${\bf By}$ Senator Flores

	37-00258-13 2013238
1	A bill to be entitled
2	An act relating to public-private partnerships;
3	creating s. 287.05712, F.S.; providing definitions;
4	providing legislative findings and intent relating to
5	the construction or upgrade of facilities by private
6	entities which are used predominately for a public
7	purpose; requiring public entities to develop and
8	adopt guidelines governing procedures and criteria for
9	the selection of projects and public-private
10	agreements; providing procurement procedures;
11	providing requirements for project approval; providing
12	project qualifications and process; providing for
13	notice to affected local jurisdictions; providing for
14	interim and comprehensive agreements between the
15	public and private entities; providing for user fees;
16	providing for financing from private sources and
17	public entities; providing powers and duties for
18	private entities; providing for expiration or
19	termination of agreements; providing for the
20	applicability of sovereign immunity for public
21	entities with respect to qualified projects; providing
22	for construction of the act; providing an effective
23	date.
24	
25	Be It Enacted by the Legislature of the State of Florida:
26	
27	Section 1. Section 287.05712, Florida Statutes, is created
28	to read:
29	287.05712 Public-private partnerships

Page 1 of 22

	37-00258-13 2013238
30	(1) DEFINITIONSAs used in this section, the term:
31	(a) "Affected local jurisdiction" means any county or
32	municipality in which all or a portion of a qualifying project
33	is located.
34	(b) "Appropriating body" means the body responsible for
35	appropriating or authorizing funding to pay for a qualifying
36	project.
37	(c) "Develop" or "development" means to plan, design,
38	develop, finance, lease, acquire, install, construct, or expand.
39	(d) "Lease payment" means any form of payment, including a
40	land lease, by a public entity to the private entity for the use
41	of a qualifying project.
42	(e) "Material default" means any default by the private
43	entity in the performance of its duties which jeopardizes
44	adequate service to the public from a qualifying project.
45	(f) "Operate" means to finance, maintain, improve, equip,
46	modify, repair, or operate.
47	(g) "Private entity" means any natural person, corporation,
48	general partnership, limited liability company, limited
49	partnership, joint venture, business trust, public benefit
50	corporation, nonprofit entity, or other private business entity.
51	(h) "Proposal" means a detailed proposal accepted by a
52	responsible public entity beyond a conceptual level of review at
53	which issues such as fixing costs, payment schedules, financing,
54	deliverables, and project schedule are defined.
55	(i) "Qualifying project" means any:
56	1. Facility or project that meets a public purpose,
57	including, but not limited to, any ferry, mass transit facility,
58	vehicle parking facility, port facility, power generating

Page 2 of 22

	37-00258-13 2013238
59	facility, fuel supply facility, oil or gas pipeline, medical or
60	nursing care facility, or recreational facility used primarily
61	for events.
62	2. Improvements, including equipment, of a facility to be
63	principally used by a public entity.
64	3. Water, wastewater, or surface water management facility
65	and other related infrastructure.
66	(j) "Responsible public entity" means any county,
67	municipality, or other political subdivision of the state; any
68	public body politic and corporate; or any regional entity that
69	serves a public purpose and has authority to develop or operate
70	a qualifying project.
71	(k) "Revenues" means all revenues, income, earnings, user
72	fees, lease payments, or other service payments relating to the
73	development or operation of a qualifying project, including, but
74	not limited to, money received as grants or otherwise from the
75	Federal Government, from any public entity, or from any agency
76	or instrumentality of the foregoing in aid of a qualifying
77	project.
78	(1) "Service contract" means a contract entered into
79	between a public entity and a private entity of a qualifying
80	project.
81	(m) "Service payment" means a payment to the private entity
82	of a qualifying project pursuant to a service contract.
83	(n) "User fee" means any fee or charge imposed by the
84	private entity of a qualifying project for use of all or a
85	portion of such qualifying project pursuant to a comprehensive
86	agreement.
87	(o) "Water or wastewater management facility" means a

