5. A member participant who receives optional annuity program benefits funded by employer and employee contributions as a mandatory distribution of a de minimis account authorized by the department is not considered a retiree.

As used in this paragraph, a “de minimis account” means an account with a provider company containing employer and employee contributions and accumulated earnings of not more than $5,000 made under this chapter.

Section 12. Subsection (2) of section 121.061, Florida Statutes, is amended to read:

Section 14. Paragraphs (b) and (c) of subsection (1) and subsection (2) of section 121.081, Florida Statutes, are amended to read:

121.081 Past service; prior service; contributions.—

Conditions under which past service or prior service may be
2089 claimed and credited are:
2090
2091 (1)
2092 (b) Past service earned after January 1, 1975, may be
2093 claimed by officers or employees of a municipality, metropolitan
2094 planning organization, charter school, charter technical career
2095 center, or special district who become a covered group under
2096 this system. The governing body of a covered group may elect to
2097 provide benefits for past service earned after January 1, 1975,
2098 in accordance with this chapter. The cost for such past
2099 service is established by applying the following formula: The
2000 employer shall contribute an amount equal to the employer
2001 contribution rate in effect at the time the service was earned
2002 and, if applicable, the employee contribution rate, multiplied
2003 by the employee’s gross salary for each year of past service
2004 claimed, plus 6.5 percent interest thereon, compounded annually, for each year of past service,
2005 with interest compounded from date of annual salary earned until
2006 date of payment.
2007 (c) If an employer joins the Florida Retirement System and
2008 does not elect to provide past service for
2009 the member at the time of joining, then the member may claim and
2010 pay for the service as provided in same, based on paragraphs (a)
2011 and (b).
2012 (2) Prior service, as defined in s. 121.021(19), may be
2013 claimed as creditable service under the Florida Retirement
2014 System after a member has been reemployed for 1 complete year of
2015 creditable service within a period of 12 consecutive months, except as provided in paragraph (c). Service performed as a
2016 member participant of the optional retirement program for the

State University System under s. 121.35 or the Senior Management Service Optional Annuity Program under s. 121.055 may be used to satisfy the reemployment requirement of 1 complete year of creditable service. The member shall not be permitted to make any contributions for prior service until after completion of the 1 year of creditable service. If a member does not wish to claim credit for all of his or her prior service, the service the member claims must be the most recent period of service. The required contributions for claiming the various types of prior service are:

(a) For prior service performed before the date the system becomes noncontributory for the member and for which the member had credit under one of the existing retirement systems and received a refund of contributions upon termination of employment, the member shall contribute 4 percent of all salary received during the period being claimed, plus 4 percent interest compounded annually from date of refund until July 1, 1975, and 6.5 percent interest compounded annually thereafter, until full payment is made to the Florida Retirement System Trust Fund, and shall receive credit in the Regular Class. A member who elected to transfer to the Florida Retirement System from an existing system may receive credit for prior service under the existing system if he or she was eligible under the existing system to claim the prior service at the time of the transfer. Contributions for such prior service shall be determined by the applicable provisions of the system under which the prior service is claimed and shall be paid by the member, with matching contributions paid by the employer at the time the service was performed. Effective July 1, 1978, the
account of a person who terminated under s. 238.05(3) may not be charged interest for contributions that remained on deposit in the Annuity Savings Trust Fund established under chapter 238, upon retirement under this chapter or chapter 238.

(b) For prior service performed before prior to the date the system becomes noncontributory for the member and for which the member had credit under the Florida Retirement System and received a refund of contributions upon termination of employment, the member shall contribute at the rate that was required of him or her during the period of service being claimed, on all salary received during such period, plus 4 percent interest compounded annually from date of refund until July 1, 1975, and 6.5 percent interest compounded annually thereafter, until the full payment is made to the Florida Retirement System Trust Fund, and shall receive credit in the membership class in which the member participated during the period claimed.

(c) For prior service as defined in s. 121.021(19)(b) and (c) during which no contributions were made because the member did not participate in a retirement system, the member shall contribute 14.38 percent of all salary received during such period or 14.38 percent of $100 per month during such period, whichever is greater, plus 4 percent interest compounded annually from the first year of service claimed until July 1, 1975, and 6.5 percent interest compounded annually thereafter, until full payment is made to the Retirement Trust Fund, and shall receive credit in the Regular Class.

