Representative Boyd offered the following:

**Amendment to Amendment (872398) (with title amendment)**

Remove lines 5-732 of the amendment and insert:

Section 1. Section 456.0301, Florida Statutes, is created to read:

456.0301 Requirement for instruction on controlled substance prescribing.—

(1)(a) The appropriate board shall require each person registered with the United States Drug Enforcement Administration and authorized to prescribe controlled substances pursuant to 21 U.S.C. s. 822 to complete a board-approved 2-hour continuing education course on prescribing controlled substances.
offered by a statewide professional association of physicians in this state that is accredited to provide educational activities designated for the American Medical Association Physician's Recognition Award Category 1 Credit or the American Osteopathic Category 1-A continuing medical education credit as part of biennial license renewal. The course must include information on the current standards for prescribing controlled substances, particularly opiates; alternatives to these standards; nonpharmacological therapies; prescribing emergency opioid antagonists; and the risks of opioid addiction following all stages of treatment in the management of acute pain. The course may be offered in a distance learning format and must be included within the number of continuing education hours required by law. The department may not renew the license of any prescriber registered with the United States Drug Enforcement Administration to prescribe controlled substances who has failed to complete the course. The course must be completed by January 31, 2019, and at each subsequent renewal. This paragraph does not apply to a licensee who is required by his or her applicable practice act to complete a minimum of 2 hours of continuing education on the safe and effective prescribing of controlled substances.

(b) Each practitioner required to complete the course required in paragraph (a) shall submit confirmation of having
completed such course when applying for biennial license renewal.

(c) Each licensing board that requires a licensee to complete an educational course pursuant to this subsection must include the hours required for completion of the course in the total hours of continuing education required by law for such profession unless the continuing education requirements for such profession consist of fewer than 30 hours biennially.

(2) Each board may adopt rules to administer this section.

Section 2. Paragraph (gg) of subsection (1) of section 456.072, Florida Statutes, is amended to read:

456.072  Grounds for discipline; penalties; enforcement.—
(1) The following acts shall constitute grounds for which the disciplinary actions specified in subsection (2) may be taken:

(gg) Engaging in a pattern of practice when prescribing medicinal drugs or controlled substances which demonstrates a lack of reasonable skill or safety to patients, a violation of any provision of this chapter or ss. 893.055 and 893.0551, a violation of the applicable practice act, or a violation of any rules adopted under this chapter or the applicable practice act of the prescribing practitioner. Notwithstanding s. 456.073(13), the department may initiate an investigation and establish such a pattern from billing records, data, or any other information obtained by the department.
Section 3. Paragraphs (a) through (g) of subsection (1) of section 456.44, Florida Statutes, are redesignated as paragraphs (b) through (h), respectively, a new paragraph (a) is added to that subsection, subsection (3) of that section is amended, and subsections (4), (5), and (6) are added to that section, to read:

456.44 Controlled substance prescribing.—
(1) DEFINITIONS.—As used in this section, the term:
   (a) "Acute pain" means the normal, predicted, physiological, and time-limited response to an adverse chemical, thermal, or mechanical stimulus associated with surgery, trauma, or acute illness. The term does not include pain related to:
   2. A terminal condition. For purposes of this subparagraph, the term "terminal condition" means a progressive disease or medical or surgical condition that causes significant functional impairment, is not considered by a treating physician to be reversible without the administration of life-sustaining procedures, and will result in death within 1 year after diagnosis if the condition runs its normal course.
   3. Palliative care to provide relief of symptoms related to an incurable, progressive illness or injury.
   4. A traumatic injury with an Injury Severity Score of 9 or greater.
(3) STANDARDS OF PRACTICE FOR TREATMENT OF CHRONIC NONMALIGNANT PAIN.—The standards of practice in this section do not supersede the level of care, skill, and treatment recognized in general law related to health care licensure.

(a) A complete medical history and a physical examination must be conducted before beginning any treatment and must be documented in the medical record. The exact components of the physical examination shall be left to the judgment of the registrant who is expected to perform a physical examination proportionate to the diagnosis that justifies a treatment. The medical record must, at a minimum, document the nature and intensity of the pain, current and past treatments for pain, underlying or coexisting diseases or conditions, the effect of the pain on physical and psychological function, a review of previous medical records, previous diagnostic studies, and history of alcohol and substance abuse. The medical record shall also document the presence of one or more recognized medical indications for the use of a controlled substance. Each registrant must develop a written plan for assessing each patient's risk of aberrant drug-related behavior, which may include patient drug testing. Registrants must assess each patient's risk for aberrant drug-related behavior and monitor that risk on an ongoing basis in accordance with the plan.