Page 3 of 22

	37-00258-13 2013238_
88	project for the treatment, storage, disposal, or distribution of
89	water or wastewater.
90	(2) LEGISLATIVE FINDINGS AND INTENTThe Legislature finds
91	that there is a public need for the construction or upgrade of
92	facilities that are used predominantly for public purposes and
93	that it is in the public's interest to provide for the
94	construction or upgrade of such facilities.
95	(a) The Legislature also finds that:
96	1. There is a public need for timely and cost-effective
97	acquisition, design, construction, improvement, renovation,
98	expansion, equipping, maintenance, operation, implementation, or
99	installation of public projects, including educational
100	facilities, water or wastewater management facilities and
101	infrastructure, technology infrastructure, and any other public
102	infrastructure and government facilities within the state which
103	serve a public need and purpose, and that such public need may
104	not be wholly satisfied by existing procurement methods.
105	2. There are inadequate resources to develop new
106	educational facilities, water or wastewater management
107	facilities and infrastructure, technology infrastructure, and
108	other public infrastructure and government facilities for the
109	benefit of residents of this state, and that it has been
110	demonstrated that public-private partnerships can meet these
111	needs by improving the schedule for delivery, lowering the cost,
112	and providing other benefits to the public.
113	3. There are state and federal tax incentives that promote
114	public-private partnerships to develop and operate qualifying
115	projects.
116	4. A procurement under this section serves the public

Page 4 of 22

CODING: Words stricken are deletions; words underlined are additions.

SB 238

	37-00258-13 2013238
117	purpose of this section if such action facilitates the timely
118	development or operation of qualifying projects.
119	(b) The Legislature declares that it is the intent of this
120	section to encourage investment in the state by private
121	entities; to facilitate various bond financing mechanisms,
122	private capital, and other funding sources for the development
123	and operation of qualifying projects, including expansion and
124	acceleration of such financing to meet the public need; and to
125	provide the greatest possible flexibility to public and private
126	entities contracting for the provision of public services.
127	(3) ADOPTION OF GUIDELINES
128	(a) Before requesting or considering a proposal for a
129	qualifying project, a responsible public entity shall adopt and
130	make publicly available guidelines that enable the public entity
131	to comply with this section. Such guidelines must be reasonable,
132	encourage competition, and guide the selection of projects under
133	the purview of the public entity.
134	(b) The guidelines must include:
135	1. Opportunities for competition through public notice and
136	the availability of representatives of the responsible public
137	entity to meet with private entities considering a proposal.
138	2. Reasonable criteria for choosing among competing
139	proposals.
140	3. Suggested timelines for selecting proposals and
141	negotiating an interim or comprehensive agreement.
142	4. Authorization for accelerated selection and review and
143	documentation timelines for proposals involving a qualifying
144	project that the responsible public entity deems a priority.
145	5. Procedures for financial review and analysis which, at a

Page 5 of 22

	37-00258-13 2013238
146	minimum, include a cost-benefit analysis, an assessment of
147	opportunity cost, and consideration of the results of all
148	studies and analyses related to the proposed qualifying project.
149	The procedures must also include requirements for disclosing
150	such analysis to the appropriating body for review before the
151	execution of an interim or comprehensive agreement.
152	6. Consideration of the nonfinancial benefits of a proposed
153	qualifying project.
154	7. A mechanism for the appropriating body to review a
155	proposed interim or comprehensive agreement before execution.
156	8. Criteria for the creation and responsibilities of a
157	public-private partnership oversight committee that includes
158	members representing the responsible public entity and the
159	appropriating body. The criteria must include the scope, costs,
160	and duration of the qualifying project, as well as whether the
161	project involves or affects multiple public entities. If formed,
162	the oversight committee shall be an advisory committee that
163	reviews the terms of a proposed interim or comprehensive
164	agreement.
165	9. Analysis of the adequacy of the information released
166	when seeking competing proposals and providing for the
167	enhancement of that information, if deemed necessary, to
168	encourage competition.
169	10. Criteria, key decision points, and approvals required
170	to ensure that the responsible public entity considers the
171	extent of competition before selecting proposals and negotiating
172	an interim or comprehensive agreement.
173	11. A requirement that public notice be published and
174	posted of a private entity's request for approval of a

