Behavioral Health Service Delivery 9 Strategies.--(1) LEGISLATIVE FINDINGS AND INTENT.--The Legislature 10 finds that a management structure that places the 11 12 responsibility for mental health and substance-abuse-treatment 13 services within a single entity and that contains a flexible 14 funding arrangement will allow for customized services to meet 15 individual client needs and will provide incentives for 16 provider agencies to serve persons in the target population 17 who have the most complex treatment and support needs. The Legislature recognizes that in order for the state's publicly 18 19 funded mental health and substance-abuse-treatment systems to 20 evolve into a single well-integrated behavioral health system, a transition period is needed and demonstration sites must be 21 established where new ideas and technologies can be tested and 22 23 critically reviewed. 24 (2) DEFINITIONS.--As used in this section, the term: "Behavioral health services" means mental health 25 (a) 26 services and substance-abuse-treatment services that are 27 provided with state and federal funds. 28 "Managing entity" means an entity that manages the (b) 29 delivery of behavioral health services. 30 (3) SERVICE DELIVERY STRATEGIES. -- The Department of 31 Children and Family Services and the Agency for Health Care 3

CS for CS for SB 1258

Administration shall develop service delivery strategies that 1 will improve the coordination, integration, and management of 2 3 the delivery of mental health and substance-abuse-treatment 4 services to persons with emotional, mental, or addictive 5 disorders. It is the intent of the Legislature that a well-managed service delivery system will increase access for б 7 those in need of care, improve the coordination and continuity 8 of care for vulnerable and high-risk populations, redirect 9 service dollars from restrictive care settings and out-of-date service models to community-based psychiatric rehabilitation 10 services, and reward cost-effective and appropriate care 11 12 patterns. The Legislature recognizes that the Medicaid, mental 13 health, and substance-abuse-treatment programs are three 14 separate systems and that each has unique characteristics, 15 including unique requirements for eligibility. To move toward a well-integrated system of behavioral health care services 16 17 will require careful planning and implementation. It is the intent of the Legislature that the service delivery strategies 18 19 will be the first phase of transferring the provision and 20 management of mental health and substance-abuse-treatment 21 services provided by the Department of Children and Family Services and the Medicaid program from traditional 22 23 fee-for-service and unit-cost contracting methods to risk-sharing arrangements. As used in this section, the term 24 "behavioral health care services" means mental health services 25 26 and substance-abuse-treatment services that are provided with 27 state and federal funds. 28 (4) CONTRACT FOR SERVICES.--29 (a) The Department of Children and Family Services and 30 the Agency for Health Care Administration may contract for the 31 provision or management of behavioral health services with a 4

managing entity in at least two geographic areas. Both the 1 Department of Children and Family Services and the Agency for 2 3 Health Care Administration must contract with the same managing entity in any distinct geographic area where the 4 5 strategy operates. This managing entity shall be accountable 6 for the delivery of behavioral health services specified by 7 the department and the agency for children, adolescents, and 8 adults. The geographic area must be of sufficient size in 9 population and have enough public funds for behavioral health services to allow for flexibility and maximum efficiency. At 10 least one demonstration model must be in the G. Pierce Wood 11 12 Memorial Hospital catchment area. 13 (b) Under one of the service delivery strategies, the 14 Department of Children and Family Services may contract with a 15 prepaid mental health plan that operates under section 409.912, Florida Statutes, to be the managing entity. Under 16 17 this strategy, the Department of Children and Family Services is not required to competitively procure those services and, 18 19 notwithstanding other provisions of law, may employ 20 prospective payment methodologies that the department finds 21 are necessary to improve client care or institute more efficient practices. The Department of Children and Family 22 23 Services may employ in its contract any provision of the current prepaid behavioral health care plan authorized under 24 s. 409.912(3)(a) and (b), Florida Statutes, or any other 25 26 provision necessary to improve quality, access, continuity, 27 and price. Any contracts under this strategy in Area 6 of the 28 Agency for Health Care Administration or in the prototype 29 region under section 20.19(7), Florida Statutes, of the 30 Department of Children and Family Services may be entered with the existing substance-abuse-treatment provider network if an 31 5

1	administrative services organization is part of its network.
2	In Area 6 of the Agency for Health Care Administration or in
3	the prototype region of the Department of Children and Family
4	Services, the Department of Children and Family Services and
5	the Agency for Health Care Administration may employ
б	alternative service delivery and financing methodologies,
7	which may include prospective payment for certain population
8	groups. The population groups that are to be provided these
9	substance-abuse services would include at a minimum:
10	individuals and families receiving family safety services;
11	Medicaid-eligible children, adolescents, and adults who are
12	substance-abuse-impaired; or current recipients and persons at
13	risk of needing cash assistance under Florida's welfare reform
14	initiatives.
15	(c) Under the second service delivery strategy, the
16	Department of Children and Family Services and the Agency for
17	Health Care Administration shall competitively procure a
18	contract for the management of behavioral health services with
19	a managing entity. The Department of Children and Family
20	Services and the Agency for Health Care Administration may
21	purchase from the managing entity the management services
22	necessary to improve continuity of care and access to care,
23	contain costs, and improve quality of care. The managing
24	entity shall manage and coordinate all publicly funded
25	diagnostic or assessment services, acute care services,
26	rehabilitative services, support services, and continuing care
27	services for persons who meet the financial criteria specified
28	in part IV of chapter 394, Florida Statutes, for publicly
29	funded mental health and substance-abuse-treatment services or
30	for persons who are Medicaid eligible. The managing entity
31	shall be solely accountable for a geographic area and shall

