## I. Summary:

The bill repeals statutory provisions relating to certain capital facility planning requirements and agency international program budget requirements because the language is outdated or obsolete.

The bill will take effect upon becoming laws.

This bill repeals ss. 216.0154, 216.0162, and 216.0315, Florida Statutes.

## II. Present Situation:

During the 1999-2000 legislative session interim, staff of the House of Representatives reviewed each chapter of the five volumes of the Florida Statutes to find provisions which were outdated or obsolete. Upon completion of the first draft, staff of Senate counterpart committees reviewed the work product to further refine the sections identified. The final list of some one thousand original sections of Florida law contained an identification of statutory sections which shared one or more of the following characteristics:

1. A reference to a dormant board, council or other non-governing authority;
2. A provision rendered obsolete due to the passage of time.
3. A requirement which was nonrecurring due to the completion of the activity;
4. A statement of legislative intent, findings or purpose so generalized as to provide no specific interpretive guidance on the context or particularity of the statute or its application;
5. A cross-reference to another section which was otherwise repealed;
6. The use of boilerplate language, such as a severability clause, which is assumed as part of legislative style and drafting or of judicial interpretation;
7. The creation of a short title, or popular name, unrelated to the purpose of the statute;
8. The use of archaic language or descriptions.
9. A redundancy in text or reference no longer needed.

**III. Effect of Proposed Changes:**

Section 1. The statutory provisions in s. 216.0154, F.S., relating to assessment of trends and conditions affecting the need for capital facilities are repealed. The Executive Office of the Governor will no longer be required to analyze capital facility needs or maintain related planning data in a planning database.

Section 2. The statutory provisions in s. 216.0162, F.S., relating to monitoring and evaluation of capital facilities in the planning and budgeting process are repealed and the associated responsibilities assigned to the Executive Office of the Governor are deleted.

Section 3. The statutory provisions in s. 216.0315, F.S., requiring state agencies to establish a separate fiscal category for international programs in its legislative budget request are repealed.

Section 4. This act will take effect upon becoming a law.