Page 6 of 22

	37-00258-13 2013238
175	qualifying project, including:
176	a. Specific information and documentation to be released
177	regarding the nature, timing, and scope of the project.
178	b. A reasonable time period, as determined by the
179	responsible public entity, of at least 60 days, which encourages
180	competition and public-private partnerships in accordance with
181	the goals of this section, during which time the responsible
182	public entity is to receive competing proposals.
183	c. A requirement for advertising the public notice and
184	posting the notice on the Internet.
185	12. A requirement that the responsible public entity engage
186	the services of qualified professionals, which may include a
187	Florida-registered professional or a certified public
188	accountant, not otherwise employed by the responsible public
189	entity, to provide an independent analysis regarding the
190	specifics, advantages, disadvantages, and long-term and short-
191	term costs of a request by a private entity for approval of a
192	qualifying project, unless the governing body of the public
193	entity determines that such analysis should be performed by
194	employees of the public entity. Professional services as defined
195	in s. 287.055 must be engaged pursuant to s. 287.055.
196	(4) PROCUREMENT PROCEDURES The responsible public entity
197	may receive or solicit proposals with the approval of the
198	appropriating body as shown by the approval of the project in
199	the public entity's work program, and enter into an agreement
200	with a private entity or a consortium thereof, for the building,
201	upgrade, operation, ownership, or financing of a facility.
202	(a) The responsible public entity may not consider any
203	request by a private entity for approval of a qualifying project

Page 7 of 22

37-00258-13 2013238 204 until the responsible public entity has adopted, or incorporated 205 and made publicly available, in accordance with subsection (3), 206 guidelines that enable the responsible public entity to comply 207 with this section. 208 (b) By rule, ordinance, or guideline, as applicable, the 209 responsible public entity shall establish an application fee for 210 the submission of an unsolicited proposal under this section. 211 The fee must be sufficient to pay the costs of evaluating the 212 proposal. The responsible public entity may engage the services 213 of private consultants to assist in the evaluation. 214 (c) The responsible public entity may request proposals 215 from private entities for a public-private project or, if the 216 public entity receives an unsolicited proposal, the public 217 entity shall publish a notice in the Florida Administrative 218 Weekly or a newspaper of general circulation at least once a 219 week for 2 weeks stating that the public entity has received a 220 proposal and will accept other proposals for the same project 221 for 60 days after the initial date of publication. A copy of the 222 notice must be mailed to each affected local jurisdiction. 223 (d) A responsible public entity that is a school board or a 224 county or municipality may enter into an interim or 225 comprehensive agreement only with the approval of the local 226 governing body. 227 (e) Before approval, the responsible public entity must determine that the proposed project: 228 229 1. Is in the public's best interest; 230 2. Is for a facility that is owned by the responsible 231 public entity or for a facility for which ownership will be 232 conveyed to the responsible public entity;

Page 8 of 22

	37-00258-13 2013238_
233	3. Has adequate safeguards in place to ensure that
234	additional costs or service disruptions would not be imposed on
235	the public and residents of the state in the event of default or
236	cancellation of the agreement by the public entity;
237	4. Has adequate safeguards in place to ensure that the
238	responsible public entity or the private entity has the
239	opportunity to add capacity to the proposed project and other
240	facilities serving similar predominantly public purposes; and
241	5. Would be owned by the responsible public entity upon
242	completion or termination of the agreement and upon payment of
243	all amounts financed.
244	(f) Technical studies and independent analyses must comply
245	with the following:
246	1. Any interim or comprehensive agreement must include a
247	reasonable finance plan, consistent with subsection (11), which
248	identifies the project cost, revenues by source, financing,
249	major assumptions, internal rate of return on private
250	investments, and whether any government funds are assumed to
251	deliver a cost-feasible project, and a total cash-flow analysis
252	beginning with the implementation of the project and extending
253	for the term of the agreement.
254	2. Any comprehensive agreement must be consistent with an
255	investment-grade technical study prepared by a nationally
256	recognized expert who is accepted by the national bond rating
257	agencies. In evaluating the technical study, the responsible
258	public entity may rely upon internal staff reports prepared by
259	personnel familiar with the operation of similar facilities or
260	the advice of external advisors or consultants having relevant
261	experience.

