By the Committee on Agriculture; and Senator Dean

575-03313-09 20092572c1

A bill to be entitled

An act relating to rural agricultural industrial centers; amending s. 163.3177, F.S.; providing legislative findings; defining the term "rural agricultural industrial center"; authorizing landowners within a rural agricultural industrial center to apply for an amendment to the local government comprehensive plan for certain purposes; providing requirements for such application; requiring that the local government amend its comprehensive plan within a specified period after receiving such application; providing that such amendments are presumed consistent with the Florida Administrative Code; providing that such presumption may be rebutted by a preponderance of the evidence; providing an exception for optional sector plans and rural land stewardship areas; amending ss. 163.3184 and 380.06, F.S.; conforming cross-references; providing an effective date.

Section 1. Present subsections (13) and (14) of section 163.3177, Florida Statutes, are redesignated as subsections (14) and (15), respectively, and a new subsection (13) is added to that section, to read:

163.3177 Required and optional elements of comprehensive plan; studies and surveys.—

575-03313-09 20092572c1

(13) (a) The Legislature recognizes and finds that:

- 1. There are a number of rural agricultural industrial centers in the state which process, produce, or aid in the production or distribution of a variety of agriculturally based products, including fruits, vegetables, timber, and other crops, as well as juices, paper, and building materials. The rural agricultural industrial centers have a significant amount of existing associated infrastructure that is used for the processing, production, or distribution of agricultural products.
- 2. Such rural agricultural industrial centers are often located within or near communities in which the economy is largely dependent upon agriculture and agriculturally based products. The centers significantly enhance the economy of such communities. However, these agriculturally based communities are often socioeconomically challenged and have been designated as rural areas of critical economic concern. If such rural agricultural industrial centers are lost and not replaced with other job-creating enterprises, the agriculturally based communities will lose a substantial amount of their economies.
- 3. The state has a compelling interest in preserving the viability of agriculture and protecting rural agricultural communities and the state from the economic upheaval that will result from short-term or long-term adverse changes in the agricultural economy. To protect such communities and promote viable agriculture for the long term, it is essential to encourage and permit diversification of existing rural agricultural industrial centers by providing for jobs that are not solely dependent upon, but are compatible with and

complement, existing agricultural industrial operations and to encourage the creation and expansion of industries that use agricultural products in innovative or new ways. However, the expansion and diversification of these existing centers must be accomplished in a manner that does not promote urban sprawl into surrounding agricultural and rural areas.

- (b) As used in this subsection, the term "rural agricultural industrial center" means a developed parcel of land in an unincorporated area on which there exists an operating agricultural industrial facility or facilities that employ at least 200 full-time employees in the aggregate and are used for processing and preparing for transport a farm product, as defined in s. 163.3162, or any biomass material that could be used, directly or indirectly, for the production of fuel, renewable energy, bioenergy, or alternative fuel as defined in state law. The center may also include land contiguous to the facility site which is not used for the cultivation of crops, but on which other existing activities essential to the operation of such facility or facilities are located or conducted. The parcel of land must be located within or in reasonable proximity to, not to exceed 10 miles, a rural area of critical economic concern.
- (c) A landowner located within a rural agricultural industrial center may apply for an amendment to the local government comprehensive plan for the purpose of designating and expanding the existing agricultural industrial uses or facilities located in the center or expanding the existing center to include industrial uses or facilities that are not dependent upon but are compatible with agriculture and the

575-03313-09 20092572c1

existing uses and facilities. An application for a local
government comprehensive plan amendment under this paragraph:

- 1. May not increase the physical area of the existing rural agricultural industrial center by more than 50 percent or 320 acres, whichever is greater;
- 2. Must propose a project that would create, upon completion, at least 50 new full-time jobs;
- 3. Must demonstrate that infrastructure capacity exists or will be provided to support the expanded center at the level-of-service standards adopted in the local government comprehensive plan; and
- 4. Must contain goals, objectives, and policies that will ensure that any adverse environmental impacts of the expanded center will be adequately addressed and mitigation implemented or demonstrate that the local government comprehensive plan contains such provisions.

Within 6 months after receiving an application as provided in this subsection, the local government shall amend the applicable sections of its comprehensive plan to include goals, objectives, and policies that provide for the expansion of rural agricultural industrial centers and discourage urban sprawl in the surrounding areas. Such goals, objectives, and policies must promote and be consistent with the findings in this subsection. An amendment that meets the requirements in this subsection is presumed to be consistent with rule 9J-5.006(5), Florida Administrative Code. This presumption may be rebutted by a preponderance of the evidence.

(d) This subsection does not apply to an optional sector

plan adopted pursuant to s. 163.3245 or a rural land stewardship area designated pursuant to subsection (11).

Section 2. Subsection (17) of section 163.3184, Florida Statutes, is amended to read:

163.3184 Process for adoption of comprehensive plan or plan amendment.—

(17) COMMUNITY VISION AND URBAN BOUNDARY PLAN AMENDMENTS.—A local government that has adopted a community vision and urban and (14) may adopt a plan amendment related to map amendments solely to property within an urban service boundary in the manner described in subsections (1), (2), (7), (14), (15), and (16) and s. 163.3187(1)(c)1.d. and e., 2., and 3., such that state and regional agency review is eliminated. The department may not issue an objections, recommendations, and comments report on proposed plan amendments or a notice of intent on adopted plan amendments; however, affected persons, as defined by paragraph (1)(a), may file a petition for administrative review pursuant to the requirements of s. 163.3187(3)(a) to challenge the compliance of an adopted plan amendment. This subsection does not apply to any amendment within an area of critical state concern, to any amendment that increases residential densities allowable in high-hazard coastal areas as defined in s. 163.3178(2)(h), or to a text change to the goals, policies, or objectives of the local government's comprehensive plan. Amendments submitted under this subsection are exempt from the limitation on the frequency of plan amendments in s. 163.3187.

Section 3. Paragraph (1) of subsection (24) of section

575-03313-09 20092572c1

146 380.06, Florida Statutes, is amended to read:

- 380.06 Developments of regional impact.
- (24) STATUTORY EXEMPTIONS.-
- (1) Any proposed development within an urban service boundary established under  $\underline{s.\ 163.3177(15)}\ s.\ 163.3177(14)$  is exempt from the provisions of this section if the local government having jurisdiction over the area where the development is proposed has adopted the urban service boundary, has entered into a binding agreement with jurisdictions that would be impacted and with the Department of Transportation regarding the mitigation of impacts on state and regional transportation facilities, and has adopted a proportionate share methodology pursuant to s. 163.3180(16).

If a use is exempt from review as a development of regional impact under paragraphs (a)-(t), but will be part of a larger project that is subject to review as a development of regional impact, the impact of the exempt use must be included in the review of the larger project.

Section 4. This act shall take effect July 1, 2009.
