10	
11	Be It Enacted by the Legislature of the State of Florida:
12	
13	Section 1. Effective July 1, 2002, subsection (3) of
14	section 259.101, Florida Statutes, is amended to read:
15	259.101 Florida Preservation 2000 Act
16	(3) LAND ACQUISITION PROGRAMS SUPPLEMENTEDLess the
17	costs of issuance, the costs of funding reserve accounts, and
18	other costs with respect to the bonds, the proceeds of bonds
19	issued pursuant to this act shall be deposited into the
20	Florida Preservation 2000 Trust Fund created by s. 375.045.
21	Beginning in fiscal year 2002-2003, funds from the
22	unencumbered cash balance less approved commitments remaining
23	in the agency subaccounts in the Preservation 2000 Trust Fund
24	may be used by those agencies to fund projects described in
25	paragraphs (3)(a)-(h) of s. 259.105 which meet the criteria
26	for funding pursuant to the Florida Forever Program or the
27	Florida Preservation 2000 Program.Starting in fiscal year
28	2001-2002, from the cash balance less approved commitments
29	encumbered that is remaining in the Florida Preservation 2000
30	Trust Fund, the Legislature shall appropriate up to \$75
31	million from the Florida Preservation 2000 Trust Fund to the
	2

Save Our Everglades Trust Fund to be used for the acquisition 1 of lands needed for restoration of the Florida Everglades 2 3 pursuant to s. 373.470. Furthermore, the remaining cash 4 balances available for the Preservation 2000 programs 5 described in paragraphs (a)-(g) shall be adjusted pro rata for the amount appropriated by the Legislature. Additionally, any 6 7 cash balances less approved commitments encumbered available to the programs described in paragraphs (a)-(g) at the time 8 9 the first series of Florida Forever Program bonds is issued and proceeds are deposited into the Florida Forever Trust Fund 10 shall be reserved and remain unavailable for expenditure for 11 12 projects pursuant to the Florida Preservation 2000 Program 13 until and unless the programs receiving an allocation under 14 the Florida Forever Program described in paragraphs (3)(a)-(h) 15 of s. 259.105, respectively, have encumbered all funds available from the first Florida Forever Program bond issue. 16 17 To the extent that projects eligible for Preservation 2000 funds can also be eligible for Florida Forever funds, the 18 19 proceeds from Florida Forever bonds may be used to complete transactions begun with Preservation 2000 funds or meet cash 20 needs for property transactions begun in fiscal year 21 22 2000-2001. The remaining proceeds shall be distributed by the 23 Department of Environmental Protection in the following 24 manner:

(a) Fifty percent to the Department of Environmental
Protection for the purchase of public lands as described in s.
259.032. Of this 50 percent, at least one-fifth shall be used
for the acquisition of coastal lands.

(b) Thirty percent to the Department of Environmental
Protection for the purchase of water management lands pursuant
to s. 373.59, to be distributed among the water management

districts as provided in that section. Funds received by each district may also be used for acquisition of lands necessary to implement surface water improvement and management plans approved in accordance with s. 373.456 or for acquisition of lands necessary to implement the Everglades Construction Project authorized by s. 373.4592.

7 (c) Ten percent to the Department of Community Affairs 8 to provide land acquisition grants and loans to local 9 governments through the Florida Communities Trust pursuant to part III of chapter 380. From funds allocated to the trust, 10 \$3 million annually shall be used by the Division of State 11 12 Lands within the Department of Environmental Protection to implement the Green Swamp Land Protection Initiative 13 14 specifically for the purchase of conservation easements, as defined in s. 380.0677(4), of lands, or severable interests or 15 16 rights in lands, in the Green Swamp Area of Critical State 17 Concern. From funds allocated to the trust, \$3 million annually shall be used by the Monroe County Comprehensive Plan 18 19 Land Authority specifically for the purchase of any real property interest in either those lands subject to the Rate of 20 Growth Ordinances adopted by local governments in Monroe 21 County or those lands within the boundary of an approved 22 23 Conservation and Recreation Lands project located within the Florida Keys or Key West Areas of Critical State Concern; 24 however, title to lands acquired within the boundary of an 25 26 approved Conservation and Recreation Lands project may, in 27 accordance with an approved joint acquisition agreement, vest in the Board of Trustees of the Internal Improvement Trust 28 29 Fund. Of the remaining funds allocated to the trust after the above transfers occur, one-half shall be matched by local 30 governments on a dollar-for-dollar basis. To the extent 31