Page 9 of 22

	37-00258-13 2013238
262	(5) REQUIREMENTS FOR PROJECT APPROVAL.—A request by a
263	private entity for approval of a qualifying project must be
264	accompanied by the following material and information, unless
265	waived by the responsible public entity:
266	(a) A topographic map with a scale of 1:2,000 or other
267	appropriate scale indicating the location of the qualifying
268	project.
269	(b) A description of the qualifying project, including a
270	conceptual design of the facility or a conceptual plan for the
271	provision of services, and a schedule for the initiation of and
272	completion of the qualifying project which includes the proposed
273	major responsibilities and a timeline for activities to be
274	performed by both the public and private entity.
275	(c) A statement specifying the method by which the private
276	entity proposes to secure any necessary property interest
277	required for the qualifying project.
278	(d) Information relating to current plans for the
279	development of facilities or technology infrastructure to be
280	used by a public entity which is similar to the qualifying
281	project being proposed by the private entity, if any, of each
282	affected local jurisdiction.
283	(e) A list of all permits and approvals required for the
284	qualifying project from local, state, or federal agencies and a
285	projected schedule for obtaining such permits and approvals.
286	(f) A list of public water or wastewater management
287	facilities, if any, which will be crossed by the qualifying
288	project and a statement of the plans of the private entity to
289	accommodate such crossings.
290	(g) A statement specifying the private entity's general
	I

Page 10 of 22

	37-00258-13 2013238
291	plans for financing the qualifying project, including the
292	sources of the private entity's funds and identification of any
293	dedicated revenue source or proposed debt or equity investment
294	on the behalf of the private entity.
295	(h) The names and addresses of persons who may be contacted
296	for further information concerning the request.
297	(i) User fees, lease payments, and other service payments
298	over the term of an interim or comprehensive agreement, and the
299	methodology and circumstances for changes to such user fees,
300	lease payments, and other service payments over time.
301	(j) Any additional material and information that the
302	responsible public entity may reasonably request.
303	(6) PROJECT QUALIFICATION AND PROCESS
304	(a) The responsible public entity shall qualify the public-
305	private partnerships as part of the procurement process outlined
306	in the procurement documents if such process ensures that the
307	private entity meets at least the minimum standards contained in
308	the responsible public entity's guidelines for qualifying
309	professional architectural, engineering, and contracting
310	services before submitting a proposal under the procurement.
311	(b) The responsible public entity shall ensure that
312	procurement documents include provisions for the private
313	entity's performance and payment of subcontractors, including,
314	but not limited to, surety bonds, letters of credit, parent
315	company guarantees, and lender and equity partner guarantees.
316	For those components of the qualifying project which involve
317	construction, performance and payment bonds are required and are
318	subject to the recordation, notice, suit limitation, and other
319	requirements of s. 255.05. The responsible public entity shall