(b) Each registrant must develop a written individualized treatment plan for each patient. The treatment plan shall state
objectives that will be used to determine treatment success, such as pain relief and improved physical and psychosocial function, and shall indicate if any further diagnostic evaluations or other treatments are planned. After treatment begins, the registrant shall adjust drug therapy to the individual medical needs of each patient. Other treatment modalities, including a rehabilitation program, shall be considered depending on the etiology of the pain and the extent to which the pain is associated with physical and psychosocial impairment. The interdisciplinary nature of the treatment plan shall be documented.

(c) The registrant shall discuss the risks and benefits of the use of controlled substances, including the risks of abuse and addiction, as well as physical dependence and its consequences, with the patient, persons designated by the patient, or the patient's surrogate or guardian if the patient is incompetent. The registrant shall use a written controlled substance agreement between the registrant and the patient outlining the patient's responsibilities, including, but not limited to:

1. Number and frequency of controlled substance prescriptions and refills.

2. Patient compliance and reasons for which drug therapy may be discontinued, such as a violation of the agreement.
3. An agreement that controlled substances for the treatment of chronic nonmalignant pain shall be prescribed by a single treating registrant unless otherwise authorized by the treating registrant and documented in the medical record.

(d) The patient shall be seen by the registrant at regular intervals, not to exceed 3 months, to assess the efficacy of treatment, ensure that controlled substance therapy remains indicated, evaluate the patient's progress toward treatment objectives, consider adverse drug effects, and review the etiology of the pain. Continuation or modification of therapy shall depend on the registrant's evaluation of the patient's progress. If treatment goals are not being achieved, despite medication adjustments, the registrant shall reevaluate the appropriateness of continued treatment. The registrant shall monitor patient compliance in medication usage, related treatment plans, controlled substance agreements, and indications of substance abuse or diversion at a minimum of 3-month intervals.

(e) The registrant shall refer the patient as necessary for additional evaluation and treatment in order to achieve treatment objectives. Special attention shall be given to those patients who are at risk for misusing their medications and those whose living arrangements pose a risk for medication misuse or diversion. The management of pain in patients with a history of substance abuse or with a comorbid psychiatric
disorder requires extra care, monitoring, and documentation and requires consultation with or referral to an addiction medicine specialist or a psychiatrist.

(f) A registrant must maintain accurate, current, and complete records that are accessible and readily available for review and comply with the requirements of this section, the applicable practice act, and applicable board rules. The medical records must include, but are not limited to:

1. The complete medical history and a physical examination, including history of drug abuse or dependence.
2. Diagnostic, therapeutic, and laboratory results.
3. Evaluations and consultations.
4. Treatment objectives.
5. Discussion of risks and benefits.
6. Treatments.
7. Medications, including date, type, dosage, and quantity prescribed.
8. Instructions and agreements.
9. Periodic reviews.
10. Results of any drug testing.
12. If a written prescription for a controlled substance is given to the patient, a duplicate of the prescription.
13. The registrant's full name presented in a legible manner.

(g) A registrant shall immediately refer patients with signs or symptoms of substance abuse to a board-certified pain management physician, an addiction medicine specialist, or a mental health addiction facility as it pertains to drug abuse or addiction unless the registrant is a physician who is board-certified or board-eligible in pain management. Throughout the period of time before receiving the consultant's report, a prescribing registrant shall clearly and completely document medical justification for continued treatment with controlled substances and those steps taken to ensure medically appropriate use of controlled substances by the patient. Upon receipt of the consultant's written report, the prescribing registrant shall incorporate the consultant's recommendations for continuing, modifying, or discontinuing controlled substance therapy. The resulting changes in treatment shall be specifically documented in the patient's medical record. Evidence or behavioral indications of diversion shall be followed by discontinuation of controlled substance therapy, and the patient shall be discharged, and all results of testing and actions taken by the registrant shall be documented in the patient's medical record.

This subsection does not apply to a board-eligible or board-certified anesthesiologist, psychiatrist, rheumatologist, or
neurologist, or to a board-certified physician who has surgical privileges at a hospital or ambulatory surgery center and primarily provides surgical services. This subsection does not apply to a board-eligible or board-certified medical specialist who has also completed a fellowship in pain medicine approved by the Accreditation Council for Graduate Medical Education or the American Osteopathic Association, or who is board eligible or board certified in pain medicine by the American Board of Pain Medicine, the American Board of Interventional Pain Physicians, the American Association of Physician Specialists, or a board approved by the American Board of Medical Specialties or the American Osteopathic Association and performs interventional pain procedures of the type routinely billed using surgical codes. This subsection does not apply to a registrant who prescribes medically necessary controlled substances for a patient during an inpatient stay in a hospital licensed under chapter 395.