4

allowed by federal requirements for the use of bond proceeds, 1 2 the trust shall expend Preservation 2000 funds to carry out 3 the purposes of part III of chapter 380. 4 (d) Two and nine-tenths percent to the Department of 5 Environmental Protection for the purchase of inholdings and additions to state parks. For the purposes of this paragraph, б 7 "state park" means all real property in the state under the jurisdiction of the Division of Recreation and Parks of the 8 9 department, or which may come under its jurisdiction. (e) Two and nine-tenths percent to the Division of 10 Forestry of the Department of Agriculture and Consumer 11 12 Services to fund the acquisition of state forest inholdings 13 and additions pursuant to s. 589.07. 14 (f) Two and nine-tenths percent to the Fish and Wildlife Conservation Commission to fund the acquisition of 15 inholdings and additions to lands managed by the commission 16 17 which are important to the conservation of fish and wildlife. 18 (g) One and three-tenths percent to the Department of 19 Environmental Protection for the Florida Greenways and Trails 20 Program, to acquire greenways and trails or greenways and trails systems pursuant to chapter 260, including, but not 21 22 limited to, abandoned railroad rights-of-way and the Florida National Scenic Trail. 23 24 Local governments may use federal grants or loans, private 25 26 donations, or environmental mitigation funds, including 27 environmental mitigation funds required pursuant to s. 338.250, for any part or all of any local match required for 28 29 the purposes described in this subsection. Bond proceeds allocated pursuant to paragraph (c) may be used to purchase 30 lands on the priority lists developed pursuant to s. 259.035. 31 5 CODING: Words stricken are deletions; words underlined are additions.

Title to lands purchased pursuant to paragraphs (a), (d), (e), 1 2 (f), and (g) shall be vested in the Board of Trustees of the 3 Internal Improvement Trust Fund. Title to lands purchased 4 pursuant to paragraph (c) may be vested in the Board of 5 Trustees of the Internal Improvement Trust Fund. The board of trustees shall hold title to land protection agreements and 6 7 conservation easements that were or will be acquired pursuant to s. 380.0677, and the Southwest Florida Water Management 8 9 District and the St. Johns River Water Management District shall monitor such agreements and easements within their 10 respective districts until the state assumes this 11 12 responsibility. 13 Section 2. Paragraph (a) of subsection (3) of section 14 373.139, Florida Statutes, is amended to read: 15 373.139 Acquisition of real property.--16 (3) The initial 5-year work plan and any subsequent 17 modifications or additions thereto shall be adopted by each 18 water management district after a public hearing. Each water 19 management district shall provide at least 14 days' advance 20 notice of the hearing date and shall separately notify each county commission within which a proposed work plan project or 21 22 project modification or addition is located of the hearing 23 date. (a) Appraisal reports, offers, and counteroffers are 24 confidential and exempt from the provisions of s. 119.07(1)25 26 until an option contract is executed or, if no option contract 27 is executed, until 30 days before a contract or agreement for purchase is considered for approval by the governing board. 28 29 However, each district may, at its discretion, disclose appraisal reports to private landowners during negotiations 30 for acquisitions using alternatives to fee simple techniques, 31

**CODING:**Words stricken are deletions; words underlined are additions.

6

if the district determines that disclosure of such reports 1 will bring the proposed acquisition to closure. In the event 2 that negotiation is terminated by the district, the title 3 4 information, appraisal report, offers, and counteroffers shall 5 become available pursuant to s. 119.07(1). Notwithstanding the provisions of this section and s. 259.041, a district and the 6 7 Division of State Lands may share and disclose title information, appraisal reports, appraisal information, offers, 8 9 and counteroffers when joint acquisition of property is contemplated. A district and the Division of State Lands shall 10 maintain the confidentiality of such title information, 11 12 appraisal reports, appraisal information, offers, and counteroffers in conformance with this section and s. 259.041, 13 14 except in those cases in which a district and the division have exercised discretion to disclose such information. A 15 district may disclose appraisal information, offers, and 16 17 counteroffers to a third party who has entered into a contractual agreement with the district to work with or on the 18 19 behalf of or to assist the district in connection with land acquisitions. The third party shall maintain the 20 confidentiality of such information in conformance with this 21 section. In addition, a district may use, as its own, 22 23 appraisals obtained by a third party provided the appraiser is selected from the district's list of approved appraisers and 24 the appraisal is reviewed and approved by the district. 25 26 Section 3. Subsection (4) is added to section 373.236, Florida Statutes, to read: 27 373.236 Duration of permits; compliance reports.--28 29 The department or the water management district (4) shall consider issuing longer-duration permits to applicants 30 who implement and provide reasonable assurances of effective 31 7

and efficient conservation measures that exceed the average 1 2 for the industry or type of water use when there is sufficient 3 data to provide reasonable assurance that the conditions for 4 permit issuance will be met for the duration of the permit. 5 Permits issued for a 10-year duration or longer shall be 6 subject to the provisions of subsection (3). 7 Section 4. Subsections (18) and (19) of section 373.414, Florida Statutes, are amended to read: 8 373.414 Additional criteria for activities in surface 9 waters and wetlands.--10 (18) The department and each water management district 11 12 responsible for implementation of the environmental resource 13 permitting program shall develop a uniform wetland mitigation 14 assessment method for wetlands and other surface waters no 15 later than October 1, 2001. The department shall adopt the 16 uniform wetland mitigation assessment method by rule no later 17 than July 31, January 31, 2002. The rule shall provide an exclusive and consistent process for determining the amount of 18 19 mitigation required to offset impacts to wetlands and other 20 surface waters, and, once effective, shall supersede all 21 rules, ordinances, and variance procedures from ordinances 22 that determine the amount of mitigation needed to offset such 23 impacts. Once the department adopts the uniform wetland mitigation assessment method by rule, the uniform wetland 24 mitigation assessment method shall be binding on the 25 26 department, the water management districts, local governments, 27 and any other governmental agencies and shall be the sole means to determine the amount of mitigation needed to offset 28 29 adverse impacts to wetlands and other surface waters and to award and deduct mitigation bank credits. A water management 30 district and any other governmental agency subject to chapter 31 8

120 may apply the uniform wetland mitigation assessment method 1 without the need to adopt it pursuant to s. 120.54. It shall 2 3 be a goal of the department and water management districts 4 that the uniform wetland mitigation assessment method 5 developed be practicable for use within the timeframes provided in the permitting process and result in a consistent б 7 process for determining mitigation requirements. It shall be 8 recognized that any such method shall require the application 9 of reasonable scientific judgment. The uniform wetland mitigation assessment method must determine the value of 10 functions provided by wetlands and other surface waters 11 12 considering the current conditions of these areas, utilization by fish and wildlife, location, uniqueness, and hydrologic 13 14 connection, and, when applied to mitigation banks, in addition 15 to the factors listed in s. 373.4136(4). The uniform wetland mitigation assessment method shall also account for the 16 17 expected time-lag associated with offsetting impacts and the degree of risk associated with the proposed mitigation. The 18 19 uniform wetland mitigation assessment method shall account for different ecological communities in different areas of the 20 state. In developing the uniform wetland mitigation assessment 21 22 method, the department and water management districts shall 23 consult with approved local programs under s. 403.182 which have an established wetland mitigation program for wetlands 24 and other surface waters. The department and water management 25 26 districts shall consider the recommendations submitted by such approved local programs, including any recommendations 27 relating to the adoption by the department and water 28 29 management districts of any uniform wetland mitigation methodology that has been adopted and used by an approved 30 local program in its established wetland mitigation program 31

9

## First Engrossed

for wetlands and other surface waters. Environmental resource 1 2 permitting rules may establish categories of permits or 3 thresholds for minor impacts under which the use of the 4 uniform wetland mitigation assessment method will not be 5 required. The application of the uniform wetland mitigation assessment method is not subject to s. 70.001. In the event 6 7 the rule establishing the uniform wetland mitigation 8 assessment method is deemed to be invalid, the applicable 9 rules related to establishing needed mitigation in existence prior to the adoption of the uniform wetland mitigation 10 assessment method, including those adopted by a county which 11 12 is an approved local program under s. 403.182, and the method 13 described in paragraph (b) for existing mitigation banks, 14 shall be authorized for use by the department, water 15 management districts, local governments, and other state 16 agencies.

(a) In developing the uniform wetland mitigation
assessment method, the department shall seek input from the
United States Army Corps of Engineers in order to promote
consistency in the mitigation assessment methods used by the
state and federal permitting programs.

