and insert:
recommended by the responsible management entity based on the
method or formula developed under s. 381.0065(3)(o). Management
costs shall be based on a cost assessment for inspection,
pumpout, repair or replacement of onsite sewage treatment and
disposal systems within the jurisdiction of the responsible
management entity. The responsible management entity shall take
into consideration the size and types of systems within their
jurisdiction and may accordingly assess fees based on the size

13 and types of systems. The average fees assessed for services
14 provided by the responsible management entity shall not exceed
15 the average fees assessed for centralized sewer within the same
16 jurisdiction.

17 (d) Any responsible management entity created under this
18 paragraph is not subject to Public Service Commission
19 jurisdiction.

20 (e) The responsible management entity shall obtain a single
21 operating permit for all systems under its jurisdiction from the
22 department and shall annually report to the department on its
23 evaluations and operation and maintenance program.

24 (f) Onsite sewage treatment and disposal systems managed by
25 a responsible management entity are presumed to be in compliance
26 with all water quality standards.