(d) In order to claim credit for prior service as defined
in s. 121.021(19)(d) for which no retirement contributions were
paid during the period of such service, the member shall
contribute the total employee and employer contributions which
were required to be made to the Highway Patrol Pension Trust
Fund, as provided in chapter 321, during the period claimed,
plus 4 percent interest compounded annually from the
first year of service until July 1, 1975, and 6.5 percent interest
compounded annually thereafter, until full
payment is made to the Retirement Trust Fund. However, any
governmental entity that employed such member may elect to
pay up to 50 percent of the contributions and interest required
to purchase the prior service credit. The service shall be
credited in accordance with the provisions of the Highway Patrol
Pension Plan in effect during the period claimed unless the
member terminated and withdrew his or her retirement
contributions and was thereafter enrolled in the State and
County Officers and Employees' Retirement System or the Florida
Retirement System, in which case the service shall be credited
as Regular Class service.

(e) For service performed under the Florida Retirement
System after December 1, 1970, which was never reported to
the division or the department due to error, retirement credit
may be claimed by a member of the Florida Retirement System. The
department shall adopt rules establishing criteria for claiming
such credit and detailing the documentation required to
substantiate the error.

(f) For prior service performed on or after July 1, 2011,
for which the member had credit under the Florida Retirement
System and received a refund of contributions 3 calendar months
after termination of employment, the member shall contribute at
the rate that was required during the period of service being
claimed, plus 6.5 percent interest, compounded annually on each
June 30 from date of refund until the full payment is made to
the Florida Retirement System Trust Fund, and receive credit in
the membership class in which the member participated during the
period claimed.

(g) The employer may not be required to make
contributions for prior service credit for any member, except
that the employer shall pay the employer portion of
contributions for any legislator who elects to withdraw from the
Florida Retirement System and later rejoins the system and pays
any employee contributions required in accordance with s.
121.052(3)(d).

Section 15. Paragraphs (a) and (b) of subsection (3),
paragraphs (a) and (j) of subsection (4), paragraphs (a) and (c)
of subsection (5), paragraph (d) of subsection (9), paragraphs
(a) and (c) of subsection (13), and paragraph (d) of subsection
(14) of section 121.091, Florida Statutes, are amended to read:

121.091 Benefits payable under the system.—Benefits may not
be paid under this section unless the member has terminated
employment as provided in s. 121.021(39)(a) or begun
participation in the Deferred Retirement Option Program as
provided in subsection (13), and a proper application has been
filed in the manner prescribed by the department. The department
may cancel an application for retirement benefits when the
member or beneficiary fails to timely provide the information
and documents required by this chapter and the department’s
rules. The department shall adopt rules establishing procedures
for application for retirement benefits and for the cancellation of such application when the required information or documents are not received.

(3) EARLY RETIREMENT BENEFIT.—Upon retirement on his or her early retirement date, the member shall receive an immediate monthly benefit that shall begin to accrue on the first day of the month of the retirement date and be payable on the last day of that month and each month thereafter during his or her lifetime. Such benefit shall be calculated as follows:

(a) For a member initially enrolled:

1. Before July 1, 2011, the amount of each monthly payment shall be computed in the same manner as for a normal retirement benefit, in accordance with subsection (1), but shall be based on the member’s average monthly compensation and creditable service as of the member’s early retirement date. The benefit so computed shall be reduced by five-twelfths of 1 percent for each complete month by which the early retirement date precedes the normal retirement date of age 62 for a member of the Regular Class, Senior Management Service Class, or the Elected Officers’ Class, and age 55 for a member of the Special Risk Class, or age 52 if a Special Risk member has completed 25 years of creditable service in accordance with s. 121.021(29)(b)1.c. 121.021(29)(b)3.

