The supplement shall be the sum of a student allocation and an exempt property allocation. To participate, districts must be eligible for federal Impact Aid funding under Section 8003, Title VIII of the Elementary and Secondary Education Act of 1965.

The student allocation shall be based on the total number of students, including students with disabilities, reported for federal impact aid who: 1) reside with a parent on active duty in the uniformed services or who is an accredited foreign government official and military officer, 2) reside on eligible Indian lands, or 3) reside with a civilian parent who lives or works on eligible federal property connected with a military installation or NASA. The total number of federally-connected students and the total number of students with disabilities shall be multiplied by 3 percent and 10.5 percent of base student allocation, respectively. The exempt property allocation shall be equal to the tax-exempt value of federal impact aid lands reserved as military installations, real property owned by NASA, or eligible federally-owned Indian lands located in the district, multiplied by the millage authorized and levied under section 1011.71(2), Florida Statutes.

For the 2015-2016 fiscal year, this allocation shall be derived from the data reported by school districts for the federal Impact Aid Program, Section 8003, Title VIII of the Elementary and Secondary Education Act, for the 2015 federal fiscal year. From the funds in Specific Appropriations 7 and 90, school districts may execute an appropriate contract for full-time virtual instruction through K-8 virtual schools that received funds from Specific Appropriation 93 of chapter 2008-152, Laws of Florida. School districts may expend a negotiated amount per student for each student who was enrolled and served during the 2014-2015 fiscal year and who is re-enrolled and eligible to be served during the 2015-2016 fiscal year. Each of the K-8 virtual schools shall provide to the Department of Education the name and address of each student who was enrolled and served during the 2014-2015 fiscal year and who is re-enrolled and is

The Chancellor of the State University System shall withhold disbursement of the institutional investment until such time as the monitoring report for the university is approved by the board. Any university that fails to make satisfactory progress may not have its full institutional investment restored. If all funds are not restored, any remaining funds shall be redistributed in accordance with the board's performance funding model. The ability of a university to submit an improvement plan to the board is limited to one fiscal year.

By October 1, 2015, the Board of Governors shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report on the previous year's performance funding allocation which reflects the rankings and award distributions.

8,000,000

Funds provided in Specific Appropriations 146A shall be allocated to: 1) create and fund postsecondary education coordination activities and program options to increase the independence of individuals with disabilities through improved educational and employment opportunities, as referenced in 2013 reports of the Governor's Commission on Jobs for Floridians with Disabilities, created by Executive Order 11-161, and the Students with Disabilities Education Pathway Task Force, created by the Florida Legislature; 2) improve the coordination of information and availability of robust opportunities for individuals with disabilities to attain the academic, technical, and educational skills necessary to prepare them for success in the workforce and life; 3) assist in minimizing the disparity in educational and workforce opportunities through increased postsecondary academic opportunities and work experiences; 4) create a statewide coordination and program management center; and 5) establish criteria and funding incentives for Florida's postsecondary education institutions to establish and operate Florida Postsecondary Comprehensive Transition Programs (FPCTPs) to assist individuals with disabilities in attaining skills and experiences that will lead to sustainable job and life success.

From the funds in Specific Appropriation 146A, \$1,500,000 is provided to the Florida Center for Students with Unique Abilities (center) at the University of Central Florida to serve as the statewide coordinating center responsible for disseminating information about postsecondary education opportunities, programs, support, and services available statewide for individuals with disabilities; manage and facilitate the statewide implementation of FPCTPs and other programs and services; and provide technical assistance to expand best practices and partnerships that facilitate access to meaningful credentials and job opportunities. At a minimum, the center must: 1) disseminate information to students with disabilities and their parents regarding education programs, services, resources, and employment opportunities for such students; 2) consult with the National Center and the Coordinating Center, as identified in 20 U.S.C. s. 1140q, regarding federal requirements and standards, quality indicators, and benchmarks; 3) provide technical assistance regarding programs and services for students with intellectual disabilities to administrators, instructors, staff, and others at eligible institutions; 4) administer FPCTP start-up and enhancement grants, including creating an application to be used by eligible institutions to seek approval of an FPCTP from the center and receive FPCTP start-up and enhancement grants and approving grant applications; 5) administer and oversee implementation of FPCTP scholarship awards to eligible students enrolled in center-approved, grant-receiving FPCTP programs; and 6) provide, by December 31, 2015, and June 15, 2016, implementation status reports and recommendations to the Governor, President of the Senate, and Speaker of the House of Representatives regarding the improvement and statewide expansion of FPCTPs.

