The Committee on Health Regulation (Diaz de la Portilla) recommended the following:

Senate Amendment

Delete lines 367 - 478

and insert:

1 2 3

4

5

6

7

2. The majority of the physicians who provide services in the clinic primarily provide <u>interventional pain-management</u> procedures or other surgical services;

3. The clinic is owned by a publicly held corporation whose
shares are traded on a national exchange or on the over-thecounter market and whose total assets at the end of the
corporation's most recent fiscal quarter exceeded \$50 million;
4. The clinic is affiliated with an accredited medical

13 school at which training is provided for medical students, 14 residents, or fellows; <u>or</u>

15 5. The clinic does not prescribe or dispense controlled 16 substances for the treatment of pain; or

17 <u>5.6.</u> The clinic is owned by a corporate entity exempt from
 18 federal taxation under 26 U.S.C. s. 501(c)(3).

(b) Each clinic location shall be registered separately regardless of whether the clinic is operated under the same business name or management as another clinic.

22 (c) As a part of registration, a clinic must designate a 23 physician who is responsible for complying with all requirements 24 related to registration and operation of the clinic in 25 compliance with this section. Within 10 days after termination 26 of a designated physician, the clinic must notify the department of the identity of another designated physician for that clinic. 27 The designated physician shall have a full, active, and 28 29 unencumbered license under this chapter or chapter 459 and shall practice at the clinic location for which the physician has 30 31 assumed responsibility. Failing to have a licensed designated 32 physician practicing at the location of the registered clinic 33 may be the basis for a summary suspension of the clinic registration certificate as described in s. 456.073(8) for a 34 35 license or s. 120.60(6).

(d) The department shall deny registration to any clinic
that is not fully owned by a physician licensed under this
chapter or chapter 459 or a group of physicians, each of whom is
licensed under this chapter or chapter 459; or that is not a
health care clinic licensed under part X of chapter 400.
(e) The department shall deny registration to any

Page 2 of 5

42 <u>controlled-substance medical</u> pain-management clinic owned by or 43 with any contractual or employment relationship with a 44 physician:

45 1. Whose Drug Enforcement Administration number has ever46 been revoked.

47 2. Whose application for a license to prescribe, dispense,
48 or administer a controlled substance has been denied by any
49 jurisdiction.

3. Who has been convicted of or pleaded guilty or nolo contendere to, regardless of adjudication, an offense that constitutes a felony for receipt of illicit and diverted drugs, including a controlled substance listed in Schedule I, Schedule II, Schedule III, Schedule IV, or Schedule V of s. 893.03, in this state, any other state, or the United States.

(f) If the department finds probable cause that a 56 57 controlled-substance medical pain-management clinic does not 58 meet the requirement of paragraph (d) or is owned, directly or indirectly, by a person meeting any criteria listed in paragraph 59 (e), the department shall revoke the certificate of registration 60 previously issued by the department. As determined by rule, the 61 62 department may grant an exemption to denying a registration or 63 revoking a previously issued registration if more than 10 years have elapsed since adjudication. As used in this subsection, the 64 65 term "convicted" includes an adjudication of guilt following a 66 plea of guilty or nolo contendere or the forfeiture of a bond 67 when charged with a crime.

(g) The department may revoke the clinic's certificate of
 registration and prohibit all physicians associated with that
 controlled-substance medical pain-management clinic from

71 practicing at that clinic location based upon an annual 72 inspection and evaluation of the factors described in subsection 73 (3) <u>and upon a final determination by the probable cause panel</u> 74 <u>of the appropriate board that any physician associated with that</u> 75 <u>controlled-substance medical clinic knew or should have known of</u> 76 <u>any violations of the factors described in subsection (3)</u>.

77 (h)1. If the registration of a controlled-substance medical 78 pain-management clinic is revoked or suspended, the designated 79 physician of the controlled-substance medical pain-management 80 clinic, the owner or lessor of the controlled-substance medical 81 pain-management clinic property, the manager, and the proprietor 82 shall cease to operate the facility as a controlled-substance 83 medical pain-management clinic as of the effective date of the 84 suspension or revocation.

85 <u>2. Notwithstanding subparagraph 1., the clinic's</u> 86 <u>registration shall not be revoked or suspended if the clinic,</u> 87 <u>within 24 hours after notification of suspension or revocation,</u> 88 <u>appoints another designated physician who has a full, active,</u> 89 <u>and unencumbered license under this chapter or chapter 459 to</u> 90 <u>operate a controlled-substance medical clinic.</u>

91 (i) If a <u>controlled-substance medical</u> pain-management 92 clinic registration is revoked or suspended, the designated 93 physician of the <u>controlled-substance medical</u> pain-management 94 clinic, the owner or lessor of the clinic property, the manager, 95 or the proprietor is responsible for removing all signs and 96 symbols identifying the premises as a <u>controlled-substance</u> 97 medical pain-management clinic.

(j) Upon the effective date of the suspension orrevocation, the designated physician of the <u>controlled-substance</u>

100 <u>medical pain-management</u> clinic shall advise the department of 101 the disposition of the medicinal drugs located on the premises. 102 The disposition is subject to the supervision and approval of 103 the department. Medicinal drugs that are purchased or held by a 104 <u>controlled-substance medical pain-management</u> clinic that is not 105 registered may be deemed adulterated pursuant to s. 499.006.

106 (k) If the clinic's registration is revoked, any person 107 named in the registration documents of the controlled-substance medical pain-management clinic, including persons owning or 108 109 operating the controlled-substance medical pain-management 110 clinic, may not, as an individual or as a part of a group, apply 111 to operate a controlled-substance medical pain-management clinic 112 for 5 years after the date the registration is revoked upon a 113 finding of probable cause, and an opportunity to be heard, that 114 the persons operating such clinic knew or should have known of 115 the violations causing such revocation.