2. On or after July 1, 2011, the amount of each monthly payment shall be computed in the same manner as for a normal retirement benefit, in accordance with subsection (1), but shall be based on the member’s average monthly compensation and creditable service as of the member’s early retirement date. The benefit so computed shall be reduced by five-twelfths of 1
percent for each complete month by which the early retirement
date precedes the normal retirement date of age 65 for a member
of the Regular Class, Senior Management Service Class, or the
Elected Officers’ Class, and age 60 for a member of the Special
Risk Class, or age 57 if a special risk member has completed 30
years of creditable service in accordance with s. 121.021(29)(b)2.c.
(b) If the employment of a member is terminated by reason
of death within 10 years before normal retirement as described
in s. 121.021(29)(a)1.b. or s. 121.021(29)(a)2.b. subsequent to
the completion of 20 years of creditable service, the monthly
benefit payable to the member’s beneficiary shall be calculated
in accordance with subsection (1), but must be based on
average monthly compensation and creditable service as of the
date of death. The benefit so computed shall be reduced by five-
twelfths of 1 percent for each complete month by which death
precedes the normal retirement date specified above or the date
on which the member would have attained the normal retirement
date 30 years of creditable service had he or she survived and
continued his or her employment, whichever provides a higher
benefit.
(4) DISABILITY RETIREMENT BENEFIT.—
(a) Disability retirement; entitlement and effective date.—
1.a. A member who becomes totally and permanently disabled,
as defined in paragraph (b), after completing 5 years of
creditable service, or a member who becomes totally and
permanently disabled in the line of duty regardless of service,
shall be entitled to a monthly disability benefit; except
that any member with less than 5 years of creditable service on
July 1, 1980, or any person who becomes a member of the Florida Retirement System on or after such date must have completed 10 years of creditable service prior to becoming totally and permanently disabled in order to receive disability retirement benefits for any disability which occurs other than in the line of duty. However, if a member employed on July 1, 1980, who has with less than 5 years of creditable service as of that date becomes totally and permanently disabled after completing 5 years of creditable service and is found not to have attained fully insured status for benefits under the federal Social Security Act, such member shall be entitled to a monthly disability benefit.

b. Effective July 1, 2001, a member of the pension plan defined benefit retirement program who becomes totally and permanently disabled, as defined in paragraph (b), after completing 8 years of creditable service, or a member who becomes totally and permanently disabled in the line of duty regardless of service, shall be entitled to a monthly disability benefit.

2. If the division has received from the employer the required documentation of the member’s termination of employment, the effective retirement date for a member who applies and is approved for disability retirement shall be established by rule of the division.

3. For a member who is receiving Workers’ Compensation payments, the effective disability retirement date may not precede the date the member reaches Maximum Medical Improvement (MMI), unless the member terminates employment before reaching MMI.
(j) Disability retirement of justice or judge by order of Supreme Court.—

1. If a member is a justice of the Supreme Court, judge of a district court of appeal, circuit judge, or judge of a county court who has served for the number of years equal to, or greater than, the vesting requirement in s. 121.021(45) 6 years or more as an elected constitutional judicial officer, including service as a judicial officer, in any court abolished pursuant to Art. V of the State Constitution, and who is retired for disability by order of the Supreme Court upon recommendation of the Judicial Qualifications Commission pursuant to the provisions of Art. V of the State Constitution, the member’s Option 1 monthly benefit as provided in subparagraph (6)(a)1. shall not be less than two-thirds of his or her monthly compensation as of the member’s disability retirement date. Such a member may alternatively elect to receive a disability retirement benefit under any other option as provided in paragraph (6)(a).

2. Should any justice or judge who is a member of the Florida Retirement System be retired for disability by order of the Supreme Court upon recommendation of the Judicial Qualifications Commission pursuant to the provisions of Art. V of the State Constitution, then all contributions to his or her account and all contributions made on his or her behalf by the employer shall be transferred to and deposited in the General Revenue Fund of the state, and there is hereby appropriated annually out of the General Revenue Fund, to be paid into the Florida Retirement System Fund, an amount necessary to pay the benefits of all justices and judges retired from the Florida Retirement System.
(5) TERMINATION BENEFITS.—A member whose employment is terminated prior to retirement retains membership rights to previously earned member-noncontributory service credit, and to member-contributory service credit, if the member leaves the member contributions on deposit in his or her retirement account. If a terminated member receives a refund of member contributions, such member may reinstate membership rights to the previously earned service credit represented by the refund by completing 1 year of creditable service and repaying the refunded member contributions, plus interest.

(a) A member whose employment is terminated for any reason other than death or retirement before prior to becoming vested is entitled to the return of his or her accumulated contributions as of the date of termination. Effective July 1, 2011, upon termination of employment from all participating employers for 3 calendar months as defined in s. 121.021(39)(c) for any reason other than retirement, a member may receive a refund of all contributions he or she has made to the pension plan, subject to the restrictions otherwise provided in this chapter. The refund may be received as a lump-sum payment, a rollover to a qualified plan, or a combination of these methods. Partial refunds are not permitted. The refund may not include any interest earnings on the contributions for a member of the pension plan. Employer contributions made on behalf of the member are not refundable. A member may not receive a refund of employee contributions if a pending or an approved qualified domestic relations order is filed against his or her retirement account. By obtaining a refund of contributions, a member waives
all rights under the Florida Retirement System and the health
insurance subsidy to the service credit represented by the
refunded contributions, except the right to purchase his or her
prior service credit in accordance with s. 121.081(2).

