COMMITTEE SUBSTITUTE - Technical Changes

I. Summary:

CS/CS/SB 600 clarifies the statutory accounting treatment of assessments levied by the Florida Insurance Guaranty Association (FIGA) and codifies the Office of Insurance Regulation's interpretation for such treatment. The FIGA provides a mechanism for payment of covered claims of an insolvent property and casualty insurer, and may levy regular assessments and emergency assessments to raise funds to pay the claims. An insurer may recoup such assessments from policyholders. The bill provides that such assessments are generally admissible assets for purposes of determining the financial condition of an insurer.

The bill also clarifies that the Florida Life and Health Insurance Guaranty Association must review policies, contracts, and claims of both foreign and domestic insurer-members.

The bill has no fiscal impact.

II. Present Situation:

Insurance Guaranty Associations in Florida

Chapter 631, F.S., "Insurer Insolvency and Guaranty of Payment," governs receivership for Florida insurance companies. Federal law specifies that insurance companies may not file for

bankruptcy.¹ Instead, Florida insurance companies are “rehabilitated” or “liquidated” by the Florida Department of Financial Services’ (DFS) Division of Rehabilitation and Liquidation.²

Florida has five insurance guaranty associations, which protect policyholders of liquidated insurers from financial losses and delays in claim payment and settlement.³ A guaranty association steps into the shoes of an insolvent insurer to settle claims and refund unearned premiums⁴ for policyholders. Active insurers are legally required to participate in guaranty associations.

Florida Insurance Guaranty Association (FIGA)

Part II of ch. 631, F.S., governs the FIGA, a nonprofit corporation. Property and casualty insurance companies doing business in Florida are required to be members of the FIGA. The FIGA assumes the claims of insolvent property and casualty insurers and pays their policyholders’ claims, which include claims on residential and commercial property insurance, automobile insurance, and liability insurance.

The FIGA will cover claims up to \$300,000, but special limits apply to damages to structure and contents on homeowners, condominiums, and homeowners’ association claims. For damages to structure and contents on homeowners’ claims, FIGA covers an additional \$200,000, for a total of \$500,000. For condominium and homeowners’ association claims, FIGA covers the lesser of policy limits or \$100,000 multiplied by the number of units in the association.⁵

FIGA Funding and Assessments

In order to pay claims and maintain the operations of an insolvent insurer, the FIGA has several potential funding sources including: the asset liquidation of insolvent insurance companies domiciled in Florida; the asset liquidation of insolvent insurers domiciled in other states that have claims in Florida; and levy of an assessment on Florida member property and casualty insurance companies.⁶

The FIGA may levy two types of assessments against the member insurance companies to pay the claims of an insolvent insurer that has insufficient assets. Under s. 631.57(3)(a), F.S., the

¹ The Bankruptcy Code expressly forbids a domestic insurance company from filing for or becoming the subject of a federal bankruptcy proceeding. 11 U.S.C. 109(b)(2). The exclusion of insurers from federal bankruptcy practices is consistent with federal policy, generally allowing states to regulate the business of insurance. See 15 U.S.C. 1011-1012 (McCarran-Ferguson Act).

² Insolvent insurers are generally liquidated, whereas insurers with unsound financial conditions or other characteristics are rehabilitated. The goal of liquidation is to dissolve the insurer. See s. 631.051, F.S., for the grounds for rehabilitation and s. 631.061, F.S., for grounds for liquidation.

³ The Florida Life and Health Insurance Guaranty Association and the Florida Insurance Guaranty Association are discussed in this document. The Florida Health Maintenance Organization Consumer Assistance Plan offers assistance to members of insolvent health maintenance organizations. The Florida Workers’ Compensation Insurance Guaranty Association protects policyholders of insolvent workers’ compensation insurers. The Florida Self-Insurers Guaranty Association protects policyholders of insolvent individual self-insured employers for workers’ compensation claims.

⁴ An “unearned premium” is the portion of a paid-in-advance premium that is owed back to the policyholder because he or she did not receive the benefit of the full term of the policy for which he or she paid.

⁵ Section 631.57(2)(a), F.S.

⁶ See FIGA, *Frequently Asked Questions*, available at <http://figafacts.com/faq> (last viewed on 3/28/2015).

