

**HOUSE OF REPRESENTATIVES
FINAL BILL ANALYSIS**

BILL #:	CS/CS/HB 921	FINAL HOUSE FLOOR ACTION:	
SPONSOR(S):	Education Appropriations Subcommittee; K-12 Subcommittee; Gaetz; and others	84 Y's	33 N's
COMPANION BILLS:	CS/SB 864	GOVERNOR'S ACTION:	Approved

SUMMARY ANALYSIS

CS/CS/HB 921 passed the House on April 28, 2014, as CS/SB 864 as amended. The Senate concurred in the House amendment to the Senate bill and subsequently passed the bill as amended on May 1, 2014. The bill expressly reiterates that each district school board is responsible for the content of all instructional materials used in a classroom, whether adopted from the state-adopted list, adopted through a district program, or otherwise purchased or made available in a classroom. In addition, the bill:

- Requires district school boards, whether they choose to implement their own instructional materials program or select from the state-adopted list, to establish a process to review and adopt materials and to make recommended materials available for public review and comment before adoption;
- Requires each district school board to establish a process by which parents may contest the content of an instructional material adopted from the state-adopted list or through the district program and establishes requirements for the process;
- Requires each district school board to establish a process by which parents may object to instructional materials throughout the year;
- Authorizes districts, beginning in the 2014-2015 fiscal year, to spend 100 percent of their instructional materials allocation for the purchase of digital or electronic instructional materials;
- Authorizes the Department of Education to assess and collect fees from publishers participating in the instructional materials approval process. The fees may not exceed \$1,000 per submission and must be used to pay state reviewers a stipend; and
- Reiterates that each school district is responsible for providing instruction on specified subjects as required by s. 1003.42, F.S.; and
- Adds the requirement that, along with other subjects specified in law, school districts must provide instruction on the events surrounding the terrorist attacks occurring on September 11, 2001, and the impact of those events on the nation.

The bill does not require districts to adopt their own instructional materials program, but if they so choose, there will be an indeterminate fiscal impact associated with implementation. See Fiscal Comments section of this bill analysis.

For those districts without their own instructional materials program, the bill does require that before adoption of state-adopted instructional materials the district must provide a process for on-line public review and comment as is otherwise required for districts establishing their own instructional materials program. There may be a slight, indeterminate fiscal impact for certain districts to implement the public access requirements.

The bill was approved by the Governor on May 12, 2014, ch. 2014-15, L.O.F., and will become effective on July 1, 2014.

This document does not reflect the intent or official position of the bill sponsor or House of Representatives.

DATE: May 14, 2014

I. SUBSTANTIVE INFORMATION

A. EFFECT OF CHANGES:

Present Situation

Instructional Materials Adoption

Instructional materials are items having intellectual content designed to serve as a major tool for instruction of a subject or course. Instructional materials may consist of hard-backed or soft-backed textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software.¹ State law provides a statewide process for the adoption of instructional materials, and the Commissioner of Education (commissioner) annually determines the academic areas in which instructional materials must be submitted for adoption.²

Publishers and manufacturers that provide instructional materials as a single bundle must make the instructional materials available as separate and unbundled items, each priced individually. A publisher may also offer sections of state-adopted instructional materials in digital or electronic versions at reduced rates to districts, schools, and teachers.³

Funding for instructional materials is provided annually in the General Appropriations Act. Legislation enacted in 2013 provides each school district the option of implementing its own program for the review, approval, adoption, and purchase of instructional materials.⁴ School districts that participate in the state instructional materials adoption process must procure instructional materials for each content area every five years, with exceptions for content areas that require more frequent revision. The content areas scheduled for adoption rotate each year.⁵ State reviewers evaluate instructional materials for alignment with the applicable state academic standards and recommend materials for inclusion on a state-adopted list.⁶

School districts that choose to purchase instructional materials through the state adoption process must expend a portion of their state funding to purchase materials on the state-adopted list. School districts that implement their own instructional materials program are not required to purchase instructional materials on the state-adopted list or follow the same review cycle used for state instructional materials adoption.⁷

School District Use of State Instructional Materials Funds

School districts that purchase instructional materials through the state adoption process must purchase instructional materials within the first three years of the effective date of the adoption cycle.⁸ By fiscal year 2015-16, each school district that purchases instructional materials through the state adoption process must use at least 50 percent of the funds allocated for instructional materials to purchase digital or electronic instructional materials on the state-adopted list.⁹ The remainder of the funds may be used to purchase instructional materials not on the state-adopted list, but must be used for the purchase of instructional materials or other items having intellectual content which assist in the instruction of a subject or course. These items may be available in bound, unbound, kit, or package form and may include hardbacked or softbacked textbooks, electronic content, and replacements for

⁷ Sections 1006.283 and 1006.40, F.S.