Page 11 of 22

	37-00258-13 2013238
320	balance the structure of the security package for the public-
321	private partnership which ensures performance and payment of
322	subcontractors with the cost of the security to ensure the most
323	efficient pricing. The procurement documents must contain
324	contract provisions addressing termination, default, and exit
325	transition obligations of the private entity.
326	(c) After the public notification period has expired, the
327	responsible public entity shall rank the proposals in order of
328	preference. In ranking the proposals, the responsible public
329	entity may consider factors that include, but need not be
330	limited to, professional qualifications, general business terms,
331	innovative engineering or cost-reduction terms, and finance
332	plans. If the public entity is not satisfied with the results of
333	the negotiations with the first-ranked private entity, the
334	public entity may terminate negotiations and go to the second-
335	ranked, then lower-ranked private entities, in order, using this
336	same procedure. If only one proposal is received, the
337	responsible public entity may negotiate in good faith and, if
338	the public entity is not satisfied with the results of the
339	negotiations, the public entity may terminate negotiations with
340	the proposer. Notwithstanding this subsection, the responsible
341	public entity may reject all proposals at any point in the
342	process up to execution of a contract with the proposer.
343	(d) The responsible public entity shall perform an
344	independent analysis, or other analysis in accordance with
345	paragraph (4)(f), of the proposed public-private partnership
346	which demonstrates the cost-effectiveness and overall public
347	benefit at the following times:
348	1. Before the procurement process; and

Page 12 of 22

	37-00258-13 2013238
349	2. Before awarding the contract.
350	(e) The responsible public entity may approve the
351	development or operation of an educational facility, a water or
352	wastewater management facility and related infrastructure, a
353	technology infrastructure or other public infrastructure, or a
354	government facility needed by the public entity as a qualifying
355	project, or the design or equipping of a qualifying project so
356	developed or operated, if:
357	1. There is a public need for or benefit derived from a
358	project of the type that the private entity proposes as a
359	qualifying project;
360	2. The estimated cost of the qualifying project is
361	reasonable in relation to similar facilities; and
362	3. The private entity's plans will result in the timely
363	acquisition, design, construction, improvement, renovation,
364	expansion, equipping, maintenance, or operation of the
365	qualifying project.
366	(f) The responsible public entity may charge a reasonable
367	application fee to cover the costs of processing, reviewing, and
368	evaluating the request, including, but not limited to,
369	reasonable attorney fees and fees for financial, technical, and
370	other necessary advisors or consultants.
371	(g) Upon approval of a qualifying project, the responsible
372	public entity must establish a date for the commencement of
373	activities related to the qualifying project. The responsible
374	public entity may extend such date.
375	(h) Approval of a qualifying project by the responsible
376	public entity is subject to entering into a comprehensive
377	agreement with the private entity.

Page 13 of 22

37-00258-13 2013238 378 (7) NOTICE TO AFFECTED LOCAL JURISDICTIONS.-379 (a) Any private entity requesting approval from, or submitting a proposal to, a responsible public entity must 380 381 notify each affected local jurisdiction by furnishing a copy of 382 its request or proposal to each affected local jurisdiction. 383 (b) Each affected local jurisdiction that is not a 384 responsible public entity for the respective qualifying project 385 shall, within 60 days after receiving such notice, submit any 386 comment it may have in writing to the responsible public entity 387 and indicate whether the facility is compatible with the local 388 comprehensive plan, the local infrastructure development plan, 389 the capital improvements budget, or other governmental spending 390 plan. Before entering a comprehensive agreement with a private 391 entity, the responsible public entry must consider the affected 392 local jurisdictions' comments. 393 (8) INTERIM AGREEMENT.-Before, or in connection with, the 394 negotiation of a comprehensive agreement, the responsible public 395 entity may enter into an interim agreement with the private 396 entity proposing the development or operation of the qualifying 397 project. An interim agreement does not obligate the responsible 398 public entity to enter into a comprehensive agreement. An 399 interim agreement must be limited to provisions that: 400 (a) Authorize the private entity to commence activities for 401 which it may be compensated related to the proposed qualifying project, including, but not limited to, project planning and 402 403 development, design and engineering, environmental analysis and 404 mitigation, surveys, or other activities concerning any part of 405 the proposed qualifying project, and ascertaining the 406 availability of financing for the proposed facility or