22 (b) An entity which has received a mitigation bank 23 permit prior to the adoption of the uniform wetland mitigation assessment method shall have impact sites assessed, for the 24 purpose of deducting bank credits, using the credit assessment 25 26 method, including any functional assessment methodology, which 27 was in place when the bank was permitted; unless the entity elects to have its credits redetermined, and thereafter have 28 29 its credits deducted, using the uniform wetland mitigation 30 assessment method.

31

1	(19) The Office of Program Policy Analysis and
2	Government Accountability shall study the cumulative impact
3	consideration required by subsection (8) and issue a report by
4	July 1, 2001. The study shall address the justification for
5	the cumulative impact consideration, changes that can provide
6	clarity and certainty in the cumulative impact consideration,
7	and whether a practicable, consistent, and equitable
8	methodology can be developed for considering cumulative
9	impacts within the environmental resource permitting program.
10	Section 5. Paragraph (g) is added to subsection (1) of
11	section 378.212, Florida Statutes, to read:
12	378.212 Variances
13	(1) Upon application, the secretary may grant a
14	variance from the provisions of this part or the rules adopted
15	pursuant thereto. Variances and renewals thereof may be
16	granted for any one of the following reasons:
17	(g) To accommodate reclamation that provides water
18	supply development or water resource development consistent
19	with the regional water supply plan approved pursuant to s.
20	373.0361, provided that regional water resources are not
21	adversely affected.
22	Section 6. Subsection (11) of section 403.067, Florida
23	Statutes, is amended to read:
24	403.067 Establishment and implementation of total
25	maximum daily loads
26	(11) IMPLEMENTATION OF ADDITIONAL PROGRAMS
27	(a) The department shall not implement, without prior
28	legislative approval, any additional regulatory authority
29	pursuant to s. 303(d) of the Clean Water Act or 40 C.F.R. part
30	130, if such implementation would result in water quality
31	
	11
COD	ING:Words stricken are deletions; words <u>underlined</u> are additions.

discharge regulation of activities not currently subject to 1 2 regulation. 3 (b) Interim measures, best management practices, or 4 other measures may be developed and voluntarily implemented 5 pursuant to paragraph (7)(c) or paragraph (7)(d) for any water 6 body or segment for which a total maximum daily load or 7 allocation has not been established. The implementation of 8 such pollution control programs may be considered by the 9 department in the determination made pursuant to subsection 10 (4). Section 7. Section 373.2505, Florida Statutes, is 11 12 created to read: 13 373.2505 Permitting requirements for alternative water 14 facilities and electric power plants .--15 (1) The Legislature finds that the recent increase in proposed electric power plants that are not subject to the 16 17 regulatory-review requirements of the Florida Electrical Power 18 Plant Siting Act creates both potential problems and 19 water-supply opportunities. The continued proliferation of 20 inland plants may result in environmental and 21 growth-management problems for the counties in which they are located and can affect the patterns of urban development and 22 23 demands on water resources if improperly located and inadequately regulated. 24 25 (2)(a) Electric power plants of any generating 26 technology are encouraged to locate in coastal counties where 27 they can be colocated with reverse-osmosis facilities or other 28 similar technologies to desalinate water resources to help 29 meet potable-water-supply needs. Entities having existing 30 electric power plant sites located in coastal counties are 31 encouraged to evaluate modifications, expansions, or additions 12

that would be colocated with reverse-osmosis or other similar 1 2 technologies to desalinate water resources to help meet 3 potable-water-supply needs. (b) Reverse-osmosis facilities or other similar 4 5 desalination technologies that are proposed to be colocated 6 with electric power plants are eligible to receive cooperative 7 funding assistance from water management districts created 8 under chapter 373 for those that have cooperative-funding 9 assistance programs for activities designed to promote alternative water supplies. 10 (3) Notwithstanding other permitting requirements 11 12 imposed by law, construction permit applications for a new 13 electric plant unrelated to an existing electric power plant 14 site located anywhere within the interior counties immediately 15 contiguous to the most impacted area within the Eastern Tampa Bay water caution area must demonstrate that the sole source 16 17 of its cooling water will be provided by the reuse of reclaimed wastewater or another nonpotable water source in 18 19 order to assure protection of groundwater and surface water 20 resources. 21 Section 8. Paragraph (f) of subsection (2) of section 403.813, Florida Statutes, is amended to read: 22 403.813 Permits issued at district centers; 23 24 exceptions.--(2) No permit under this chapter, chapter 373, chapter 25 61-691, Laws of Florida, or chapter 25214 or chapter 25270, 26 1949, Laws of Florida, shall be required for activities 27 associated with the following types of projects; however, 28 29 nothing in this subsection relieves an applicant from any requirement to obtain permission to use or occupy lands owned 30 by the Board of Trustees of the Internal Improvement Trust 31 13 CODING: Words stricken are deletions; words underlined are additions.