⁸ Section 1006.40(2), F.S.

⁹ Section 1006.40(3)(a), F.S.

items which were part of previously purchased instructional materials, consumables, learning laboratories, manipulatives, electronic media, computer courseware or software, and other commonly accepted instructional tools as prescribed by district school board rule.¹⁰ A school district may also use the remainder of funds for the repair and renovation of textbooks and library books.¹¹

One hundred percent of the state instructional materials funds used for kindergarten and 75 percent of the state instructional materials funds used for first grade may be spent to purchase materials that are not on the state-adopted list.¹²

A school district that implements its own instructional materials program must expend up to 50 percent of its annual instructional materials allocation on digital or electronic materials by FY 2015-16; however, the district is not required to purchase instructional materials on the state-adopted list. The remaining funds must be spent on instructional materials; however, unlike districts that purchase instructional materials through the state adoption process, the district has full discretion to determine the types of materials purchased.¹³

For all school districts, funds allocated to purchase instructional materials may only be used for other classroom expenditures or the purchase of hardware for student instruction when the district school board finds and declares in a resolution that the funds received for instructional materials are urgently needed to maintain school board specified academic classroom instruction.¹⁴

State Instructional Materials Adoption Process

The Commissioner of Education adopts instructional materials according to a 5-year rotating schedule. However, the commissioner may approve terms of adoption of less than five years for materials in content areas which require more frequent revision.¹⁵ The Department of Education (DOE) annually publishes an official schedule of subject areas calling for adoption for each of the succeeding two years, and a tentative schedule for years three through five. Under extenuating circumstances, the commissioner may direct the DOE to add one or more subject areas to the official schedule.¹⁶

Approximately one year before the adoption of instructional materials in a certain subject area, the DOE publishes specifications for the subjects to be adopted. These specifications detail the courses for which materials are sought and the standards the materials must meet.¹⁷

Beginning on or before May 15 of the adoption year, the DOE advertises¹⁸ a request for sealed bids or proposals from publishers of instructional materials. The advertisement must require each bidder to furnish electronic sample copies of all instructional materials submitted.¹⁹

¹⁰ Section 1006.40(4), F.S.

¹¹ Section 1006.40(3)(b), F.S.

¹² Section 1006.40(3)(c), F.S.

¹³ Section 1006.40(3)(a), F.S.

¹⁴ Section 1011.62(6)(b)5., F.S. The expenditure of funds for other classroom expenditures or for the purchase of hardware for student instruction may only occur if the school district has purchased all of the instructional materials necessary to provide updated materials aligned to the state academic standards for that fiscal year. Purchases may not be made before March 1. The funds available after March 1 may be used to purchase hardware for student instruction. *Id.*

¹⁵ Section 1006.36(1), F.S.

¹⁶ Section 1006.36(2), F.S.

¹⁷ Florida Department of Education, Bureau of Curriculum and Instruction, *Policies and Procedures for the Florida Instructional Materials Adoption*, at 1 (Dec. 2011), *incorporated by reference into* rule 6A-7.0710, F.A.C.

¹⁸ Beginning in FY 2010-11, all advertisements must state that each bidder must furnish electronic sample copies of all instructional materials submitted. Section 1006.33(1)(b), F.S.

¹⁹ Section 1006.33(1)(a) and (b), F.S. A school district may not request samples in addition to the electronic sample copies. Section 1006.33(1)(b), F.S.