(c) In lieu of the deferred monthly benefit provided in
paragraph (b), the terminated member may elect to receive a
lump-sum amount equal to his or her accumulated contributions as
of the date of termination. Effective July 1, 2011, upon
termination of employment from all participating employers for 3
calendar months as defined in s. 121.021(39)(c) for any reason
other than retirement, a member may receive a refund of all
contributions he or she has made to the pension plan, subject to
the restrictions otherwise provided in this chapter. Partial
refunds are not permitted. The refund may not include any
interest earnings on the contributions for a member of the
pension plan. Employer contributions made on behalf of the
member are not refundable. A member may not receive a refund of
employee contributions if a pending or an approved qualified
domestic relations order is filed against his or her retirement
account. By obtaining a refund of contributions, a member waives
all rights under the Florida Retirement System and the health
insurance subsidy to the service credit represented by the
refunded contributions, except the right to purchase his or her
prior service credit in accordance with s. 121.081(2).

(9) EMPLOYMENT AFTER RETIREMENT; LIMITATION.—
(d) The provisions of this subsection apply to
retirees, as defined in s. 121.4501(2), of the Florida
Retirement System Investment Plan Public Employee Optional
Retirement Program, subject to the following conditions:
1. A retiree may not be reemployed with an employer participating in the Florida Retirement System until such person has been retired for 6 calendar months.

2. A retiree employed in violation of this subsection and an employer that employs or appoints such person are jointly and severally liable for reimbursement of any benefits paid to the retirement trust fund from which the benefits were paid, including the Retirement System Trust Fund and the Public Employee Optional Retirement Program Trust Fund, as appropriate. The employer must have a written statement from the retiree that he or she is not retired from a state-administered retirement system.

(13) DEFERRED RETIREMENT OPTION PROGRAM.—In general, and subject to this section, the Deferred Retirement Option Program, hereinafter referred to as DROP, is a program under which an eligible member of the Florida Retirement System may elect to participate, deferring receipt of retirement benefits while continuing employment with his or her Florida Retirement System employer. The deferred monthly benefits shall accrue in the Florida Retirement System on behalf of the member participant, plus interest compounded monthly, for the specified period of the DROP participation, as provided in paragraph (c). Upon termination of employment, the member participant shall receive the total DROP benefits and begin to receive the previously determined normal retirement benefits. Participation in the DROP does not guarantee employment for the specified period of DROP. Participation in DROP by an eligible member beyond the initial 60-month period as authorized in this subsection shall be on an annual contractual basis for all participants.
(a) Eligibility of member to participate in DROP.—All active Florida Retirement System members in a regularly established position, and all active members of the Teachers’ Retirement System established in chapter 238 or the State and County Officers’ and Employees’ Retirement System established in chapter 122, which are consolidated within the Florida Retirement System under s. 121.011, are eligible to elect participation in DROP if:

1. The member is not a renewed member under s. 121.122 or a member of the State Community College System Optional Retirement Program under s. 121.051, the Senior Management Service Optional Annuity Program under s. 121.055, or the optional retirement program for the State University System under s. 121.35.

2. Except as provided in subparagraph 6., election to participate is made within 12 months immediately following the date on which the member first reaches normal retirement date, or, for a member who reaches normal retirement date based on service before he or she reaches age 62, or age 55 for Special Risk Class members, election to participate may be deferred to the 12 months immediately following the date the member attains age 57, or age 52 for Special Risk Class members. A member who delays DROP participation during the 12-month period immediately following his or her maximum DROP deferral date, except as provided in subparagraph 6., loses a month of DROP participation for each month delayed. A member who fails to make an election within the 12-month limitation period forfeits all rights to participate in DROP. The member shall advise his or her employer and the division in writing of the date DROP begins. The beginning date may be subsequent to the 12-month election period.
but must be within the original 60-month participation period provided in subparagraph (b)1. When establishing eligibility of the member to participate in DROP, the member may elect to include or exclude any optional service credit purchased by the member from the total service used to establish the normal retirement date. A member who has dual normal retirement dates is eligible to elect to participate in DROP after attaining normal retirement date in either class.

3. The employer of a member electing to participate in DROP, or employers if dually employed, shall acknowledge in writing to the division the date the member’s participation in DROP begins and the date the member’s employment and DROP participation will terminate.

4. Simultaneous employment of a member participant by additional Florida Retirement System employers subsequent to the commencement of a member’s participation in DROP is permissible if such employers acknowledge in writing a DROP termination date no later than the member’s participant’s existing termination date or the maximum participation period provided in subparagraph (b)1.

