I. SUMMARY

HB 827 creates s. 288.833, F.S., providing for a State Homeland Security Trust Fund, and providing for how the proceeds of the fund are to be used. The bill provides that the proceeds of the Trust Fund shall be used to fund state homeland security, with priorities for funding to be focused on costs not funded by the federal government, such as operational costs of security at seaports and other venues. The bill directs the Domestic Security Oversight Board to review funding requests and recommend funding priorities. Trust Fund proceeds are derived from a security assessment against charter travel to terrorist nations provided in the linked bill, HB 605. The assessment is a \$100 flat fee on each instance of air charter travel to a terrorist nation, plus an additional \$0.04 per landed aircraft pound. For vessel charter travel to terrorist nations, the assessment is 10 percent of the value of the consideration received for the contracted charter services.

IV. COMMENTS

HB 827 requires the Domestic Security Oversight Board to review funding requests and make prioritized recommendations for domestic security funding using the Trust Fund proceeds. While a Domestic Security Oversight Board is currently functioning as a funding advisory group to the Governor and Legislature, no such entity has been legally constituted in the statutes or by Executive Order. HB 1715, currently before the Legislature, codifies and legally constitutes the group as the Domestic Security Oversight Council, with the authority to advise the Governor and Legislature on how to allocate federal funding for homeland security-related activities and improvements.
