SUMMARY ANALYSIS

This bill creates an exception to the alcoholic beverage licensing statutes and authorizes the issuance of a special alcoholic beverage license to the University Area Community Development Corporation in Hillsborough County.

The attached Economic Impact Statement indicates that additional revenues may accrue to the state in the form of increased alcoholic beverage taxes resulting from sales by the license holder.

Pursuant to House Rule 5.5(b), a local bill providing an exception from general law may not be placed on the Special Order Calendar for expedited consideration. The provisions of House Rule 5.5(b) appear to apply to this bill.

B. EFFECT OF PROPOSED CHANGES:

Present Situation

The University Area Community Center Complex (UACCC) opened in January 2002. The UACCC is operated by the University Area Community Development Corporation (UACDC), Inc., a 501(c)(3), nonprofit. The Complex provides meeting spaces. Occasionally, those making inquiries decide against rental upon learning that a liquor license is not available for use at an event.

Current Law

Chapters 561-565 and 567 and 568, Florida Statutes, comprise Florida's Beverage Law. The Beverage Law requires a person to be licensed prior to engaging in the business of manufacturing, bottling, distributing, selling or in any way dealing in the commerce of alcoholic beverages. The sale of alcoholic beverages generally is considered to be a privilege and licensees are held to a high standard of accountability. The Division of Alcoholic Beverages and Tobacco, Department of Business and Professional Regulation is the state agency given responsibility for enforcement of the Beverage Law.

The Beverage Law requires the Division to conduct background investigations on potential licensees and requires that licensees meet prescribed standards of moral character. Further, the Beverage Law prohibits certain business practices and relationships. Alcoholic beverage licenses are subject to fine, suspension and/or revocation for violations of the Beverage Law.

Unless sold by the package for consumption off the licensed premises, the sale and consumption of alcoholic beverages by the drink is limited to the "licensed premises" of a retail establishment over which the licensee has dominion or control. The beverage law does not allow a patron to leave an establishment with an open alcoholic beverage and/or enter another licensed premise with an alcoholic beverage.

C. SECTION DIRECTORY:

Section 1: The bill provides that, notwithstanding any other provision of law, the Division of Alcoholic Beverages and Tobacco of the Department of Business and Professional Regulation is authorized. upon application, to issue an alcoholic beverage license to the UACDC for use by the corporation solely within the building known as the University Area Community Center Complex and its adjoining patio deck. The license may only be used for special events.

Section 2: The bill provides that the license shall not permit the sale of alcoholic beverages in sealed containers for consumption outside the Community Center Complex and off its patio.

The bill allows open bottles to be removed from the premises.

Section 3: The bill provides that the UACDC may transfer the license to qualified applicants who are either authorized by or under contract with the UACDC to provide food services at the Complex. Upon termination of a transferee's contract, the license will automatically revert to the UACDC.

Section 4: Provides an effective date of upon becoming law.

III. COMMENTS

A. CONSTITUTIONAL ISSUES:

Article III, Section 11, Subsection 12 of the Florida Constitution prohibits the legislature from passing a special law or general law of local application pertaining to a grant of privilege to a private corporation. Potentially, the granting of a special alcoholic beverage license would be considered unconstitutional if the operating entity is a private corporation and the bill is considered a special law or a general law of local application.

- B. RULE-MAKING AUTHORITY: Not applicable.
- C. DRAFTING ISSUES OR OTHER COMMENTS:

Other Comments:

This bill appears to create a pseudo-licensing system which is not authorized by the Beverage Law. This proposed system may create enforcement difficulties for the Division, and provide a standard for accountability that is less than that required for other licensees. For example, if a food services provider that is owned independently of the business entity that owns the complex license is found to be in violation of the Beverage Law, whom will the Division charge with the violation?

Rep. Crist appeared before the Subcommittee and spoke in favor of the bill. It remains unclear as to whether the owner of the license would be the nonprofit corporation.