Once all bids have been considered, the commissioner selects and adopts, from the list reported by the state instructional materials reviewers as “suitable, usable, and desirable” instructional materials for each grade and subject in the curriculum of public elementary, middle, and high schools in which adoptions are made and in the subject areas designated in the advertisement.²⁰

State Instructional Materials Reviewers

The state instructional materials reviewers are state or national experts in the content areas submitted for adoption. The reviewers are appointed by the commissioner by April 15 of each school year to review the instructional materials and evaluate the content for alignment with the applicable state academic standards.²¹

The state instructional material reviewers receive training in competencies related to the evaluation and selection of instructional materials.²² After receiving training, the reviewers must review the materials for the level of instructional support and the accuracy and appropriateness of progression of introduced content. Instructional materials must be made electronically available to the reviewers.²³

The initial review of the materials is made by only two of the three reviewers. If the two reviewers reach different results, the third reviewer must break the tie. The reviewers must independently make recommendations to the commissioner regarding materials that should be placed on the state-adopted list through an electronic feedback review system.²⁴

Each state instructional materials reviewer must sign an affidavit to the effect that he or she:

- Will faithfully discharge the duties imposed as a state instructional materials reviewer.
- Has no interest in any publishing or manufacturing organization that produces or sells instructional materials.
- Is in no way connected with the distribution of the instructional materials.
- Does not have any direct or indirect pecuniary interest in the business or profits of any person engaged in manufacturing, publishing, or selling instructional materials designed for use in public schools.
- Will not accept any emolument or promise of future reward from anyone intending to bias his or her judgment in the selection of materials to be adopted.
- Understands that it is unlawful to discuss matters relating to instructional materials submitted for adoption with any publisher or manufacturer of instructional materials, except during the period when the publisher or manufacturer is providing a presentation for the reviewer.²⁵

Duties of School Districts

Each district school superintendent, at the request of the commissioner, must nominate one classroom teacher or district-level content supervisor to review two or three of the submissions recommended by the state instructional materials reviewers. School districts must ensure that these district reviewers are provided with the support and time necessary to accomplish a thorough review of the instructional materials. District reviewers must independently rate the recommended submissions on the

²¹ Section 1006.29(1)(b), F.S.

²² Section 1006.29(4), F.S.

²³ Section 1006.29(1)(b), F.S.

²⁴ *Id.*

²⁵ Section 1006.30, F.S.

instructional usability of the resources.²⁶ Persons selected as school district reviewers must complete training, developed by the DOE, related to the evaluation and selection of instructional materials.²⁷

School districts are required to purchase current instructional materials to provide each student adequate materials for core courses in mathematics, language arts, science, social studies, reading, and literature for kindergarten through grade 12.²⁸ School districts review state-adopted instructional materials and select materials to be used in their local schools.²⁹ State-adopted instructional materials are available for purchase beginning April 1 of the year following adoption and must be requisitioned from the depository of the publisher.³⁰

Within the first three years of the adoption cycle, a school district superintendent must purchase instructional materials to provide each student with a textbook or other materials as a major tool of instruction for these core courses.³¹ The superintendent must keep adequate records and accounts for all financial transactions related to instructional materials.³² The superintendent is also required to notify the DOE by April 1 of which instructional materials will be used by the district. The notification must include a plan to be used to determine if adequate instructional materials have been purchased.³³

By July 1 of each year and before state instructional materials funds are released, a school district's superintendent must certify to the commissioner that the district school board has approved a comprehensive staff development plan that supports implementation of instructional materials programs. The school district must verify that training was provided and that the materials are being implemented as designed.³⁴

Instructional materials that are unserviceable, surplus, or no longer on state contract may be given by a school district to other education programs; teachers; students, including home education students; or any charitable organization, governmental agency, private school, or state. To dispose of instructional materials, a school district may also sell the materials to used-book dealers; recycling plants; pulp mills; or other persons, firms, or corporations. Any money received must be deposited in the school district's fund for instructional materials.³⁵

Duties of School Principals

A school principal is responsible for:

- Assuring that instructional materials are used to provide instruction to students enrolled at the grade level for which the materials are designed;
- Communicating to parents how instructional materials are used to implement curricular objectives;

²⁶ Section 1006.29(1)(c), F.S.

²⁷ Section 1006.29(5), F.S.

²⁸ Section 1006.40(2), F.S. "Adequate instructional materials" means a "sufficient number of student or site licenses or sets of materials that are available in bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software that serve as the basis for instruction for each student in the core courses of mathematics, language arts, social studies, science, reading, and literature." Section 1006.28(1), F.S.

