contributes its fair share to the support of universal service 1 and carrier-of-last-resort obligations. The interim mechanism 2 3 applied to each alternative local exchange telecommunications 4 company shall reflect a fair share of the local exchange 5 telecommunications company's recovery of investments made in 6 fulfilling its carrier-of-last-resort obligations, and the 7 maintenance of universal service objectives. The commission 8 shall ensure that the interim mechanism does not impede the 9 development of residential consumer choice or create an unreasonable barrier to competition. In reaching its 10 determination, the commission shall not inquire into or 11 12 consider any factor that is inconsistent with s. 364.051(1)(c). The costs and expenses of any government 13 14 program or project required in part II of this chapter shall not be recovered under this section. 15 16 (3) If In the event any local exchange telecommunications company party, prior to January 1, 2001 17 2000, believes that circumstances have changed substantially 18 19 to warrant a change in the interim mechanism, that local 20 exchange telecommunications company party may petition the 21 commission for a change, but the commission shall grant such petition only after an opportunity for a hearing and a 22 compelling showing of changed circumstances, including that 23 the provider's customer population includes as many 24 25 residential as business customers. The commission shall act 26 on any such petition within 120 days. The costs and expenses of any government program or project required in part II of 27 28 this chapter shall not be recovered under this subsection. 29 (4)(a) On or before July 1, 2000 Prior to the 30 expiration of this 4-year period, the Legislature shall establish a specific, predictable, and sufficient permanent 31 4

universal service mechanism that operates in a competitively 1 neutral manner. The mechanism shall take effect on or before 2 3 January 1, 2001 upon the effective date of which any interim 4 recovery mechanism for universal service objectives or 5 carrier-of-last-resort obligations imposed on alternative 6 local exchange telecommunications companies shall terminate. 7 (b) To assist the Legislature in establishing a 8 permanent universal service mechanism, the commission, by 9 February 15, 1999, shall determine and report to the President of the Senate and the Speaker of the House of Representatives 10 the total forward-looking cost, based upon the most recent 11 commercially available technology and equipment and generally 12 accepted design and placement principles, of providing basic 13 14 local telecommunications service on a basis no greater than a wire center basis using a cost proxy model to be selected by 15 the commission after notice and opportunity for hearing. 16 17 (c) In determining the cost of providing basic local telecommunications service for small local exchange 18 19 telecommunications companies, which serve less than 100,000 access lines, the commission shall not be required to use the 20 cost proxy model selected pursuant to paragraph (b) until a 21 mechanism is implemented by the Federal Government for small 22 23 companies, but no sooner than January 1, 2001. The commission shall calculate a small local exchange telecommunications 24 25 company's cost of providing basic local telecommunications 26 services based on one of the following options: 27 1. A different proxy model; or 28 2. A fully distributed allocation of embedded costs, 29 identifying high-cost areas within the local exchange area the company serves and including all embedded investments and 30 31 expenses incurred by the company in the provision of universal 5 CODING: Words stricken are deletions; words underlined are additions.

2	costs consistent with 47 C.F.R. ss. 32, 36, and 64. The
3	geographic basis for the calculations shall be no smaller than
4	a census block group.
5	(d) The commission, by February 15, 1999, shall
6	determine and report to the President of the Senate and the
7	Speaker of the House of Representatives the amount of support
8	necessary to provide residential basic local
9	telecommunications service to low-income customers. For
10	purposes of this section, low-income customers are customers
11	who qualify for Lifeline service as defined in s. 364.10(2).
12	(5) There shall be no increase in basic local
13	telecommunications service rates except as provided by this
14	chapter. Local exchange telecommunications companies may not
15	recover universal service fund contributions through an
16	explicit end-user or line-item surcharge.

20	provider and carrier of last resort in areas requested to be
21	served by that alternative local exchange telecommunications
22	company. Upon petition of an alternative local exchange
23	telecommunications company, the commission shall have 120 days
24	to vote on granting in whole or in part or denying the
25	petition of the alternative local exchange company. The
26	commission may establish the alternative local exchange
27	telecommunications company as $\underline{a}$ the universal service provider

7	permanent universal service mechanism, the Florida Public
, 8	Service Commission, by February 15, 2000, shall recommend to
9	the President of the Senate and the Speaker of the House of
10	Representatives what the commission determines, after notice
11	and opportunity for hearing, to be a specific, predictable,
12	and sufficient mechanism for providing universal service. In
13	making its recommendation, the commission shall consider the
14	following items listed in subsections (1) through (10) and
15	make a specific finding as to whether an item should be
16	included in a universal service mechanism or make a specific
17	finding as to the manner in which an item should be included.
18	If the commission determines that an item should be included
19	as a component of a mechanism, it shall state with specificity
20	the basis for its recommendation and the manner in which the
20	component should be included. If the commission determines
21	that an item should not be included as a component of a
22	
23 24	mechanism, it shall state with specificity the basis for its rejection of the item. Any finding by the commission as to
24 25	the manner in which an item should be included in a mechanism
25 26	must be detailed and comprehensive. These items to be
20	considered are:
27	(1) The requirements of the federal Telecommunications

5	(3) Whether there shall be a revenue benchmark and how

14	(6) Whether, and to what extent, the mechanism shall
15	include special provisions that address the service areas,
16	market conditions, information resources, or other
17	circumstances of small local exchange companies serving fewer
18	than 100,000 access lines.
19	(7) The manner in which the local exchange company's
20	nonbasic service prices and access charges shall be changed to

22	contributions to any universal service support mechanism.
23	(8) How any explicit universal service mechanism shall
24	be administered and how any third-party administrator shall be

interconnection, network access, and resale, expedites the 1 2 need for the universal service fund. 3 4 In making its recommendation, the commission may include an item not listed in subsections (1) through (10) if the 5 6 commission first determines that it is a necessary component 7 of a universal service mechanism as that mechanism is 8 described in section 346.025(4), Florida Statutes. If the commission does recommend such an item, it shall state with 9 specificity the basis for its determination and the manner in 10 which it should be included in the mechanism. 11 12 Section 3. Subsection (10) is added to section 13 337.401, Florida Statutes, 1998 Supplement, to read: 14 337.401 Use of right-of-way for utilities subject to 15 regulation; permit; fees.--(10) This section, except subsection (6), does not 16 17 apply to the provision of pay telephone service on public or municipal roads or rights-of-way. 18 Section 4. A contract in effect on the effective date 19 20 of this act shall not be impaired. 21 Section 5. Effective July 1, 1999, section 364.0252, Florida Statutes, 1998 Supplement, is amended to read: 22 23 364.0252 Expansion of consumer information programs; customer assistance; rulemaking authority.--By January 1, 24 1999, The Florida Public Service Commission shall expand its 25 26 current consumer information program to inform consumers of 27 their rights as customers of competitive telecommunications services and shall assist customers in resolving any billing 28 29 and service disputes that customers are unable to resolve directly with the company. The commission may, pursuant to 30 this program, require all telecommunications companies 31 9