From the funds in Specific Appropriation 146A, \$3,000,000 is provided to the Florida Center for Students with Unique Abilities to be distributed as start-up and enhancement grants to FPCTPs at eligible institutions that meet specified requirements, as approved by the center. An eligible institution means a state university; a Florida College System institution; a career center; a charter technical career center; or an independent college or university that is located and

chartered in this state, is not for profit, is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools, and is eligible to participate in the William L. Boyd, IV, Florida Resident Access Grant Program. To receive an FPCTP start-up and enhancement grant, an eligible institution must submit to the center, by a date established by the center, an application for approval of a proposed program that must address the comprehensive transition and postsecondary program requirements under 20 U.S.C. s. 1140. Additionally, the eligible institution must attach to the application: 1) documented evidence of a federally approved comprehensive transition and postsecondary program that is determined to be an eligible program for the federal student aid programs and is currently offered at the institution, 2) documented evidence of the submission of an application for such federal approval of a comprehensive transition and postsecondary program proposed by the institution, or 3) documentation demonstrating the commitment of an institution's governing board to submit an application for federal approval of a program proposed by the institution pursuant to 20 U.S.C. s. 1140. By December 1, 2015, each eligible institution that offers an FPCTP approved by the center must report to the center the status of program implementation and student progress including, but not limited to, recruitment efforts, student enrollment and retention information, business partnerships, and student employment and job placement results. The maximum annual FPCTP start-up and enhancement grant award shall be \$300,000 per institution.

From the funds in Specific Appropriation 146A, \$3,500,000 is provided to the Florida Center for Students with Unique Abilities to be distributed as FPCTP scholarships for students who are enrolled in center-approved FPCTPs for which an FPCTP start-up and enhancement grant was awarded. The scholarships will be disbursed for award to each grant-receiving institution for eligible students who are enrolled in the center-approved FPCTP who are not receiving services that are funded through the Florida Education Finance Program or a scholarship under part III of chapter 1002 of the Florida Statutes. Each grant-receiving institution shall provide each eligible student enrolled in its center-approved FPCTP with a \$7,000 FPCTP scholarship, prorated by term, to cover the student's cost of tuition, program fees, instructional materials, and other cost of attendance. The scholarship amount may be prorated if appropriated funds are insufficient to provide the full award to all eligible students in center-approved programs. Each institution shall report to the center demographic and other data requested by the center for students who received the scholarships. By December 31, 2015 and June 15, 2016, for each respective term of the academic year, the center must report to the Governor, President of the Senate, Speaker of the House of Representatives, the Chancellor of the State University System, and the Commissioner of Education, an FPCTP scholarship status report including: 1) the number of students receiving scholarships at each institution, 2) demographic information on scholarship recipients, 3) the amount of scholarship funds disbursed at each institution, 4) student performance indicators, such as credits completed, 5) recommendations to improve and expand FPCTPs, and 6) other applicable information requested by the center.

county or other governmental funds. The agency is authorized to seek any federal waiver or state plan amendment necessary to implement this provision.

From the funds in Specific Appropriation 201, the Agency for Health Care Administration shall apply a six percent adjustment for anticipated case mix increases from improved documentation and coding through the implementation of Diagnosis Related Grouping (DRG). The agency shall also apply a one percent adjustment for real case mix change. By February 28, 2016, the agency shall perform a reconciliation and apply positive or negative adjustments to the reimbursements comparing actual to predicted case mix in aggregate. Actual case mix will be measured using admissions between April 1, 2014, and March 31, 2015, from both the fee-for-service and managed care programs. Actual case mix in state fiscal year 2015-2016 will be assumed to be higher than measured case mix by between zero and three percent based on case mix trending. Effective March 1, 2016, adjustments will be performed prospectively to the fee-for-service DRG payment parameters and will be applied for the remainder of the fiscal year. Adjustments applied must maintain budget neutrality for the fiscal year. No recalculation of managed care capitation payments will be made based upon these adjustments.