Page 14 of 22

	37-00258-13 2013238
407	facilities.
408	(b) Establish the process and timing of the negotiation of
409	the comprehensive agreement.
410	(c) Contain any other provisions related to any aspect of
411	the development or operation of a qualifying project which the
412	responsible public entity and the private entity deem
413	appropriate.
414	(9) COMPREHENSIVE AGREEMENT
415	(a) Before developing or operating the qualifying project,
416	the private entity shall enter into a comprehensive agreement
417	with the responsible public entity. The comprehensive agreement
418	must provide for:
419	1. Delivery of maintenance, performance, and payment bonds
420	and letters of credit in connection with the development or
421	operation of the qualifying project in the forms and amounts
422	satisfactory to the responsible public entity. For those
423	components of the qualifying project which involve construction,
424	the form and amount of the bonds must comply with s. 255.05.
425	2. Review of plans and specifications for the qualifying
426	project by the responsible public entity and approval by the
427	responsible public entity if the plans and specifications
428	conform to standards acceptable to the responsible public
429	entity. This subparagraph does not require the private entity to
430	complete the design of the qualifying project before the
431	execution of the comprehensive agreement.
432	3. Inspection of the qualifying project by the responsible
433	public entity to ensure that the operator's activities are
434	acceptable to the public entity in accordance with the
435	comprehensive agreement.

Page 15 of 22

	37-00258-13 2013238
436	4. Maintenance of a policy or policies of public liability
437	insurance, copies of which shall be filed with the responsible
438	public entity accompanied by proofs of coverage or self-
439	insurance, each in the form and amount satisfactory to the
440	responsible public entity and reasonably sufficient to ensure
441	coverage of tort liability to the public and employees and to
442	enable the continued operation of the qualifying project.
443	5. Monitoring of the practices of the private entity by the
444	responsible public entity to ensure that the qualifying project
445	is properly maintained.
446	6. Reimbursement to be paid to the responsible public
447	entity for services provided by the responsible public entity.
448	7. Filing of appropriate financial statements on a periodic
449	basis.
450	8. Procedures governing the rights and responsibilities of
451	the responsible public entity and the private entity in the
452	event the comprehensive agreement is terminated or there is a
453	material default by the private entity. Such procedures must
454	include conditions governing assumption of the duties and
455	responsibilities of the private entity by the responsible public
456	entity and the transfer or purchase of property or other
457	interests of the private entity by the responsible public
458	entity.
459	9. User fees, lease payments, or service payments as may be
460	established by agreement of the parties. A copy of any service
461	contract shall be filed with the responsible public entity. In
462	negotiating user fees, the parties shall establish user fees
463	that are the same for persons using the facility under like
464	conditions and that will not materially discourage use of the

Page 16 of 22

	37-00258-13 2013238
465	qualifying project. The execution of the comprehensive agreement
466	or any amendment thereto constitutes conclusive evidence that
467	the user fees, lease payments, or service payments provided for
468	comply with this section. User fees or lease payments
469	established in the comprehensive agreement as a source of
470	revenues may be in addition to, or in lieu of, service payments.
471	10. Duties of the private entity, including terms and
472	conditions that the responsible public entity determine serve
473	the public purpose of this section.
474	(b) The comprehensive agreement may include:
475	1. An agreement by the responsible public entity to make
476	grants or loans to the private entity from amounts received from
477	the federal, state, or local government or any agency or
478	instrumentality thereof.
479	2. Provisions under which each entity agrees to provide
480	notice of default and cure rights for the benefit of the other
481	entity, including, but not limited to, provisions regarding
482	unavoidable delays.
483	3. Provisions whereby the authority and duties of the
484	private entity under this section will cease and the qualifying
485	project will be dedicated to the responsible public entity or,
486	if the qualifying project was initially dedicated to an affected
487	local jurisdiction, to such affected local jurisdiction for
488	public use.
489	(10) USER FEES.—
490	(a) An agreement that is entered into pursuant to this
491	section may authorize the private entity to impose user fees for
492	the use of the facility. The following provisions apply to such
493	agreement:

