The Conference Committee on HB 5401 offered the following:

**Conference Committee Amendment (with title amendment)**

Remove everything after the enacting clause and insert:

Section 1. Subsections (1) and (2) of section 487.041, Florida Statutes, are amended to read:

487.041 Registration.—

(1)(a) Effective January 1, 2009, each brand of pesticide, as defined in s. 487.021, which is distributed, sold, or offered for sale, except as provided in this section, within this state or delivered for transportation or transported in intrastate commerce or between points within this state through any point outside this state must be registered in the office of the
department, and such registration shall be renewed biennially. Emergency exemptions from registration may be authorized in accordance with the rules of the department. The registrant shall file with the department a statement including:

1. The name, business mailing address, and street address of the registrant.
2. The name of the brand of pesticide.
3. An ingredient statement and a complete current copy of the labeling accompanying the brand of pesticide, which must conform to the registration, and a statement of all claims to be made for it, including directions for use and a guaranteed analysis showing the names and percentages by weight of each active ingredient, the total percentage of inert ingredients, and the names and percentages by weight of each "added ingredient."

(b) Effective January 1, 2009, for the purpose of defraying expenses of the department in connection with carrying out the provisions of this part, each registrant shall pay a biennial registration fee for each registered brand of pesticide. The registration of each brand of pesticide shall cover a designated 2-year period beginning on January 1 of each odd-numbered year and expiring on December 31 of the following year.

(c) Each registration issued by the department to a registrant for a period beginning in an odd-numbered year shall
be assessed a fee of $700 per brand of pesticide and a fee of $200 for each special local need label and experimental use permit, and the registration shall expire on December 31 of the following year. Each registration issued by the department to a registrant for a period beginning in an even-numbered year shall be assessed a fee of $350 per brand of pesticide and fee of $100 for each special local need label and experimental use permit, and the registration shall expire on December 31 of that year.

(d)(1) Effective January 1, 2009, in addition to the fees assessed pursuant to paragraphs (b) and (c), for the purpose of defraying the expenses of the department for testing pesticides for food safety, each registrant shall pay a supplemental biennial registration fee for each registered brand of pesticide that contains an active ingredient for which the United States Environmental Protection Agency has established a food tolerance limit in 40 C.F.R. part 180. The department shall biennially publish by rule a list of the pesticide active ingredients for which a brand of pesticide is subject to the supplemental registration fee.

2. Each registration issued by the department to a registrant for a period beginning in an odd-numbered year shall be assessed a supplemental registration fee of $630 per brand of pesticide that is subject to the fee pursuant to subparagraph 1. Each registration issued by the department to a registrant for a period beginning in an even-numbered year shall be assessed a
supplemental registration fee of $315 per brand of pesticide that is subject to the fee pursuant to subparagraph 1. The department shall retroactively assess the supplemental registration fee for each brand of pesticide that registered on or after January 1, 2009, and that is subject to the fee pursuant to subparagraph 1.

(d)(e) All revenues collected, less those costs determined by the department to be nonrecurring or one-time costs, shall be deferred over the 2-year registration period, deposited in the General Inspection Trust Fund, and used by the department in carrying out the provisions of this chapter. Revenues collected from the supplemental registration fee may also be used by the department for testing pesticides for food safety.

(e)(f) If the renewal of a brand of pesticide, including the special local need label and experimental use permit, is not filed by January 31 of the renewal year, an additional fee of $25 per brand of pesticide shall be assessed per month and added to the original fee. This additional fee may not exceed $250 per brand of pesticide. The additional fee must be paid by the registrant before the renewal certificate for the registration of the brand of pesticide is issued. The additional fee shall be deposited into the General Inspection Trust Fund.

(f)(g) This subsection does not apply to distributors or retail dealers selling brands of pesticide if such brands of pesticide are registered by another person.
(g)(h) All registration fees, including supplemental fees and late fees, are nonrefundable.

(h)(i) For any currently registered pesticide product brand that undergoes labeling revisions during the registration period, the registrant shall submit to the department a copy of the revised labeling along with a cover letter detailing such revisions before the sale or distribution in this state of the product brand with the revised labeling. If the labeling revisions require notification of an amendment review by the United States Environmental Protection Agency, the registrant shall submit an additional copy of the labeling marked to identify those revisions.

(i)(j) Effective January 1, 2013, all payments of any pesticide registration fees, including supplemental fees and late fees, shall be submitted electronically using the department's Internet website for registration of pesticide product brands.

(2) The department shall adopt rules governing the procedures for the registration of a brand of pesticide and, for the review of data submitted by an applicant for registration of the brand of pesticide, and for biennially publishing the list of active ingredients for which a brand of pesticide is subject to the supplemental registration fee pursuant to subparagraph (1)(d). The department shall determine whether the brand of pesticide should be registered, registered with conditions, or
tested under field conditions in this state. The department shall determine whether each request for registration of a brand of pesticide meets the requirements of current state and federal law. The department, whenever it deems it necessary in the administration of this part, may require the manufacturer or registrant to submit the complete formula, quantities shipped into or manufactured in the state for distribution and sale, evidence of the efficacy and the safety of any pesticide, and other relevant data. The department may review and evaluate a registered pesticide if new information is made available that indicates that use of the pesticide has caused an unreasonable adverse effect on public health or the environment. Such review shall be conducted upon the request of the State Surgeon General in the event of an unreasonable adverse effect on public health or the Secretary of Environmental Protection in the event of an unreasonable adverse effect on the environment. Such review may result in modifications, revocation, cancellation, or suspension of the registration of a brand of pesticide. The department, for reasons of adulteration, misbranding, or other good cause, may refuse or revoke the registration of the brand of any pesticide after notice to the applicant or registrant giving the reason for the decision. The applicant may then request a hearing, pursuant to chapter 120, on the intention of the department to refuse or revoke registration, and, upon his or her failure to do so, the refusal or revocation shall become final without
further procedure. The registration of a brand of pesticide may not be construed as a defense for the commission of any offense prohibited under this part.

Section 2. This act shall take effect July 1, 2017.

--------------------------------------------

TITLE AMENDMENT

Remove everything before the enacting clause and insert:

A bill to be entitled

An act relating to pesticide registration; amending s. 487.041, F.S.; removing provisions relating to supplemental registration fees for certain pesticides that contain active ingredients for which the United States Environmental Protection Agency has established food tolerance limits; providing an effective date.