coordinate the emergency care system. The managing entity may 1 be a network of existing providers with an 2 3 administrative-services organization that can function 4 independently, may be an administrative-services organization that is independent of local provider agencies, or may be an 5 6 entity of state or local government. 7 (d) Under both strategies, the Department of Children 8 and Family Services and the Agency for Health Care 9 Administration may: 1. Establish benefit packages based on the level of 10 severity of illness and level of client functioning; 11 12 2. Align and integrate procedure codes, standards, or 13 other requirements if it is jointly determined that these 14 actions will simplify or improve client services and 15 efficiencies in service delivery; 16 3. Use prepaid per capita and prepaid aggregate 17 fixed-sum payment methodologies; and 18 4. Modify their current procedure codes to increase 19 clinical flexibility, encourage the use of the most-effective 20 interventions, and support rehabilitative activities. 21 (e) The cost of the managing entity contract shall be funded through a combination of funds from the Department of 22 23 Children and Family Services and the Agency for Health Care 24 Administration. To operate the managing entity, the Department of Children and Family Services and the Agency for Health Care 25 26 Administration may not expend more than 10 percent of the 27 annual appropriations for mental health and substance-abuse-treatment services prorated to the geographic 28 29 areas and must include all behavioral health Medicaid funds, including psychiatric inpatient funds. This restriction does 30 31 not apply to a prepaid behavioral health plan that is 7

authorized under section 409.912(3)(a) and (b), Florida 1 2 Statutes. (f) Contracting and payment mechanisms for services 3 4 should promote flexibility and responsiveness and should allow different categorical funds to be combined. The service array 5 6 should be determined by using needs assessment and 7 best-practice models. 8 (g) Medicaid reimbursement shall remain 9 fee-for-service and the mental health and substance-abuse-treatment contracts under the Department of 10 Children and Family Services shall be based on unit service 11 12 costs until there has been sufficient experience with case-mix 13 analysis and service modeling to determine appropriate 14 prospective payment methodologies. (h) Medicaid contracts for Behavioral Health Overlay 15 Services for dependent children or delinquent children will 16 17 remain fee-for-service. Any provider who currently contracts to provide Medicaid behavioral health services with 18 19 residential group care facilities under the Family Safety 20 program of the Department of Children and Family Services or with the Department of Juvenile Justice to serve delinquent 21 youth in residential commitment programs shall be included in 22 23 the network of providers in both service delivery strategies and shall continue the existing staffing arrangements. During 24 25 the operation of the service delivery strategies, any new 26 behavioral health provider that enters into a contract with 27 residential group care facilities under the Family Safety program of the Department of Children and Family Services or 28 29 with the Department of Juvenile Justice for delinquent youth in residential commitment programs shall also be included in 30 31 the network.

(5) GOALS.--The goal of the service delivery 1 2 strategies is to provide a design for an effective 3 coordination, integration, and management approach for 4 delivering effective behavioral health services to persons who 5 are experiencing a mental health or substance abuse crisis, 6 who have a disabling mental illness or substance abuse 7 disorder and will require extended services in order to recover from their illness, or who need brief treatment or 8 9 supportive interventions to avoid a crisis or disability. Other goals of the models include the following: 10 (a) Improve accountability for a local system of 11 behavioral health care services to meet performance outcomes 12 13 and standards. 14 (b) Assure continuity of care for all children, 15 adolescents, and adults who enter the publicly funded behavioral health service system. 16 17 (c) Provide early diagnosis and treatment 18 interventions to enhance recovery and prevent hospitalization. 19 (d) Improve assessment of local needs for behavioral 20 health services. 21 (e) Improve the overall quality of behavioral health 22 services through the use of best-practice models. 23 (f) Demonstrate improved service integration between behavioral health programs and other programs, such as 24 25 vocational rehabilitation, education, child welfare, primary health care, emergency services, and criminal justice. 26 27 (g) Provide for additional testing of creative and flexible strategies for financing behavioral health services 28 29 to enhance individualized treatment and support services. 30 (h) Control the costs of services without sacrificing 31 quality of care. 9

1	(i) Coordinate the admissions and discharges from
2	state mental health hospitals and residential treatment
3	centers.
4	(j) Improve the integration, accessibility, and
5	dissemination of behavioral health data for planning and

7	(k) Promote specialized behavioral health services to
8	residents of assisted living facilities.
9	(1) Reduce the admissions and the length of stay for
10	dependent children in residential treatment centers.
11	(m) Provide services to abused and neglected children

13	(6) ESSENTIAL ELEMENTS
14	(a) The managing entity must demonstrate the ability
15	of its network of providers to comply with the pertinent
16	provisions of chapters 394 and 397, Florida Statutes, and to
17	assure the provision of comprehensive behavioral health
18	services. The network of providers shall include, but is not

22	under chapter 490 or chapter 491, Florida Statutes. A