FIGA is authorized to levy a regular assessment for up to 2 percent of an insurer's net written premium. The second assessment is an additional 2 percent emergency assessment authorized under s. 631.57(3)(e), F.S., levied only to pay the claims covered by an insurer rendered insolvent by the effects of a hurricane. The FIGA has not levied an emergency assessment since 2006, and last levied a regular assessment in November 2012.⁷

Insurers pay the assessments upfront and may recoup the assessment from policyholders upon policy issuance or renewal. The procedure used by the FIGA to levy both regular and emergency assessments on member insurance companies is provided in s. 631.57(3), F.S. The procedures are generally the same for regular and emergency assessments:

1. The FIGA determines an assessment is necessary to pay claims or administration costs, or to pay costs related to bonds issued by the FIGA.
2. The FIGA certifies the need for an assessment to the Office of Insurance Regulation (OIR).
3. The OIR reviews the certification, and if sufficient, issues an order to all the FIGA-member insurance companies to pay their FIGA assessment.
4. Insurance companies must pay regular assessments within 30 days of the levy. Insurers may pay emergency assessments either in one payment or spread over 12 months, at the FIGA's discretion.

For both assessments, an insurance company may recoup the assessment from its policyholders, beginning at the policy issuance or renewal and after the insurer pays the assessment in full.⁸ If an insurer recuperates more than it paid in its FIGA assessment, the excess must be remitted to: the FIGA to reduce future assessments, if the excess amount does not exceed 15 percent of the total assessment; or its policyholders, if the excess amount exceeds 15 percent of the total FIGA assessment.

Accounting for Assessments

Most insurers authorized to do business in the U.S. are required by state regulators to prepare financial statements in accordance with statutory accounting principles (SAP), which differs from generally acceptable accounting principles (GAAP). GAAP attempts to match revenues to expenses, and is therefore useful to investors and other users of financial reporting (such as banks, credit rating agencies, and the U.S. Securities & Exchange Commission). SAP evaluates liquidity and the ability to pay claims in the future in accordance with the concepts of consistency and conservatism. The OIR requires insurers to file annual SAP statements and independently audited financial reports.⁹

Under both GAAP and SAP, an insurer recognizes a liability when a FIGA assessment is imposed (which reduces the insurer's surplus and net worth). However, the accounting methods calculate the timing of the asset accrual (based on payment of the recoupment) differently:

- GAAP does not qualify the assessment recoverable from future premium writings as an asset. This reduces an insurance company's retained earnings and equity in the period of an

⁹ OIR, *2015 Agency Legislative Bill Analysis SB 600* (Feb. 5, 2015). See also s. 624.424, F.S.

assessment levy. However, the equity reduction is eliminated the following year as the assessments are recouped.

- SAP recognizes as an asset the assessment amount likely to be recovered from future premium surcharges. This offsets or eliminates the negative effect on statutory surplus, subject to certain conditions.¹⁰ However, SAP does not permit an asset to be recognized if the assessment is to be recovered from future rate structures, and limits asset reduction for accrued assessment liabilities to the extent that the amount to be recovered is from in-force premiums only.

For financial reporting associated with a FIGA assessment, the OIR requires that assessments levied before policy surcharges are collected result in a receivable, which must be recognized as an admissible asset¹¹ under SAP to the extent the receivable is likely to be realized.¹²

Florida Life and Health Insurance Guaranty Association (FLAHIGA)

Part III of ch. 631, F.S., governs the powers and duties of the FLAHIGA. All insurance companies¹³ authorized to write life and health insurance or annuities in Florida are required to be FLAHIGA members. In the event a member insurer is insolvent and ordered to be liquidated by a court, the FLAHIGA protects Florida residents who have life and health insurance policies and certain annuities with the insolvent insurer.

Generally, direct individual or direct group life and health insurance policies, as well as individual and allocated annuity contracts¹⁴ issued by the FLAHIGA's member insurers are covered.¹⁵ A policy must meet coverage requirements, and the FLAHIGA's payments are capped for any one person as follows:

- Life Insurance Death Benefit: \$300,000 per insured life.
- Life Insurance Cash Surrender: \$100,000 per insured life.
- Health Insurance Claims: \$300,000 per insured life.
- Annuity Cash Surrender: \$250,000 for deferred annuity contracts per contract owner.
- Annuity in Benefit: \$300,000 per contract owner.¹⁶

When a FLAHIGA-member insurer is found insolvent and ordered liquidated, a receiver takes over the insurer under court supervision and processes the assets and liabilities through liquidation. Upon liquidation, the FLAHIGA automatically becomes liable for the policy

<http://www.flor.com/siteDocuments/SupplementalMemo.pdf> (last viewed 3/28/2015). See also s. 625.012, F.S., for the "assets" defined for any determination of the financial condition of an insurer.

