insert:

Section 9. Subsection (20) of section 409.906, Florida Statutes, is amended to read:

409.906 Optional Medicaid services.—Subject to specific appropriations, the agency may make payments for services which are optional to the state under Title XIX of the Social Security Act and are furnished by Medicaid providers to recipients who are determined to be eligible on the dates on which the services were provided. Any optional service that is provided shall be provided only when medically necessary and in accordance with
state and federal law. Optional services rendered by providers in mobile units to Medicaid recipients may be restricted or prohibited by the agency. Nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. If necessary to safeguard the state’s systems of providing services to elderly and disabled persons and subject to the notice and review provisions of s. 216.177, the Governor may direct the Agency for Health Care Administration to amend the Medicaid state plan to delete the optional Medicaid service known as “Intermediate Care Facilities for the Developmentally Disabled.” Optional services may include:

(20) PRESCRIBED DRUG SERVICES.—The agency may pay for medications that are prescribed for a recipient by a physician or other licensed health care practitioner of the healing arts authorized to prescribe medications and that are dispensed to the recipient by a licensed pharmacist or physician in accordance with applicable state and federal law. However, the agency may not pay for any psychotropic medication prescribed for a child younger than the age for which the federal Food and Drug Administration has approved its use.

And the title is amended as follows:
