B. EFFECT OF PROPOSED CHANGES:

HB 779 amends s. 290.00675, F.S., by increasing the maximum population for an enterprise zone eligible under this section from 245,000 to 260,000.

According to the Office of Tourism, Trade, and Economic Development and based on 2000 Census Data, increasing the maximum population to 260,000 will make eligible the following communities for enterprise zone status; Leon County, St. Petersburg, Collier County, and Marion County. Currently, Leon County, St. Petersburg, and Collier County (Immokalee area) have areas designated as enterprise zones.

Enterprise Zone Program

In 1980, Florida established one of the first enterprise zone programs in the country to encourage economic growth and investment in distressed areas. An enterprise zone is a specific geographic area targeted for economic revitalization.

The purpose of enterprise zones is to assist local communities, their residents, and the private sector in creating the environment to induce the investment of private resources in business enterprises located in severely distressed areas and to provide jobs for residents in the area.

Under the Enterprise Zone Act of 1994 [ss.290.001-290.016, F.S.], areas of the state meeting specified criteria have been designated as enterprise zones. According to the Office of Tourism, Trade, and Economic Development, since July 1, 1995, the state has designated 47 enterprise zones. State and local incentives are authorized to induce businesses to invest in enterprise zone which, in turn, offers a number of tax advantages to such businesses willing to make such an investment.

State and Local Incentives Available to Businesses in Enterprise Zones

Below are incentives provided to encourage the revitalization of enterprise zones:

- Enterprise zone jobs credit provided in s. 220.181, F.S.

- Sales tax exemption for building materials used in the rehabilitation of real property in enterprise zones provided in s. 212.08(5)(g), F.S.

- Sales tax exemption for electrical energy used in an enterprise zone provided in s. 212.08(15), F.S.

New, expanded, or rebuilt businesses located within an enterprise zone are allowed a credit on their Florida corporate income tax based on the amount of property taxes paid.

The amount of the refund is the lesser of 97 percent of the sales taxes paid or \$5,000, or, if 20 percent or more of the business's employees reside in an enterprise zone, the lesser of 97 percent of the sales taxes paid or \$10,000.

Exemption for Business Property Used in an Enterprise Zone – Sales Tax

A refund is available for sales taxes paid on the purchase of business property with a purchase price of \$5,000 or more purchased by and for use in a business located in an enterprise zone. The amount of the refund is the lesser of 97 percent of the sales taxes paid or \$5,000, or, if 20 percent or more of the business's employees reside in an enterprise zone, the lesser of 97 percent of the sales taxes paid or \$10,000.

Exemption for Electrical Energy Used in an Enterprise Zone – Sales Tax

The amount of the exemption is equal to 50 percent of the sales taxes otherwise due or 100 percent of the sales taxes otherwise due if 20 percent or more of the business's employees reside in an enterprise zone. This exemption is only available if the municipality in which the business is located has passed an ordinance to exempt the municipal utility taxes on such business.

Enterprise Zone Jobs Credit – Sales Tax

Businesses located within an enterprise zone that collect and pay Florida sales and use tax are allowed a credit against their sales tax due based on the amount of wages paid to new employees who are either residents of an enterprise zone or participants in a welfare transition program.

Occupational License Tax Exemption

By ordinance, the governing body of a municipality may exempt 50 percent of the occupational license tax for businesses located in an enterprise zone.

Economic Development Ad Valorem Tax Exemption

Up to 100 percent of the assessed value of improvements to real or tangible property of a new or expanded business located in an enterprise zone may be exempted from property taxes if the voters of a municipality authorize the governing body of the municipality to grant such exemptions.

Enterprise Zone Designation Process and Criteria

Section 290.0055, F.S., prescribes the local procedures for the nomination of an enterprise zone. Governing bodies or body of a county and/or a municipality must adopt a resolution which:

1. Finds that an area exists in such a county or municipality, or in both the county and one or more municipalities, which chronically exhibit extreme and unacceptable levels of poverty, unemployment, and economic disinvestment;
2. Determines that the rehabilitation, conservation, or redevelopment of the area is necessary in the interest of the public health, safety, and welfare of the residents of the county or municipality, or the county and one or more municipalities; and
3. Determines that the revitalization of the area can occur only if the private sector can be induced to invest its own resources in productive enterprises that build or rebuild the economic viability of the area.

The governing body or bodies of a nominated area must also create an enterprise zone development agency and create and adopt an enterprise zone strategic plan prior to the submission of an application to the Office of Tourism, Trade, and Economic Development.

The enterprise zone development agency created is responsible for assisting with the development and implementation of the enterprise zone strategic plan. The enterprise zone strategic plan is the community's plan for revitalizing the nominated area and contains commitments to enact and maintain local fiscal and regulatory incentives if the nominated area receives an enterprise zone designation.

Section 290.00675, F.S., authorizes the Office of Tourism, Trade, and Economic Development to amend the boundaries of an area designated as an enterprise zone in a community having a population of at least 235,000 persons but no less than 245,000 persons as long as the area so designated does not increase the overall size of the enterprise zone by greater than 25 acres and the increased area is contiguous to the existing enterprise zone.

Determination of Poverty, Unemployment, and General Distress

The Office of Tourism, Trade, and Economic Development may designate the nominated area as an enterprise zone if the selected area suffers from pervasive poverty, unemployment, and general distress. To determine whether an area suffers from pervasive poverty, census data must show that the poverty rate for each census block within the nominated area is at least 20 percent. The poverty rate must also exceed 30 percent in at least 50 percent of the census geographic block groups within the nominated area.

If a census block group within a nominated area has no population, it is considered to have a 20-percent poverty rate. Unemployment is evidenced by data indicating that the unemployment rate is equal to or greater than the state's unemployment rate or by evidence indicating severe economic conditions for the area. General distress is evidenced by such factors as a high crime rate, abandoned structures, and deteriorated infrastructure or substantial population decline.

Based on data from the Office of Tourism, Trade, and Economic Development, the impact of the Enterprise Zone Program is summarized in the table below.