Fund or any water management district in its governmental or 1 proprietary capacity or from complying with applicable local 2 3 pollution control programs authorized under this chapter or other requirements of county and municipal governments: 4 (f) The performance of maintenance dredging of 5 6 existing manmade canals, channels, intake and discharge 7 structures, and previously dredged portions of natural water 8 bodies within drainage rights-of-way or drainage easements 9 which have been recorded in the public records of the county, where the spoil material is to be removed and deposited on a 10 self-contained, upland spoil site which will prevent the 11 12 escape of the spoil material into the waters of the state, 13 provided that no more dredging is to be performed than is 14 necessary to restore the canals, channels, and intake and discharge structures, and previously dredged portions of 15 natural water bodies, to original design specifications or 16 17 configurations, provided that the work is conducted in compliance with s. 370.12(2)(d), provided that no significant 18 19 impacts occur to previously undisturbed natural areas, and provided that control devices for return flow and best 20 management practices for erosion and sediment control are 21 22 utilized to prevent bank erosion and scouring and to prevent 23 turbidity, dredged material, and toxic or deleterious substances from discharging into adjacent waters during 24 maintenance dredging. Further, for maintenance dredging of 25 26 previously dredged portions of natural water bodies within 27 recorded drainage rights-of-way or drainage easements, an entity that seeks an exemption must notify the department or 28 29 water management district, as applicable, at least 30 days prior to dredging and provide documentation of original design 30 specifications or configurations where such exist. This 31

CODING: Words stricken are deletions; words underlined are additions.

14

exemption applies to all canals and previously dredged 1 portions of natural water bodies within recorded drainage 2 rights-of-way or drainage easements constructed prior to April 3 3, 1970, and to those canals and previously dredged portions 4 5 of natural water bodies constructed on or after April 3, 1970, pursuant to all necessary state permits. This exemption does 6 7 not apply to the removal of a natural or manmade barrier 8 separating a canal or canal system from adjacent waters. When 9 no previous permit has been issued by the Board of Trustees of the Internal Improvement Trust Fund or the United States Army 10 Corps of Engineers for construction or maintenance dredging of 11 12 the existing manmade canal or intake or discharge structure, 13 such maintenance dredging shall be limited to a depth of no 14 more than 5 feet below mean low water. The Board of Trustees 15 of the Internal Improvement Trust Fund may fix and recover 16 from the permittee an amount equal to the difference between 17 the fair market value and the actual cost of the maintenance dredging for material removed during such maintenance 18 19 dredging. However, no charge shall be exacted by the state for 20 material removed during such maintenance dredging by a public port authority. The removing party may subsequently sell such 21 22 material; however, proceeds from such sale that exceed the 23 costs of maintenance dredging shall be remitted to the state and deposited in the Internal Improvement Trust Fund. 24 Section 9. In order to aid in the development of a 25 26 better understanding of the unique surface and groundwater resources of this state, the water management districts shall 27 develop an information program designed to provide information 28 29 on existing hydrologic conditions of major surface and groundwater sources in this state and suggestions for good 30 conservation practices within those areas. The program shall 31 15

be developed no later than December 31, 2002. Beginning 1 January 1, 2003, and on a regular basis no less than every 6 2 3 months thereafter, the information developed pursuant to this 4 section shall be distributed to every member of the Florida 5 Senate and the Florida House of Representatives and to local 6 print and broadcast news organizations. Each water management 7 district shall be responsible for the distribution of this 8 information within its established geographic area. 9 Section 10. The Legislature finds that within the area identified in the Lower East Coast Regional Water Supply Plan 10 approved by the South Florida Water Management District 11 12 pursuant to section 373.0361, Florida Statutes, the 13 groundwater levels can benefit from augmentation. The 14 Legislature finds that the discharge of reclaimed water into 15 canals for transport and subsequent reuse may provide an 16 environmentally acceptable means to augment water supplies and 17 enhance natural systems; however, the Legislature also recognizes that there are water quality and water quantity 18 19 issues that must be better understood and resolved. In 20 addition, there are cost-savings possible by colocating 21 enclosed conduits for conveyance of water for reuse in this area within canal right-of-way that should be investigated. 22 23 Toward that end, the Department of Environmental Protection, in consultation with the South Florida Water Management 24 25 District, Southeast Florida utilities, affected local 26 governments, including local governments with principal 27 responsibility for the operation and maintenance of a water 28 control system capable of conveying reclaimed wastewater for 29 reuse, representatives of the environmental and engineering 30 communities, public health professionals, and individuals 31 having expertise in water quality, shall conduct a study to 16