5. A member DROP participant may change employers while participating in DROP, subject to the following:

   a. A change of employment takes place without a break in service so that the member receives salary for each month of continuous DROP participation. If a member receives no salary during a month, DROP participation ceases unless the employer verifies a continuation of the employment relationship for such member participant pursuant to s. 121.021(39)(b).
b. The member shall notify the division of the identity of the new employer on forms required by the division.

c. The new employer acknowledges, in writing, the member’s DROP termination date, which may be extended but not beyond the maximum participation period provided in subparagraph (b)1., acknowledges liability for any additional retirement contributions and interest required if the member fails to timely terminate employment, and is subject to the adjustment required in sub-subparagraph (c)5.d.

6. Effective July 1, 2001, for instructional personnel as defined in s. 1012.01(2), election to participate in DROP may be made at any time following the date on which the member first reaches normal retirement date. The member shall advise his or her employer and the division in writing of the date on which DROP begins. When establishing eligibility of the member to participate in DROP for the 60-month participation period provided in subparagraph (b)1., the member may elect to include or exclude any optional service credit purchased by the member from the total service used to establish the normal retirement date. A member who has dual normal retirement dates is eligible to elect to participate in either class.

(c) Benefits payable under DROP.—

1. Effective on the date of DROP participation, the member’s initial normal monthly benefit, including creditable service, optional form of payment, and average final compensation, and the effective date of retirement are fixed. The beneficiary established under the Florida Retirement System
is the beneficiary eligible to receive any DROP benefits payable
if the DROP participant dies before completing the period of
DROP participation. If a joint annuitant predeceases the member,
the member may name a beneficiary to receive accumulated DROP
benefits payable. The retirement benefit, the annual cost of
living adjustments provided in s. 121.101, and interest accrue
monthly in the Florida Retirement System Trust Fund. For members
whose DROP participation begins:

a. Before July 1, 2011, the interest accrues at an
effective annual rate of 6.5 percent compounded monthly, on the
prior month’s accumulated ending balance, up to the month of
termination or death, except as provided in s. 121.053(7).

b. On or after July 1, 2011, the interest accrues at an
effective annual rate of 1.3 percent, compounded monthly, on the
prior month’s accumulated ending balance, up to the month of
termination or death, except as provided in s. 121.053(7).

2. Each employee who elects to participate in DROP may
elect to receive a lump-sum payment for accrued annual leave
earned in accordance with agency policy upon beginning
participation in DROP. The accumulated leave payment certified
to the division upon commencement of DROP shall be included in
the calculation of the member’s average final compensation. The
employee electing the lump-sum payment is not eligible to
receive a second lump-sum payment upon termination, except to
the extent the employee has earned additional annual leave
which, combined with the original payment, does not exceed the
maximum lump-sum payment allowed by the employing agency’s
policy or rules. An early lump-sum payment shall be based on the
hourly wage of the employee at the time he or she begins
participation in DROP. If the member elects to wait and receive
a lump-sum payment upon termination of DROP and termination of
employment with the employer, any accumulated leave payment made
at that time may not be included in the member’s retirement
benefit, which was determined and fixed by law when the employee
elected to participate in DROP.

3. The effective date of DROP participation and the
effective date of retirement of a DROP participant shall be the
first day of the month selected by the member to begin
participation in DROP, provided such date is properly
established, with the written confirmation of the employer, and
the approval of the division, on forms required by the division.

4. Normal retirement benefits and any interest shall
continue to accrue in DROP until the established termination
date of DROP or until the member participant terminates
employment or dies before such date, except as provided
in s. 121.053(7). Although individual DROP accounts may
not be established, a separate accounting of each member’s
participant’s accrued benefits under DROP shall be calculated
and provided to the member participants.

5. At the conclusion of the member’s participation in the
participant’s DROP, the division shall distribute the member’s
participant’s total accumulated DROP benefits, subject to the
following:

a. The division shall receive verification by the member’s
participant’s employer or employers that the member participant
has terminated all employment relationships as provided in s.
121.021(39).

b. The terminated DROP participant or, if deceased, the
member’s participant’s named beneficiary, shall elect on forms provided by the division to receive payment of the DROP benefits in accordance with one of the options listed below. If a member participant or beneficiary fails to elect a method of payment within 60 days after termination of DROP, the division shall pay a lump sum as provided in sub-sub-subparagraph (I).