From the funds in Specific Appropriation 201, the Agency for Health Care Administration shall continue a Diagnosis Related Grouping reimbursement methodology for hospital inpatient services as directed in section 409.905~(5)(c), Florida Statutes.

10,000,000

From the funds in Specific Appropriation 377K, the recurring sum of \$10,000,000 from the General Revenue Fund is provided for a statewide initiative to fund centralized receiving facilities designed for individuals needing evaluation or stabilization under section 394.463 or section 397.675, Florida Statutes, or crisis services as defined in subsections 394.67(17)-(18), Florida Statutes. The Department of Children and Families shall create a matching grant program to provide funding for the costs of a centralized receiving facility. Each award must be matched at a one-to-one ratio of state and local funds. The funding may be used to support start-up or on-going operational costs. Centralized receiving facilities provide a single point of entry for multiple behavioral health providers, conduct initial assessments and triage, and provide case management and related services, including jail diversion programs for individuals with mental health or substance abuse disorders. The department shall work with local agencies to encourage and support the development of centralized receiving facilities. A local agency may apply for grant funds after the department has approved its operational and financial plan that specifies methods of coordination among providers and identifies proposed uses of the grant funds.

SPECIFIC APPROPRIATION

The moneys contained herein are appropriated from the named funds to the Department of Corrections, Justice Administration, Department of Juvenile Justice, Florida Department of Law Enforcement, Department of Legal Affairs/Attorney General, and the Florida Commission on Offender Review as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 583 through 771, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall continue to submit an annual report on the state prison system to the Governor and to the Legislature using a uniform format and uniform methodologies. The report shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2016.

From the funds in Specific Appropriations 583 through 771, the Department of Corrections shall prepare a report detailing the amount of overtime expended per facility; the number of positions in overlap, with justification for each overlapped position; and identifying the number of unfunded positions that may be eliminated. The report shall be submitted to the chair of the Senate Appropriations Committee and the chair of the House Appropriations Committee by January 1, 2016.

From the funds in Specific Appropriations 583 through 771, the Department of Corrections shall, before closing, substantially reducing the use of, or changing the purpose of any state correctional institution as defined in section 944.02, Florida Statutes, submit its proposal to the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee for review.

From the funds in Specific Appropriations 583 through 771 the Department of Corrections may work within its existing budget, including applicable grants, to implement any corrective action plan that is developed as the result of a Prison Rape Elimination Act audit conducted in accordance with Title 23, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the Legislative Budget Request process as defined in chapter 216, Florida Statutes.

Funds in Specific Appropriation 583 through 771 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2015, and for which it has been determined by the Secretary of the department that there is no longer a need.

PROGRAM: SECURITY AND INSTITUTIONAL OPERATIONS

From the funds in Specific Appropriations 621, 633 and 646, a total of \$1,074,362 is provided as payment in lieu of ad valorem taxation for distribution to local government taxing authorities. Funding is provided as follows: \$269,324 for the Bay Correctional Facility, \$339,242 for the Moore Haven Correctional Facility, \$275,560 for the South Bay Correctional Facility, \$100,000 for the Gadsden Correctional Facility, and \$90,236 for the Lake City Correctional Facility. These distributions shall be adjusted, with respect to any facility, to reimburse the Department of Corrections for the total amounts expended by the state in resisting the imposition of such ad valorem tax claims, including all attorneys' fees and costs actually incurred by the state's agencies.

Funds and positions in Specific Appropriations 583 through 720A and 733 through 771 support the state's inmate population. These funds and positions are sufficient to provide housing and security for 100,290 inmates when fully annualized. Funds and positions in Specific Appropriations 583 through 720A and 733 through 771 are provided to address security needs for the prison population expected in Fiscal Year 2015-2016, as projected by the Criminal Justice Estimating Conference.