²⁹ See s. 1006.28(1)(b), F.S.

³⁰ Sections 1006.36(1) and 1006.37(1), F.S.; see also s. 1006.28(2)(b), F.S.; Florida Department of Education, Bureau of Curriculum and Instruction, *Florida Instructional Materials Adoption Schedule for Adoption Years 2011-2012 through 2016-2017* (May 22, 2012), available at http://www.fldoe.org/BII/instruct_mat/pdf/cycle.pdf.

³¹ Section 1006.37(1), F.S.

³² Section 1006.28(2)(a), F.S.

³³ Section 1006.28(2)(a), F.S.

³⁴ Section 1011.67(2), F.S.

³⁵ Section 1006.41(1) and (3), F.S.

- Selling instructional materials to parents upon request; and
- Accounting for instructional materials and collecting payment from a student or parent for any lost, destroyed, or damaged instructional materials³⁶ and transmitting all money collected to the school district superintendent for deposit into the district school board fund.³⁷

Duties of Publishers and Manufacturers

Publishers and manufacturers of instructional materials must, among other things:

- Submit electronic sample copies of instructional materials to the DOE;
- Submit evidence that the materials provided address the state academic and the materials can be accessed through the district's local instructional improvement system and a variety of electronic, digital, and mobile devices;
- Furnish instructional materials at a price not to exceed the lowest price offered in other states;
- Automatically reduce the price of instructional materials or provide materials free of charge if provided to other states at a reduced rate or free of charge;
- Disclose the authors of the instructional materials;
- Keep the materials revised, free from all errors, and up-to-date; and
- Maintain a depository in Florida for the in-state distribution of instructional materials to school districts from the depository or contract with a depository in the state.³⁸

Additionally, publishers and manufacturers of instructional materials are prohibited from offering any emolument, money, or other valuable thing or any inducement, to any district school board official or state instructional materials reviewer to directly or indirectly introduce, recommend, vote for, or otherwise influence the adoption or purchase of any instructional materials. Violating this prohibition is a second degree misdemeanor and will result in a ban from practicing business in the state for one calendar year.³⁹

School District Instructional Materials Adoption Programs

School districts that choose to implement their own instructional materials program are not required to purchase instructional materials from the state-adopted list,⁴⁰ requisition instructional materials from the publisher's depository,⁴¹ or follow the same review cycle used for state instructional materials adoption.⁴² Multiple school districts may form a consortium for the purpose of implementing an instructional materials program.⁴³

Each school board implementing an instructional materials program must adopt rules:

- Specifying the instructional materials review process, review cycle, and duties and qualifications of instructional materials reviewers;
- Requiring school district instructional materials reviewers to comply with statutorily prescribed conflict of interest affidavits and state instructional materials reviewer duties;
- Requiring reviewer and publisher compliance with law prohibiting the acceptance or solicitation of money or inducements to influence approval or purchase of instructional materials;

³⁶ Principals are authorized to suspend a student from participating in extracurricular activities if the debt is not paid or require the student to participate in community service activities to satisfy the debt. Section 1006.28(3)(b), F.S.

³⁷ Section 1006.28(3), F.S.

³⁸ Section 1006.38, F.S.

³⁹ Section 1006.32(1) and (4), F.S. A second degree misdemeanor is punishable by a term of imprisonment not exceeding 60 days and a fine not exceeding \$500. Sections 775.082(4)(b) and 775.083(1)(e), F.S.

⁴⁰ Section 1006.40(3)(a), F.S.

⁴¹ Section 1006.37(3), F.S.

⁴² Section 1006.283(2)(b), F.S.

⁴³ Section 1006.283(1), F.S.