¹³ The insurance policies or entities listed in s. 631.713(3), F.S., are not covered under the FLAHIGA.

¹⁴ Allocated annuity contracts are directly issued to and owned by individuals or annuities that directly guarantee benefits to individuals by the insurer.

¹⁵ The FLAHIGA covers only policyholders and certificate holders that were Florida residents on the date that a member insurer is declared insolvent and liquidated, with some exceptions. s. 631.713(2)(b), F.S.

¹⁶ Section 631.717(9), F.S., and FLAHIGA, *Frequently Asked Questions*, available at <http://www.flahiga.org/faq.cfm> (last viewed 3/28/2015).

obligations the liquidated insurer owed to its Florida policyholders. The FLAHIGA services the policies, collects premiums and pays claims under the policies. The FLAHIGA's rights under the policies are those that applied to the insurer prior to liquidation. The FLAHIGA may cancel the policy if the insurer could have done so, but normally the FLAHIGA continues the policies until the association can transfer (or substitute) the policies to another insurer with approval by the OIR.

In 2011, legislation specified that the FLAHIGA's immunity from bad faith lawsuits did not affect the FLAHIGA's "obligation to pay valid insurance policy or contract claims if warranted after its independent de novo review of the policies, contracts, and claims presented to it, whether domestic or foreign, after a Florida domestic rehabilitation or a liquidation."¹⁷ The current law only specifies that the FLAHIGA's obligation applies after a domestic (in-state) rehabilitation or liquidation, but is silent as to the FLAHIGA's obligations after a *foreign* rehabilitation or liquidation.

III. Effect of Proposed Changes:

Florida Insurance Guaranty Association – Accounting for Assessments

The bill amends s. 625.012, F.S., to include in the definition of "asset" for the purpose of determining an insurer's financial condition, FIGA assessments that are levied and paid before policy surcharges are collected and result in a receivable from policyholders. The amount of the assessment is recognized as an admissible asset under SAP to the extent the receivable is likely to be realized. This codifies the current practice of the OIR, and eliminates the negative effect on statutory surplus of guaranty fund assessments. The bill further provides that an asset must be established and recorded separately from the liability and the insurer must reduce the amount recorded as an asset if it cannot fully recoup the assessment amount because of a reduction in writings or withdrawal from the market.

For emergency assessments paid after policy surcharges are collected pursuant to the monthly installment method, the recognition of assets is based on the actual premium written offset by the obligation to the FIGA.

The bill does not appear to address assessments that are recouped through future premium rate structures, and therefore those assessments are still be subject to SSAP 35R¹⁸ and likely are non-admitted assets.¹⁹

Florida Life and Health Insurance Guaranty Association

The bill transfers the 2011 exception from immunity from the FLAHIGA's powers and duties statute, s. 631.717, F.S., to s. 631.737, F.S., which pertains to FLAHIGA's duty to review claims involving covered policies. The bill clarifies that this duty is not limited solely to policies,

¹⁹ OIR, *2015 Agency Legislative Bill Analysis SB 600* (Feb. 5, 2015).

contracts, and claims following domestic rehabilitations and liquidations, but also includes foreign rehabilitations and liquidations.

The bill takes effect July 1, 2015.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill will clarify statutory accounting treatment for the recognition of FIGA assessments as admissible assets by codifying the OIR's interpretation.

The bill also clarifies FLAHIGA's obligations to pay claims after a *foreign* rehabilitation or liquidation.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 625.012, 631.717, and 631.737.

IX. Additional Information:

- A. **Committee Substitute – Statement of Changes:**
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Commerce and Tourism on March 16, 2015:

The CS provides technical changes, removing an unnecessary reenactment clause.

CS by Banking and Insurance on February 17, 2015:

The CS provides technical, clarifying changes.

- B. **Amendments:**

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.