From the funds in Specific Appropriation 681A and 729, the Department of Corrections shall conduct a review of the performance of electronic monitoring devices used to monitor work release inmates and offenders under community supervision. The review must concentrate on device performance under conditions and in locations that affect the ability of the device to acquire and maintain a GPS signal or to communicate with the electronic monitoring control facility. The review must also examine whether device performance or monitoring protocol requires an offender to move periodically in order to demonstrate that the device has not been altered or removed. The review must also compare costs, technical specifications, delay in providing location information, safeguards to prevent device removal and tampering, number of devices required to be maintained by the offender, and any other performance criteria the department determines to be essential to protecting public safety compared to alternative systems. The department shall prepare and submit a report of its findings to the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee by November 1, 2015.

JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1124 through 1208, each provider who contracts with the Department of Juvenile Justice shall provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents shall include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

From the funds in Specific Appropriations 1124 through 1208, the Department of Juvenile Justice shall establish a performance accountability system for each provider who contracts with the department for the delivery of services to children at-risk of future involvement in the criminal justice system, as determined by the department. The contract shall include both output measures, such as the number of children served, and outcome measures, such as program completion. The contractor shall report performance results annually to the department. The department's Office of Program Accountability shall summarize performance results from all contracts and report the information annually to the Legislature.

From the funds in Specific Appropriations 1124 through 1208, the Department of Juvenile Justice is directed to withhold funds from contract payments to any provider if that provider failed to comply with contract requirements that it maintain property insurance and if the failure to do so resulted in uninsured losses. The amount withheld shall not exceed the amount of the uninsured loss and may be reduced by other remedial actions agreed upon by the department and the provider.

From the funds in Specific Appropriations 1124 through 1208, the Department of Juvenile Justice must, before implementing any departmental reorganization plans, submit its proposal to the Governor's Office of Policy and Budget and to the Legislative Budget Commission for approval.

The funds in Specific Appropriations 1124 through 1208 shall not be used to pay for unoccupied space currently being leased by the Department of Juvenile Justice in the event the leases are vacant on or after July 1, 2015, and for which it has been determined by the Secretary of the department that there is no longer a need.

From the funds in Specific Appropriations 1124 through 1208, the department may work within its existing budget, including applicable grants, to implement any corrective action plan that is developed as the result of a Prison Rape Elimination Act audit conducted in accordance with Title 23, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the

Legislative Budget Request process as defined in chapter 216, Florida Statutes.

From the funds in Specific Appropriations 1124 through 1208, the Department of Juvenile Justice shall conduct a comprehensive statewide review of county-level data, including a gap analysis of services and programs available across all counties in the state, to evaluate the implementation of juvenile justice policies at the county level. As the result of such review, the department shall prepare a report that includes benchmarking of counties' performance on factors that demonstrate how a county is supporting the department's strategic goals of preventing and diverting more youth from entering the juvenile justice system; providing appropriate, less restrictive, community-based sanctions and services; reserving serious sanctions for youth who pose the greatest risk to public safety; and focusing on rehabilitation. The report shall also include recommendations and strategies that can be implemented by the department or counties to address any identified deficiencies and to assist in developing a statewide, coordinated response across all of Florida's communities to support the department's strategic goals. A copy of the report shall be submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2016.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1178 through 1194, the Department of Juvenile Justice shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth awaiting placement, and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriations 1178 through 1194, in selecting a private provider for operation of secure and non-secure residential programs, the Department of Juvenile Justice must consider the provider's history of performance of services in other jurisdictions as well as its performance of services in Florida. The department must also provide a report of serious incidents to the Governor, President of the Senate, and Speaker of the House of Representatives on no less than a quarterly basis. The report must include, at a minimum: the number of incidents and allegations of staff abuse or abuse by another child, including whether or not an allegation was substantiated; descriptions of incidents or allegations of such abuse that resulted in physical injury or significant psychological trauma, or that involved deprivation of food, water, or medical care; and the failure of a provider to report incidents or allegations within required timeframes established by the department. In addition, the department must conduct an independent review of each out-of-state provider before issuing a new contract. The report must be organized so that the incidents and allegations relating to a particular facility and to a particular provider can be readily ascertained. The department must also immediately report the death or serious bodily injury of a youth in a secure or non-secure residential program to the Governor, President of the Senate, and Speaker of the House of Representatives, and may make any additional reports that it determines to be appropriate based upon the seriousness of an incident or allegation.