(I) Lump sum.—All accrued DROP benefits, plus interest, less withholding taxes remitted to the Internal Revenue Service, shall be paid to the DROP participant or surviving beneficiary.

(II) Direct rollover.—All accrued DROP benefits, plus interest, shall be paid from DROP directly to the custodian of an eligible retirement plan as defined in s. 402(c)(8)(B) of the Internal Revenue Code. 121.70 Legislative purpose and intent.—

(1) This part provides for a uniform system for funding benefits provided under the Florida Retirement System Pension Plan defined benefit program established under part I of this chapter (referred to in this part as the pension plan defined benefit program) and under the Florida Retirement System Investment Plan Public Employee Optional Retirement Program established under part II of this chapter (referred to in this part as the investment plan optional retirement program). The Legislature recognizes and declares that the Florida Retirement System is a single retirement system, consisting of two
retirement plans and other nonintegrated programs. Employees and employers participating in the Florida Retirement System collectively shall be responsible for making contributions to support the benefits provided under both plans. The employees and As provided in this part, employers participating in the Florida Retirement System shall make contributions based upon uniform contribution rates determined as a percentage of the employee’s gross monthly compensation total payroll for the employee’s each class or subclass of Florida Retirement System membership, irrespective of the which retirement plan in which the individual employee is enrolled employees may elect. This shall be known as a uniform or blended contribution rate system.

(2) In establishing a uniform contribution rate system, it is the intent of the Legislature to:

(a) Provide greater stability and certainty in financial planning and budgeting for Florida Retirement System employers by eliminating the fiscal instability that would be caused by dual rates coupled with employee-selected plan participation;

(b) Provide greater fiscal equity and uniformity for system employers by effectively distributing the financial burden and benefit of short-term system deficits and surpluses, respectively, in proportion to total system payroll; and

(c) Allow employees to make their retirement plan selection decisions free of circumstances that may cause employers to favor one plan choice over another.

Section 33. Section 121.71, Florida Statutes, is amended to read:

121.71 Uniform rates; process; calculations; levy.—

(1) In conducting the system actuarial study required under
s. 121.031, the actuary shall follow all requirements specified thereunder to determine, by Florida Retirement System employee membership class, the dollar contribution amounts necessary for the next forthcoming fiscal year for the pension plan defined benefit program. In addition, the actuary shall determine, by Florida Retirement System membership class, based on an estimate for the next forthcoming fiscal year of the gross compensation of employees participating in the investment plan optional retirement program, the dollar contribution amounts necessary to make the allocations required under ss. 121.72 and 121.73. For each employee membership class and subclass, the actuarial study must establish a uniform rate necessary to fund the benefit obligations under both Florida Retirement System retirement plans by dividing the sum of total dollars required by the estimated gross compensation of members in both plans.

(2) Based on the uniform rates set forth in subsections subsection (3), (4), and (5), employees and employers shall make monthly contributions to the Division of Retirement as required in s. 121.061(1), which shall initially deposit the funds into the Florida Retirement System Contributions Clearing Trust Fund. A change in a contribution rate is effective the first day of the month for which a full month’s employer and employee contribution may be made on or after the beginning date of the change. Beginning July 1, 2011, each employee shall contribute the contributions required in subsection (3). The employer shall deduct the contribution from the employee’s monthly salary, and the contribution shall be submitted to the division. These contributions shall be reported as employer-paid employee contributions, and credited to the account of the employee. The
contributions shall be deducted from the employee’s salary before the computation of applicable federal taxes and treated as employer contributions under 26 U.S.C. s. 414(h)(2). The employer specifies that the contributions, although designated as employee contributions, are being paid by the employer in lieu of contributions by the employee. The employee does not have the option of choosing to receive the contributed amounts directly instead of having them paid by the employer to the plan. Such contributions are mandatory and each employee is considered to have consented to payroll deductions. Payment of an employee’s salary or wages, less the contribution, is a full and complete discharge and satisfaction of all claims and demands for the service rendered by employees during the period covered by the payment, except their claims to the benefits to which they may be entitled under this chapter.

121.75 Allocation for pension plan defined benefit program.—After making the transfers required pursuant to ss. 121.71, 121.72, 121.73, and 121.74, the monthly balance of funds in the Florida Retirement System Contributions Clearing Trust Fund shall be transferred to the Florida Retirement System Trust Fund to pay the costs of providing pension plan defined benefit program benefits and plan administrative costs under the pension plan defined benefit program.

