I. SUMMARY:

The Carrollwood Recreation District was originally created in 1972, pursuant to ch. 72-565, Laws of Florida. The language creating this special district was revised in 1998, pursuant to ch. 98-475, Laws of Florida.

House Bill 1427 supersedes ch. 98-475, Laws of Florida, and revises the charter of the Carrollwood Recreation District in Hillsborough County, an independent special district.

This bill replaces all the language in ch. 98-475, but most of such language is restated. In keeping with the intent of the bill, however, it deletes provisions in the charter which have had their effect, and provides additional definitions.

This bill provides for nonpartisan, biennial elections and a transition schedule to biennial elections.

This bill provides for appointment of trustees under certain circumstances, and organization and elections of officers of the District's governing board.

The bill clarifies the District's powers and includes standard business practices of the District not previously enumerated as "new" powers.

II. SUBSTANTIVE ANALYSIS:

A. PRESENT SITUATION:

Pursuant to s. 189.429, F.S., (requiring draft codified charters), the Carrollwood Recreation District's charter was codified by ch. 98-475, Laws of Florida. The District is an independent district in the Carrollwood subdivision of Hillsborough County, which was created by the Legislature pursuant to ch. 72-565, Laws of Florida.

B. EFFECT OF PROPOSED CHANGES:

This bill supersedes ch. 98-475, Laws of Florida, and clarifies language in the charter, including providing additional definitions in the charter.

The bill provides for nonpartisan, *biennial elections, and a transition schedule*. The District currently has annual elections with specific election dates depending on whether its an even or odd numbered election year. By moving to biennial elections, which are conducted during the general elections, the District intends to increase voter turnout and decrease the expense associated with an election.

The bill requires candidates to *pay a qualifying fee* if a written petition with more than fifteen signatures is not submitted.

The bill provides for organization of the Board *providing for one-year terms for Board officers*.

The bill clarifies that all residents of the District, *even non-property owners*, may vote on non-ad valorem assessments. Although this is the current practice in the District, the charter provides for residents only to vote on non-ad valorem assessments.

The bill provides that a vote of a majority of the *members present* (rather than a majority of the quorum), is necessary to pass a motion or resolution.

The bill provides for *appointment of Trustees* under certain circumstances. The bill provides that *the Governor shall immediately appoint the number of trustees necessary to obtain a quorum* (6 members) when the number of trustees drops below 6. The appointed trustees must be qualified electors of the District and serve until a successor is elected or appointed. If there are any additional vacant seats after the Governor's appointments, then the Board has the authority to fill the vacancies. In addition, the bill provides that if there are vacancies due to less than six trustees being elected during that year's election cycle, the Board is authorized to appoint the number of trustees necessary to obtain a quorum. Trustees appointed by the Board under this section shall serve a term as if they were elected.

The bill provides for the *investment and expenditure of District funds*. The District, by resolution, may invest any surplus and reserve funds in accordance with general law. The District is authorized to maintain a petty cash fund and reserve fund and provides for the expenditure of those funds. The bill authorizes the District to transfer funds among line items up to 20 percent each fiscal year for unforeseen contingencies. Disbursements of funds, except those from petty cash, must be by check or draft signed by two of the authorized three members. Currently, disbursements of funds only need the president and one other member to sign.

The bill requires the Board to *conduct its business as a public body* which subjects the Board to open government, financial disclosure, avoidance of conflict of interest, and ethics laws.

The bill *clarifies the District's powers* and identifies standard business practices of the District in instances when those practices have not previously been enumerated as a power or duty of the District. These powers include:

- the authority to enter into contracts and agreements, including those for professional services;
- holding an organizational meeting and election of board officers;

- the ability to call meetings which are not the regularly established meetings;
- authorization to employ personnel necessary for the operation and maintenance of the District's facilities and to expend funds for a surety bond for each employee required to be bonded; and
- the authority to adopt bylaws; and
- the authority to enter into contracts and agreements, including those for professional services.

IV. COMMENTS:

Although Chapter 106, Florida Statutes, is applicable to the elections of trustees in this District, the District's charter provides an exemption from this chapter. The charter provides that any candidate who collects or expends campaign contributions shall do so in accordance with the campaign finance chapter of the Florida Statutes. However, a candidate is exempt from this requirement if the candidate declares in writing that he or she will not collect or expend any contributions except for the expenditure of funds for the payment of the qualifying fee or the cost of verification of signatures on petitions.

The changes in the District's charter regarding biennial elections was reviewed by Hillsborough County's Supervisor of Elections Pam Iorio. The changes were endorsed as they will save tax dollars and bring the act into compliance with general law.

The changes in the District's charter regarding the reserve and surplus funds were reviewed by the State Board of Administration. The SBA made recommendations of appropriate language for the charter's provisions. However, its recommendations of draft language does not constitute an endorsement of the legislation by SBA.