PROGRAM: WORKFORCE SERVICES

WORKFORCE DEVELOPMENT

From the funds in Specific Appropriations 2193 through 2221, the Department of Economic Opportunity must determine if any funds provided for specific workforce programs, projects, or initiatives are not an allowable use of federal funds. If the department finds that any workforce program, project, or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the department must notify the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee.

When allocating full-time equivalent (FTE) positions to individual regional workforce boards, the Department of Economic Opportunity must ensure that workforce services are effectively and efficiently provided throughout the state. The department is authorized to reallocate any FTE position allocated to a regional workforce board that has been or becomes vacant for more than 180 days. When reallocating a vacant FTE position, the department must give priority to a regional workforce board that would use the FTE position to provide additional services to veterans.

105,000,000

From the funds in Specific Appropriation 2241, each local government must use a minimum of 20 percent of its allocation to serve persons with special needs as defined in section 420.0004, Florida Statutes. Before this portion of the allocation is released by the Florida Housing Finance Corporation (FHFC), a local government must certify that it will meet this requirement through existing approved strategies in the local assistance plan or submit a new local housing assistance plan strategy for this purpose to the FHFC for approval to ensure that it meets these specifications. The third party consulting firm shall also provide a detailed implementation plan that describes: (1) the process and criteria for migrating the cloud-ready applications to an external service provider cloud solution that complies with all applicable federal and state security and privacy requirements; (2) a recommended approach for migrating the cloud-ready applications' production environments to an external service provider cloud solution; and (3) a recommended approach and associated costs, to include any transition costs, for addressing the applications that are not currently cloud-ready. The Agency for State Technology must submit a preliminary report of the results of the application assessment and implementation plan to the President of the Senate, the Speaker of the House of Representatives, and the Executive Office of the Governor's Office of Policy and Budget by December 1, 2015, and a final report by January 15,

Based upon the final report of the application assessment, the Agency for State Technology may: (1) begin the migration of cloud-ready applications at the State Data Center to an external service provider cloud solution that complies with all applicable federal and state security and privacy requirements; and (2) continue providing computing services for applications that are not currently cloud-ready. The Agency for State Technology may put forth budget amendments pursuant to the provisions of chapter 216, Florida Statutes, to realign any part of the \$2,500,000 of recurring funds from the Working Capital Trust Fund between appropriation categories in the State Data Center budget entity.

Funds in Specific Appropriation 3078 shall be distributed to county supervisors of elections to be used for election administration activities such as voter education; pollworker training; standardizing elections results reporting; or other federal election administrative activities as approved by the Department of State.

County supervisors of elections will receive funds only after providing the Department of State a detailed description of the programs that will be implemented. Funds distributed to county supervisors of elections require a certification from the county that matching funds will be provided in an amount equal to fifteen percent of the amount to be received from the state.

Also, before a county supervisor of elections receives funds for any software or hardware technology, including, but not limited to any emerging technology that enhances or facilitates the delivery of absentee ballots, the casting and counting of valid votes, voting system audits or recount processes, and the certification of accurate and complete official election results, the software or technology must first be certified or approved, whichever is applicable by the Department of State. Additionally, before the Supervisor can receive funds for emerging or enhancing technology, the county supervisor of elections and the chairperson of the county governing body must certify that the county has purchased and made available sufficient equipment for casting and counting ballots to meet the needs of the county electors including reducing the wait time at the polls during the early voting period and on election day for the next regularly scheduled general election.

3086

3087

To be eligible, a county must segregate federal funds and required county matching dollars in a separate account established to hold only such funds. Funds in this account must be used only for the activities for which the funds were received. Funds shall remain in the account to be used for the same purposes for subsequent years or until such funds are expended. Supervisors of elections shall report to the Department of State any unspent funds remaining on June 30 of each fiscal year.