Section 38. Section 121.77, Florida Statutes, is amended to read:

121.77 Deductions from member participant accounts.—The State Board of Administration may authorize the third-party administrator to deduct reasonable fees and apply appropriate charges to investment plan member optional retirement program participant accounts. In no event may administrative and educational expenses exceed the portion of employer contributions earmarked for such expenses under this part, except for reasonable administrative charges assessed against member participant accounts of persons for whom no employer contributions are made during the calendar quarter. Investment management fees shall be deducted from member participant accounts, pursuant to the terms of the contract between the provider and the board.
Section 39. Section 121.78, Florida Statutes, is amended to read:

121.78 Payment and distribution of contributions.—

(1) Contributions made pursuant to this part shall be paid by the employer, including the employee contribution, to the Division of Retirement by electronic funds transfer no later than the 5th working day of the month immediately following the month during which the payroll period ended. Accompanying payroll data must be transmitted to the division concurrent with the contributions.

(2) The division, the State Board of Administration, and the third-party administrator, as applicable, shall ensure that the contributions are distributed to the appropriate trust funds or participant accounts in a timely manner.

(3)(a) Employee and employer contributions and accompanying payroll data received after the 5th working day of the month are considered late. The employer shall be assessed by the Division of Retirement a penalty of 1 percent of the contributions due for each calendar month or part thereof that the contributions or accompanying payroll data are late. Proceeds from the 1 percent assessment against contributions made on behalf of members participants of the pension plan must be deposited in the Florida Retirement System Trust Fund, and proceeds from the 1 percent assessment against contributions made on behalf of members participants of the investment plan optional retirement program shall be transferred to the third-party administrator for deposit into participant accounts, as provided in paragraph (c) (b).

(b) Retirement contributions paid for a prior period shall
be charged a delinquent fee of 1 percent for each calendar month or part thereof that the contributions should have been paid. This includes prior period contributions due to incorrect wages and contributions from an earlier report or wages and contributions that should have been reported but were not. The delinquent assessments may not be waived.

(c) (b) If employee contributions or contributions made by an employer on behalf of members participants of the investment plan optional retirement program or accompanying payroll data are not received within the calendar month they are due, including, but not limited to, contribution adjustments as a result of employer errors or corrections, and if that delinquency results in market losses to members participants, the employer shall reimburse each member’s participant’s account for market losses resulting from the late contributions. If a member participant has terminated employment and taken a distribution, the member participant is responsible for returning any excess contributions erroneously provided by employers, adjusted for any investment gain or loss incurred during the period such excess contributions were in the member’s participant’s account. The state board or its designated agent shall communicate to terminated members participants any obligation to repay such excess contribution amounts. However, the state board, its designated agents, the Florida Retirement System Investment Plan Public Employee Optional Retirement Program Trust Fund, the department, or the Florida Retirement System Trust Fund may not incur any loss or gain as a result of an employer’s correction of such excess contributions. The third-party administrator, hired by the state board pursuant to
s. 121.4501(8), shall calculate the market losses for each
affected member participant. If contributions made on behalf of
member participants of the investment plan or accompanying payroll data are not received within the
calendar month due, the employer shall also pay the cost of the
third-party administrator’s calculation and reconciliation
adjustments resulting from the late contributions. The third-
party administrator shall notify the employer of the results of
the calculations and the total amount due from the employer for
such losses and the costs of calculation and reconciliation. The
employer shall remit to the Division of Retirement the amount
due within 30 working days after the date of the penalty notice
sent by the division. The division shall transfer that amount to
the third-party administrator, which shall deposit proceeds from
the 1-percent assessment and from individual market losses into
member participant accounts, as appropriate. The state board may
adopt rules to administer the provisions regarding late
contributions, late submission of payroll data, the process for
reimbursing member participant accounts for resultant market
losses, and the penalties charged to the employers.

(d) If employee contributions reported by an employer on
behalf of members are reduced as a result of employer errors or
corrections, and the member has terminated employment and taken
a refund or distribution, the employer shall be billed and is
responsible for recovering from the member any excess
contributions erroneously provided by the employer.

(e) (c) Delinquency fees specified in paragraph (a) may be
waived by the division of Retirement, with regard to pension
plan defined benefit program contributions, and by the state
board, with regard to investment plan optional retirement program contributions, only if, in the opinion of the division or the board, as appropriate, exceptional circumstances beyond the employer’s control prevented remittance by the prescribed due date notwithstanding the employer’s good faith efforts to effect delivery. Such a waiver of delinquency may be granted an employer only once each plan state fiscal year.