Page 17 of 22

	37-00258-13 2013238
494	1. The responsible public entity shall ensure that the
495	facility is properly operated, maintained, and renewed in
496	accordance with the responsible public entity's standards.
497	2. The responsible public entity may develop a new facility
498	or increase the capacity of the existing facility through a
499	public-private partnership.
500	3. The responsible public entity may lease the existing
501	fee-for-use facility through a public-private partnership.
502	4. The responsible public entity shall regulate any
503	revenues pursuant to guidelines or rules established in
504	subsection (3).
505	5. The regulations governing the future increase of user
506	fees must be included in the public-private partnership
507	agreement.
508	(b) The responsible public entity shall include provisions
509	in the public-private partnership agreement which ensure that a
510	negotiated portion of revenues from user-fee-generating projects
511	are returned to the public entity over the life of the
512	agreement. In the case of a lease of an existing facility, the
513	responsible public entity shall receive a portion of funds upon
514	closing on the agreements and also a portion of excess revenues
515	over the life of the public-private partnership.
516	(11) FINANCING.—
517	(a) A private entity may enter into a financing agreement
518	with private financing sources. All financing agreements and all
519	liens on the property or facility must be paid in full at the
520	applicable closing that transfers the ownership of the facility
521	to the responsible public entity.
522	(b) The responsible public entity may lend funds from its

Page 18 of 22

I	37-00258-13 2013238
523	trust fund to a private entity that constructs a project
524	containing a facility which is approved under this section. To
525	be eligible, the private entity must comply with s. 215.97 and
526	must provide an indication from a nationally recognized rating
527	agency that the senior bonds for the project will be investment
528	grade, or must provide credit support, such as a letter of
529	credit or other means acceptable to the responsible public
530	entity, to ensure that the loans will be fully repaid.
531	(c) The responsible public entity may use innovative
532	finance techniques associated with a public-private partnership
533	under this section, including, but not limited to, federal loans
534	as provided in 23 and 49 C.F.R., commercial bank loans, and
535	hedges against inflation from commercial banks or other private
536	sources. The responsible public entity may use the model
537	financing agreement as provided in s. 489.145(6) for its
538	financing of a facility owned by the responsible public entity.
539	A financing agreement may not require the responsible public
540	entity to indemnify the financing source, subject the
541	responsible public entity's facility to liens in violation of s.
542	11.066(5), or secure financing by the responsible public entity
543	with a pledge of security interest, and any such provisions are
544	void.
545	(12) POWERS AND DUTIES OF THE PRIVATE ENTITY
546	(a) The private entity shall:
547	1. Develop or operate the qualifying project in a manner
548	that is acceptable to the responsible public entity in
549	accordance with the provisions of the interim or comprehensive
550	agreement.
551	2. Maintain, or provide by contract for the maintenance or

Page 19 of 22

37-00258-13 2013238 552 upgrade of, the qualifying project if required by the interim or 553 comprehensive agreement. 554 3. Cooperate with the responsible public entity in making 555 the best efforts to establish any interconnection with the 556 qualifying project requested by the responsible public entity. 557 4. Comply with the interim or comprehensive agreement and 558 any lease or service contract. 559 (b) Each private facility constructed pursuant to this 560 section must comply with all requirements of federal, state, and local laws; state, regional, and local comprehensive plans; 561 562 responsible public entity rules, procedures, and standards for 563 facilities; and any other conditions that the responsible public entity determines to be in the public's best interest. 564 565 (c) The responsible public entity may provide services to 566 the private entity. Agreements for maintenance and other 567 services entered into pursuant to this section must provide for 568 full reimbursement for services rendered for the project. 569 (d) The private entity of the qualifying project may 570 provide additional services for the qualifying project to a 571 public or private entity other than the responsible public 572 entity if the provision of additional service does not impair 573 the private entity's ability to meet its commitments to the 574 public entity pursuant to the interim or comprehensive 575 agreement. 576 (13) EXPIRATION OR TERMINATION OF AGREEMENTS.-Upon 577 expiration or termination of the interim or comprehensive 578 agreement, the responsible public entity may use revenues to pay 579 current operation and maintenance costs of the qualifying 580 project, as well as compensation to the responsible public