First Engrossed

investigate the feasibility of discharging reclaimed 1 2 wastewater to canals as an environmentally acceptable means of 3 augmenting ground water supplies, enhancing natural systems, 4 and conveying reuse water within enclosed conduits within the 5 canal right-of-way. The study shall include an assessment of the water quality, water supply, public health, technical, and 6 7 legal implications related to the canal discharge and 8 colocation concepts. The department shall issue a preliminary 9 written report containing draft findings and recommendations for public comment by November 1, 2002. The department shall 10 provide a written report on the results of its study to the 11 12 Governor and the substantive committees of the House of 13 Representatives and the Senate by January 31, 2003. Nothing 14 in this section shall be used to alter the purpose of the 15 Comprehensive Everglades Restoration Plan or the implementation of the Water Resources Development Act of 2000. 16 17 Section 11. Subsection (4) of section 373.0831, Florida Statutes, is amended to read: 18 19 373.0831 Water resource development; water supply 20 development.--21 (4)(a) Water supply development projects which are 22 consistent with the relevant regional water supply plans and 23 which meet at least one or more of the following criteria shall receive priority consideration for state or water 24 25 management district funding assistance: 26 1. The project supports establishment of a dependable, 27 sustainable supply of water which is not otherwise financially 28 feasible; 29 The project provides substantial environmental 2. benefits by preventing or limiting adverse water resource 30 31 17 CODING: Words stricken are deletions; words underlined are additions.

impacts, but requires funding assistance to be economically 1 2 competitive with other options; or 3 3. The project significantly implements reuse, 4 storage, recharge, or conservation of water in a manner that 5 contributes to the efficient use and sustainability of 6 regional water supply sources. 7 (b) Water supply development projects which meet the 8 criteria in paragraph (a) and also bring about replacement of 9 existing sources in order to help implement a minimum flow or level shall be given first consideration for state or water 10 management district funding assistance. 11 12 (c) If a proposed alternative water supply project is identified in the relevant approved regional water supply 13 14 plan, the project shall be eligible for at least one of the 15 following: 16 1. A 20-year consumptive use permit, if it otherwise 17 meets the permit requirements under s. 373.223 and s. 373.236 18 and rules adopted thereunder; 19 2. Consideration for priority funding pursuant to s. 20 373.1961(2) with the implementation of the water resource 21 development component of the proposed project. 22 Section 12. Section 373.498, Florida Statutes, is 23 repealed. Section 13. Section 215.981, Florida Statutes, is 24 25 amended to read: 26 215.981 Audits of state agency direct-support 27 organizations and citizen support organizations.--Each direct-support organization and each citizen support 28 29 organization, created or authorized pursuant to law, and created, approved, or administered by a state agency, other 30 than a university, district board of trustees of a community 31 18 CODING: Words stricken are deletions; words underlined are additions.

1	college, or district school board, shall provide for an annual
2	financial audit of its accounts and records to be conducted by
3	an independent certified public accountant in accordance with
4	rules adopted by the Auditor General pursuant to s. 11.45(8)
5	and the state agency that created, approved, or administers
6	the direct-support organization or citizen support
7	organization, whenever the organization's annual expenses
8	exceed \$100,000. The audit report shall be submitted within 9
9	months after the end of the fiscal year to the Auditor General
10	and to the state agency responsible for creation,
11	administration, or approval of the direct-support organization
12	or citizen support organization. Such state agency, the
13	Auditor General, and the Office of Program Policy Analysis and
14	Government Accountability shall have the authority to require
15	and receive from the organization or from the independent
16	auditor any records relative to the operation of the
17	organization.
18	Section 14. Subsection (1) of section 373.114, Florida
19	Statutes, is amended to read:
20	373.114 Land and Water Adjudicatory Commission; review
21	of district rules and orders; department review of district
22	rules
23	(1) Except as provided in subsection (2), the Governor
24	and Cabinet, sitting as the Land and Water Adjudicatory
25	Commission, have the exclusive authority to review any order
26	or rule of a water management district, other than a rule
27	relating to an internal procedure of the district or a final
28	order resulting from an evidentiary hearing held under s.
29	120.569 or s. 120.57 or a rule that has been adopted after
30	issuance of a final order resulting from an evidentiary
31	hearing held under s. $120.56$ , to ensure consistency with the
	19

