## Florida Senate - 2007

**By** the Committees on General Government Appropriations; Environmental Preservation and Conservation; and Senator Jones

601-2644-07 1 A bill to be entitled 2 An act relating to beaches and shores; amending s. 161.021, F.S.; amending a definition; 3 4 amending s. 161.141, F.S.; providing additional 5 legislative intent; creating s. 161.144, F.S.; б providing for the development and maintenance 7 of an inventory of identified offshore sand 8 sources by the Department of Environmental Protection as part of its comprehensive 9 long-term beach management plan; providing for 10 public review of maps of offshore sand sources; 11 12 providing for boards of county commissioners of 13 coastal counties adjacent to sand sources proposed for use outside of the region or 14 subregion to be notified and given adequate 15 16 opportunity to comment during a project's 17 planning and permitting stages; providing for 18 the inclusion of certain information in the department's annual funding request; providing 19 an effective date. 20 21 22 Be It Enacted by the Legislature of the State of Florida: 23 Section 1. Subsection (1) of section 161.021, Florida 2.4 25 Statutes, is amended to read: 26 161.021 Definitions.--In construing these statutes, 27 where the context does not clearly indicate otherwise, the 28 word, phrase, or term: (1) "Access" or "public access" as used in ss. 29 161.041, 161.052, and 161.053 means the public's right to 30 laterally traverse the sandy beaches of this state where such 31 1

access exists on or after July 1, 1987, or where the public 1 2 has established an accessway through private lands to lands seaward of the mean high tide or water line by prescription, 3 prescriptive easement, or any other legal means, development 4 or construction shall not interfere with such right of public 5 6 access unless a comparable alternative accessway is provided. 7 Section 2. Section 161.141, Florida Statutes, is 8 amended to read: 9 161.141 Property rights of state and private upland 10 owners in beach restoration project areas. -- The Legislature declares that it is the public policy of the state to cause to 11 12 be fixed and determined, pursuant to beach restoration, beach 13 nourishment, and erosion control projects, the boundary line between sovereignty lands of the state bordering on the 14 Atlantic Ocean, the Gulf of Mexico, or the Straits of Florida, 15 and the bays, lagoons, and other tidal reaches thereof, and 16 17 the upland properties adjacent thereto; except that such 18 boundary line shall not be fixed for beach restoration projects that result from inlet or navigation channel 19 maintenance dredging projects unless such projects involve the 20 21 construction of authorized beach restoration projects. 22 However, prior to construction of such a beach restoration 23 project, the board of trustees must establish the line of mean high water for the area to be restored; and any additions to 2.4 the upland property landward of the established line of mean 25 high water which result from the restoration project remain 26 27 the property of the upland owner subject to all governmental 2.8 regulations and are not to be used to justify increased density or the relocation of the coastal construction control 29 line as may be in effect for such upland property. The 30 resulting additions to upland property are also subject to a 31

2

1 public easement for traditional uses of the sandy beach 2 consistent with uses that would have been allowed prior to the need for the restoration project. It is further declared that 3 there is no intention on the part of the state to extend its 4 claims to lands not already held by it or to deprive any 5 6 upland or submerged land owner of the legitimate and 7 constitutional use and enjoyment of his or her property. If an 8 authorized beach restoration, beach nourishment, and erosion 9 control project cannot reasonably be accomplished without the taking of private property, the taking must be made by the 10 requesting authority by eminent domain proceedings. In any 11 12 action alleging a taking of all or part of a property or 13 property right as a result of a beach restoration project, in determining whether such taking has occurred or the value of 14 any damage alleged with respect to the owner's remaining 15 upland property adjoining the beach restoration project, the 16 17 enhancement, if any, in value of the owner's remaining 18 adjoining property of the upland property owner by reason of the beach restoration project shall be considered. If a taking 19 is judicially determined to have occurred as a result of a 2.0 21 beach restoration project, the enhancement in value to the 2.2 owner's remaining adjoining property by reason of the beach 23 restoration project shall be offset against the value of the damage, if any, resulting to such remaining adjoining property 2.4 of the upland property owner by reason of the beach 25 restoration project, but such enhancement in the value shall 26 27 not be offset against the value of the property or property 2.8 right alleged to have been taken. If the enhancement in value shall exceed the value of the damage, if any, to the remaining 29 adjoining property, there shall be no recovery over against 30 the property owner for such excess. 31

3

1 Section 3. Section 161.144, Florida Statutes, is 2 created to read: 3 161.144 Policy guidance related to sand source 4 management. -- The Legislature recognizes that beach-quality 5 sand for the nourishment of the state's critically eroded 6 beaches is an exhaustible resource, in ever-decreasing supply, 7 and must be carefully managed for the systemwide benefit of the state's beaches. Therefore, the Department of 8 Environmental Protection, pursuant to s. 161.161 and in 9 10 cooperation with federal and local government agencies, shall develop and maintain an inventory of identified offshore sand 11 12 sources as part of the regional elements of its comprehensive 13 long-term beach management plan. Offshore sand sources in state or federal waters which are identified for potential, 14 proposed, or permitted use shall be clearly mapped or 15 otherwise noted and readily available for public review. In 16 17 addition, boards of county commissioners of coastal counties 18 adjacent to sand sources proposed for use outside of the region or subregion shall be provided written notice by the 19 department and an opportunity to comment during a specific 2.0 21 project's planning and permitting stages. The department shall identify in its annual list of local government funding 2.2 23 requests submitted to the Legislature, pursuant to s. 161.091, those projects that propose to use sand sources from another 2.4 region or subregion at the time the list is submitted. 25 Section 4. This act shall take effect October 1, 2007. 2.6 27 2.8 29 30 31

## CS for CS for SB 2008

1	STATEMENT OF SUBSTANTIAL CHANGES CONTAINED IN COMMITTEE SUBSTITUTE FOR
2	<u>CS/SB_2008</u>
3	
4	Expands the definition of "access" or "public access" to include established accessways as those that must be retained for public use.
5	
6	Amends provisions related to beach restoration projects and the property rights of upland owners to provide the method by which potential impacts to the upland owners would be valued in conjunction with the restoration project.