- Specifying a process for certifying the accuracy of instructional materials;
- Requiring publisher compliance with law regarding publisher duties, responsibilities, and requirements; and
- Specifying the instructional materials purchase process, including advertising, bidding, and purchasing requirements.⁴⁴

School district instructional materials reviewers must review instructional materials using standards similar to those currently specified for state instructional materials reviewers and for alignment to the state academic standards. Beginning in the 2013-14 school year, the district superintendent must annually certify that all instructional materials for core courses used by the school district are aligned with applicable state standards and provide a list of all core materials that will be used or purchased by the district.⁴⁵

School districts implementing their own instructional materials program may collect fees from publishers who submit instructional materials for review. Such fees may not exceed the actual cost to review a publisher submission up to a maximum of \$3,500. Fees assessed and collected must be posted on the district website, reported to the DOE, and maintained in a separate line item for auditing purposes.⁴⁶

School districts may only use revenues generated by fees to support the instructional materials review process, including the payment of stipends for reviewers, reimbursement of travel expenses and per diem incurred by reviewers, and costs relating to employing substitute teachers to fill in for instructional personnel serving as reviewers.⁴⁷

Transition to Digital and Electronic Instructional Materials

“Beginning in the 2015-2016 academic year,” all state-adopted instructional materials for students in kindergarten through grade 12 must be provided in an electronic or digital format.⁴⁸ “By the 2015-2016 fiscal year,” each school district must use at least 50 percent of its annually allocated instructional materials funding to purchase digital or electronic instructional materials.⁴⁹

Instructional materials in electronic format and digital format do not include electronic or computer hardware even if such hardware is bundled with software or other electronic media, equipment, or supplies.⁵⁰

Local Instructional Improvement Systems

A local instructional improvement system is a system that uses electronic and digital tools that provide teachers, administrators, students, and parents with data and resources to systematically manage continuous instructional improvement. The system must support relevant activities such as instructional planning, information gathering and analysis, rapid-time reporting, decision making on appropriate

⁴⁴ Section 1006.283(2), F.S.

⁴⁵ Section 1006.283(2) and (4), F.S.

⁴⁶ Section 1006.283(3)(a), F.S.

⁴⁷ Section 1006.283(3)(b), F.S.

⁴⁸ Section 1006.29(3), F.S. “Electronic format” means text-based or image-based content in a form that is produced on, published by, and readable on computers or other digital devices and is an electronic version of a printed book, whether or not any printed equivalent exists. “Digital format” means text-based or image-based content in a form that provides the student with various interactive functions; that can be searched, tagged, distributed, and used for individualized and group learning; that includes multimedia content such as video clips, animations, and virtual reality; and that has the ability to be accessed at any time and anywhere. Section 1006.29(3)(a) and (b), F.S.

⁴⁹ Section 1006.40(3)(a), F.S. School districts that purchase instructional materials through the state adoption process must purchase the digital instructional materials off the state-adopted list. School districts that implement their own instructional materials program are not required to purchase the digital instructional materials off the state-adopted list. *Id.*

⁵⁰ Section 1006.29(3), F.S. (flush left at the end of subsection).

instructional sequence, and evaluating the effectiveness of instruction. Additionally, the system must integrate instructional information with student-level data to provide predictions of future student achievement.⁵¹

Each school district must provide teachers, administrators, students, and parents access to a local instructional improvement system. The system must provide access to electronic and digital instructional materials, and teaching and learning tools and resources, including the ability for teachers and administrators to manage, assess, and track student learning.⁵² By June 30, 2014, the local instructional improvement system should allow for a single, authenticated sign-on and include the following functionality:

- Vertically searches for, gathers, and organizes specific standards-based instructional materials.
- Enables teachers to prepare lessons, individualize student instruction, and use best practices in providing instruction.
- Provides communication, including access to up-to-date student performance data, in order to help teachers and parents better serve the needs of students.
- Provides access for administrators to ensure quality.
- Enables district staff to plan, create, and manage professional development and to connect professional development with staff information and student performance data. Provides access to multiple content providers and provides the ability to seamlessly connect the local instructional improvement system to electronic and digital content.⁵³

Instructional Materials Content

Any instructional materials recommended by reviewers for use in schools must be, to the satisfaction of each reviewer, accurate, objective, current, and suited to the needs and comprehension of students at their respective grade levels.⁵⁴

Effect of Proposed Changes

Currently, district school boards may implement their own instructional materials program or purchase state-adopted instructional materials. The bill maintains both options and states that, under either option, each school district has the constitutional duty and responsibility to select and provide adequate instructional materials for all the district's students. The bill also reiterates the current situation that a district school board is responsible for the content of all instructional materials used in the classroom, whether purchased through an adoption process or otherwise made available in the classroom.

