## I. Summary:

This bill creates the Transportation Revenue Bond Trust Fund within The Florida Department of Transportation (FDOT) for the deposit of funds received by FDOT from the proceeds or issuance of revenue bonds secured by state and federal revenues and credited to the trust fund.

## II. Present Situation:

Article III, section 19(f)(1), of the Florida Constitution, requires a trust fund be created in a separate bill passed by a three-fifths vote of the membership each house of the Legislature. Bond documents require bond proceeds must not be co-mingled with other funds and, therefore, require a dedicated trust fund. The current work program plans for FDOT to issue GARVEE bonds in fiscal year 2004-2005. The FDOT also anticipates issuance of Beeline-East Expressway revenue bonds and Sunshine Skyway Bridge revenue bonds to advance needed transportation projects. A trust fund will be needed to receive bond proceeds as FDOT moves forward with bond programs.

## III. Effect of Proposed Changes:

This bill creates the Transportation Revenue Bond Trust Fund within FDOT for the deposit of funds received by FDOT from the proceeds or issuance of revenue bonds secured by state and federal revenues and credited to the trust fund.