## First Engrossed

CS for SB 2122

provisions and purposes of this chapter. Subsequent to the 1 legislative ratification of the delineation methodology 2 3 pursuant to s. 373.421(1), this subsection also shall apply to 4 an order of the department, or a local government exercising 5 delegated authority, pursuant to ss. 373.403-373.443, except an order pertaining to activities or operations subject to 6 7 conceptual plan approval pursuant to chapter 378 or a final 8 order resulting from an evidentiary hearing held under s. 9 120.569 or s. 120.57.

10 (a) Such review may be initiated by the department or by a party to the proceeding below by filing a request for 11 12 review with the Land and Water Adjudicatory Commission and 13 serving a copy on the department and on any person named in 14 the rule or order within 20 days after adoption of the rule or 15 the rendering of the order. For the purposes of this section, 16 the term "party" means any affected person who submitted oral 17 or written testimony, sworn or unsworn, of a substantive nature which stated with particularity objections to or 18 19 support for the rule or order that are cognizable within the scope of the provisions and purposes of this chapter, or any 20 person who participated as a party in a proceeding instituted 21 pursuant to chapter 120. In order for the commission to 22 23 accept a request for review initiated by a party below, with regard to a specific order, three four members of the 24 commission must determine on the basis of the record below 25 26 that the activity authorized by the order would substantially affect natural resources of statewide or regional 27 significance. Review of an order may also be accepted if three 28 29 four members of the commission determine that the order raises issues of policy, statutory interpretation, or rule 30 interpretation that have regional or statewide significance 31

CODING: Words stricken are deletions; words underlined are additions.

20

from the standpoint of agency precedent. The party requesting 1 2 the commission to review an order must allege with 3 particularity, and the commission must find, that: 4 1. The order is in conflict with statutory 5 requirements; or 6 2. The order is in conflict with the requirements of a 7 duly adopted rule. (b) Review by the Land and Water Adjudicatory 8 9 Commission is appellate in nature and shall be based solely on the record below unless the commission determines that a 10 remand for a formal evidentiary proceeding is necessary to 11 develop additional findings of fact. If there is was no 12 evidentiary administrative proceeding resulting from a remand 13 14 or referral for findings of fact by the commission, then 15 below, the facts contained in the proposed agency action or proposed water management district action, including any 16 17 technical staff report, shall be deemed undisputed. The matter shall be heard by the commission not more than 60 days 18 19 after receipt of the request for review, unless waived by the parties; provided, however, such time limit shall be tolled by 20 21 a referral or remand pursuant to this paragraph. The commission may refer a request for review to the Division of 22 23 Administrative Hearings for the production of findings of fact, limited to those needed to render the decision 24 requested, to supplement the record, if a majority of the 25 26 commission determines that supplementary findings of fact are essential to determine the consistency of a rule or order with 27 the provisions and purposes of this chapter. Alternatively, 28 29 the commission may remand the matter to the agency below for 30 additional findings of fact, limited to those needed to render 31 the decision requested, to supplement the record, if a 21

1	majority of the commission determines that supplementary
2	findings of fact are essential to determine the consistency of
3	a rule or order with the provisions and purposes of this
4	chapter. Such proceedings must be conducted and the findings
5	transmitted to the commission within 90 days of the remand or
6	<u>referral.</u>
7	(c) If the Land and Water Adjudicatory Commission
8	determines that a rule of a water management district is not
9	consistent with the provisions and purposes of this chapter,
10	it may require the water management district to initiate
11	rulemaking proceedings to amend or repeal the rule. If the
12	commission determines that an order is not consistent with the
13	provisions and purposes of this chapter, the commission may
14	rescind or modify the order or remand the proceeding for
15	further action consistent with the order of the Land and Water
16	Adjudicatory Commission only if the commission determines that
17	the activity authorized by the order would substantially
18	affect natural resources of statewide or regional
19	significance. In the case of an order which does not itself
20	substantially affect natural resources of statewide or
21	regional significance, but which raises issues of policy that
22	have regional or statewide significance from the standpoint of
23	agency precedent, the commission may direct the district to
24	initiate rulemaking to amend its rules to assure that future
25	actions are consistent with the provisions and purposes of
26	this chapter without modifying the order.
27	(d) In a review under this section of a construction
28	permit issued pursuant to a conceptual permit under part IV,
29	which conceptual permit is issued after July 1, 1993, a party
30	to the review may not raise an issue which was or could have
31	
	22