If a district school board chooses to implement its own instructional materials program, the bill requires that district rules specify the qualifications of an instructional materials reviewer and the process for selecting reviewers, which must include one or more parents with children in public schools.

The bill requires that the district school board establish in rule a process to be used both for the adoption of instructional materials from the state-adopted list and for materials adopted through a district program, which must include:

- An open, noticed district school board hearing to review recommended instructional material and receive public comment;

⁵¹ Section 1006.281(1), F.S.

⁵² Section 1006.281(2), F.S.

⁵³ Section 1006.281(3), F.S.

⁵⁴ Section 1006.31(2)(e), F.S.

- An open, noticed public school board meeting, held on a different date than the public hearing, to approve an annual instructional materials plan, including the adoption of instructional materials; and
- Posting of the recommended instructional materials on the district school board's website at least 20 days in advance of public hearings and public meetings. The district must establish a process by which the public can submit, and the school board members receive, comments and review on the recommended instructional materials.

Notices for public hearing and public meetings specifically must state which materials are being reviewed and the manner in which the materials can be accessed for public review.

Reasonable safeguards must be established against the unauthorized use, reproduction, and distribution of instructional materials posted online for public review and comment. Only the student editions of the instructional materials may be posted.

The bill requires each district school to adopt in rule the process by which the school board will receive public comment on, and review, recommended instructional materials and the process by which parents will be notified of their ability to access their children's textbooks and instructional materials through the district's local instructional improvement system.

The bill requires each district school board to establish a process by which parents may contest the content of an instructional material adopted either from the state-adopted list or through the district program. The bill requires the parent of a student seeking to contest an adopted instructional material to file a petition, in a form provided by the district school board, within 30 days of adoption of the material. The district school board must conduct at least one open public hearing on timely filed petitions within 30 days after the 30-day, post-adoption filing period expires. The bill requires the district school board to provide each petitioner written notification of the date and time of the hearing at least seven days in advance, at which time the school board must also make all instructional materials accessible to the public online. The bill provides that the school board's decision after convening a hearing is final and not subject to further petition or review.

Each district school board must also adopt a policy that allows a parent to object to his or her child's use of an instructional material and a process to resolve objections.

Currently, district school superintendents must annually certify to the DOE that all instructional materials for core courses used by the district are aligned with all applicable state standards. The bill requires the superintendent to also certify that the instructional materials have been reviewed, selected, and adopted by the district school board pursuant to the public hearing and meeting requirements.

The bill requires the state and school district instructional materials reviewers to recommend only instructional materials aligned with state standards for adoption. The instructional materials recommended shall be accurate, objective, balanced, noninflammatory, current, and suited to student needs and their ability to comprehend the material. The bill requires that each district instructional materials reviewer provide a statement that the materials recommended align with the state standards.

The bill provides that school districts, beginning in the 2014-2015 school year, may use all of their instructional materials allocation on digital or electronic instructional materials. In addition, the bill reiterates that each school district is responsible for providing instruction on specified subjects as required by s. 1003.42, F.S., and providing instruction on the events surrounding the terrorist attacks occurring on September 11, 2001, and the impact of those events on the nation.

II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:

The bill authorizes the DOE to assess and collect fees, up to \$1,000 per submission, from publishers participating in the instructional materials approval process.

2. Expenditures:

Instructional materials review fees assessed and collected by the DOE must be deposited into the DOE Operating Trust Fund so that state reviewers may be paid a stipend of an unspecified amount.

B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

1. Revenues:

None.

2. Expenditures:

The fiscal impact of the bill on school districts that choose to implement their own instructional materials adoption process is indeterminate. Districts will likely incur costs related to the hiring of reviewers and establishing the infrastructure necessary to conduct reviews. See Fiscal Comments.

C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

None.

D. FISCAL COMMENTS:

Although school districts that choose to implement their own instructional materials adoption process are likely to incur costs associated with the review of materials, s. 1006.283, F.S., authorizes the districts to collect fees from publishers who submit instructional materials for review. Such fees may not exceed the actual cost to review a publisher submission up to a maximum of \$3,500. Fees assessed and collected must be posted on the district website, reported to DOE, used to support the review process, and maintained in a separate line item for auditing purposes.