(f) If the employer submits excess employer or employee contributions, the employer shall receive a credit to be applied against future contributions owed. The employer is responsible for reimbursing the member for any excess contributions submitted if any return of such an erroneous excess pretax contribution by the program is made within 1 year after making erroneous contributions or such other period allowed under applicable Internal Revenue guidance.

(g)(d) If contributions made by an employer on behalf of members participants in the investment plan optional retirement program are delayed in posting to member participant accounts due to acts of God beyond the control of the Division of Retirement, the state board, or the third-party administrator, as applicable, market losses resulting from the late contributions are not payable to the members participants.

contracts providing retirement and death benefits may be purchased by, and on behalf of, eligible employees who participate in the program, in accordance with s. 403(b) of the Internal Revenue Code. Except as otherwise provided herein, this retirement program, which shall be known as the State Community College System Optional Retirement Program, may be implemented and administered only by an individual community college or by a consortium of community colleges.

(4)(a)1. Through June 30, 2011, each college must contribute on behalf of each program member an amount equal to 10.43 percent of the employee’s participant’s gross monthly compensation.

2. Effective July 1, 2011, each member shall contribute an amount equal to the employee contribution required under s. 121.71(3). The employer shall contribute on behalf of each program member an amount equal to the difference between 10.43 percent of the employee’s gross monthly compensation and the employee’s required contribution based on the employee’s gross monthly compensation.

3. The college shall deduct an amount approved by the district board of trustees of the college to provide for the administration of the optional retirement program. Payment of this contribution must be made either directly by the college or through the program administrator to the designated company contracting for payment of benefits to the program member participant.

(5)

(b) Benefits are payable under the optional retirement program to program participants or their beneficiaries, and the
benefits must be paid only by the designated company in accordance with the terms of the contracts applicable to the program participant. Benefits shall accrue in individual accounts that are participant-directed, portable, and funded by employer and employee contributions and the earnings thereon. Benefits funded by employer and employee contributions are payable in accordance with the following terms and conditions:

1. Benefits shall be payable only to a participant, to his or her beneficiaries, or to his or her estate, as designated by the participant.

2. Benefits shall be paid by the provider company or companies in accordance with the law, the provisions of the contract, and any applicable employer rule or policy.

3. In the event of a participant’s death, moneys accumulated by, or on behalf of, the participant, less withholding taxes remitted to the Internal Revenue Service, if any, shall be distributed to the participant’s designated beneficiary or beneficiaries, or to the participant’s estate, as if the participant retired on the date of death as provided in paragraph (d). No other death benefits are available for survivors of participants under the optional retirement program except for such benefits, or coverage for such benefits, as are separately afforded by the employer at the employer’s discretion.

(7) Benefits, including employee contributions, are not payable for employee hardships, unforeseeable emergencies, loans, medical expenses, educational expenses, purchase of a principal residence, payments necessary to prevent eviction or foreclosure on an employee’s principal residence, or any other
reason before termination from all employment relationships with participating employers for 3 calendar months.

Section 41. (1) Effective upon this act becoming a law, the State Board of Administration and the Department of Management Services shall request, as soon as practicable, a determination letter and private letter ruling from the United States Internal Revenue Service. If the United States Internal Revenue Service refuses to act upon a request for a private letter ruling, then a legal opinion from a qualified tax attorney or firm may be substituted for such private letter ruling.

(2) If the board or the department receives notification from the United States Internal Revenue Service that this act or any portion of this act will cause the Florida Retirement System, or a portion thereof, to be disqualified for tax purposes under the Internal Revenue Code, then the portion that will cause the disqualification does not apply. Upon receipt of such notice, the state board and the department shall notify the presiding officers of the Legislature.

Section 42. The Legislature finds that a proper and legitimate state purpose is served when employees and retirees of the state and its political subdivisions, and the dependents, survivors, and beneficiaries of such employees and retirees, are extended the basic protections afforded by governmental retirement systems. These persons must be provided benefits that are fair and adequate and that are managed, administered, and funded in an actuarially sound manner, as required by s. 14, Article X of the State Constitution and part VII of chapter 112, Florida Statutes. Therefore, the Legislature determines and declares that this act fulfills an important state interest.
Section 43. For the 2011-2012 fiscal year, the sums of $207,070 of recurring funds and $31,184 of nonrecurring funds from the Florida Retirement System Operating Trust Fund are appropriated to, and four full-time equivalent positions are authorized for, the Division of Retirement within the Department of Management Services for the purpose of implementing this act.

Section 44. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon this act becoming a law, this act shall take effect July 1, 2011.