been raised in a review of the conceptual permit under this 1 2 section. (e) A request for review under this section shall not 3 4 be a precondition to the seeking of judicial review pursuant to s. 120.68 or the seeking of an administrative determination 5 6 of rule validity pursuant to s. 120.56. 7 (f) The Florida Land and Water Adjudicatory Commission 8 may adopt rules to set forth its procedures for reviewing an 9 order or rule of a water management district consistent with the provisions of this section. 10 (g) For the purpose of this section, it shall be 11 12 presumed that activity authorized by an order will not affect resources of statewide or regional significance if the 13 14 proposed activity: 15 1. Occupies an area less than 10 acres in size, and 16 Does not create impervious surfaces greater than 2 2. 17 acres in size, and Is not located within 550 feet of the shoreline of 18 3 19 a named body of water designated as Outstanding Florida 20 Waters, and 21 4. Does not adversely affect threatened or endangered 22 species. 23 This paragraph shall not operate to hold that any activity 24 that exceeds these limits is presumed to affect resources of 25 26 statewide or regional significance. The determination of 27 whether an activity will substantially affect resources of statewide or regional significance shall be made on a 28 29 case-by-case basis, based upon facts contained in the record 30 below. 31 23 CODING: Words stricken are deletions; words underlined are additions.

1	Section 15. Subsection (5) of section 403.412, Florida
2	Statutes, is amended, present subsection (6) is renumbered as
3	subsection (8), and new subsections (6) and (7) are added to
4	said section to read:
5	403.412 Environmental Protection Act
6	(5) In any administrative, licensing, or other
7	proceedings authorized by law for the protection of the air,
8	water, or other natural resources of the state from pollution,
9	impairment, or destruction, the Department of Legal Affairs, a
10	political subdivision or municipality of the state, or a
11	citizen of the state shall have standing to intervene as a
12	party on the filing of a verified pleading asserting that the
13	activity, conduct, or product to be licensed or permitted has
14	or will have the effect of impairing, polluting, or otherwise
15	injuring the air, water, or other natural resources of the
16	state. As used in this section and as it relates to citizens,
17	the term "intervene" means to join an ongoing s. 120.569 or s.
18	120.57 proceeding; this section does not authorize a citizen
19	to institute, initiate, petition for, or request a proceeding
20	under s. 120.569 or s. 120.57. Nothing herein limits or
21	prohibits a citizen whose substantial interests will be
22	determined or affected by a proposed agency action from
23	initiating a formal administrative proceeding under s. 120.569
24	or s. 120.57. A citizen's substantial interests will be
25	considered to be determined or affected if the party
26	demonstrates it may suffer an injury in fact which is of
27	sufficient immediacy and is of the type and nature intended to
28	be protected by this chapter. No demonstration of special
29	injury different in kind from the general public at large is
30	required. A sufficient demonstration of a substantial interest
31	may be made by a petitioner who establishes that the proposed
	24

1	activity, conduct, or product to be licensed or permitted
2	affects the petitioner's use or enjoyment of air, water, or
3	natural resources protected by this chapter.
4	(6) Any corporation not for profit which has at least
5	25 current members residing within the county where the
6	activity is proposed, and which was formed for the purpose of
7	the protection of the environment, fish and wildlife
8	resources, and protection of air and water quality, may
9	initiate a hearing pursuant to s. 120.569 or s. 120.57,
10	provided that the corporation not for profit was formed at
11	least one year prior to the date of the filing of the
12	application for a permit, license, or authorization that is
13	the subject of the notice of proposed agency action.
14	(7) In a matter pertaining to a federally delegated or
15	approved program, a citizen of the state may initiate an
16	administrative proceeding under this subsection if the citizen
17	meets the standing requirements for judicial review of a case
18	or controversy pursuant to Article III of the United States
19	Constitution.
20	Section 16. This act shall take effect upon becoming a
21	law.