(4) STANDARDS OF PRACTICE FOR TREATMENT OF ACUTE PAIN.—The applicable boards shall adopt rules establishing guidelines for prescribing controlled substances for acute pain, including evaluation of the patient, creation and maintenance of a treatment plan, obtaining informed consent and agreement for treatment, periodic review of the treatment plan, consultation, medical record review, and compliance with controlled substance laws and regulations. Failure of a prescriber to follow such
guidelines constitutes grounds for disciplinary action pursuant to s. 456.072(1)(gg), punishable as provided in s. 456.072(2).

(5) PRESCRIPTION SUPPLY.—

(a) For the treatment of acute pain, a prescription for an opioid drug listed as a Schedule II controlled substance in s. 893.03 or 21 U.S.C. s. 812 may not exceed a 3-day supply, except that up to a 7-day supply may be prescribed if:

1. The prescriber, in his or her professional judgment, believes that more than a 3-day supply of such an opioid is medically necessary to treat the patient's pain as an acute medical condition;

2. The prescriber indicates "ACUTE PAIN EXCEPTION" on the prescription; and

3. The prescriber adequately documents in the patient's medical records the acute medical condition and lack of alternative treatment options that justify deviation from the 3-day supply limit established in this subsection.

(b) For the treatment of pain other than acute pain, a prescriber must indicate "NONACUTE PAIN" on a prescription for an opioid drug listed as a Schedule II controlled substance in s. 893.03 or 21 U.S.C. s. 812.

(6) EMERGENCY OPIOID ANTAGONIST.—For the treatment of pain related to a traumatic injury with an Injury Severity Score of 9 or greater, a prescriber who prescribes a Schedule II controlled substance listed in s. 893.03 or 21 U.S.C. s. 812 must
concurrently prescribe an emergency opioid antagonist, as defined in s. 381.887(1).

Section 4. Effective January 1, 2019, present subsections (2) through (5) of section 458.3265, Florida Statutes, are renumbered as subsections (3) through (6), respectively, paragraphs (a) and (g) of subsection (1), paragraph (a) of present subsection (2), paragraph (a) of present subsection (3), and paragraph (a) of present subsection (4) of that section are amended, and a new subsection (2) is added to that section, to read:

458.3265 Pain-management clinics.—
(1) REGISTRATION.—
(a) 1. As used in this section, the term:
   a. "Board eligible" means successful completion of an anesthesia, physical medicine and rehabilitation, rheumatology, or neurology residency program approved by the Accreditation Council for Graduate Medical Education or the American Osteopathic Association for a period of 6 years from successful completion of such residency program.
   b. "Chronic nonmalignant pain" means pain unrelated to cancer which persists beyond the usual course of disease or the injury that is the cause of the pain or more than 90 days after surgery.
   c. "Pain-management clinic" or "clinic" means any publicly or privately owned facility:
(I) That advertises in any medium for any type of pain-management services; or

(II) Where in any month a majority of patients are prescribed opioids, benzodiazepines, barbiturates, or carisoprodol for the treatment of chronic nonmalignant pain.

2. Each pain-management clinic must register with the department or hold a valid certificate of exemption pursuant to subsection (2).

3. The following clinics are exempt from the registration requirement of paragraphs (c)-(m) and must apply to the department for a certificate of exemption unless:

   a. A clinic is licensed as a facility pursuant to chapter 395;

   b. A clinic in which the majority of the physicians who provide services in the clinic primarily provide surgical services;

   c. A clinic is owned by a publicly held corporation whose shares are traded on a national exchange or on the over-the-counter market and whose total assets at the end of the corporation's most recent fiscal quarter exceeded $50 million;

   d. A clinic is affiliated with an accredited medical school at which training is provided for medical students, residents, or fellows;

   e. A clinic that does not prescribe controlled substances for the treatment of pain;
f. A clinic is owned by a corporate entity exempt from federal taxation under 26 U.S.C. s. 501(c)(3);

g. A clinic is wholly owned and operated by one or more board-eligible or board-certified anesthesiologists, physiatrists, rheumatologists, or neurologists; or

h. A clinic is wholly owned and operated by a physician multispecialty practice where one or more board-eligible or board-certified medical specialists, who have also completed fellowships in pain medicine approved by the Accreditation Council for Graduate Medical Education or who are also board-certified in pain medicine by the American Board of Pain Medicine or a board approved by the American Board of Medical Specialties, the American Association of Physician Specialists, or the American Osteopathic Association, perform interventional pain procedures of the type routinely billed using surgical codes.

(g) The department may revoke the clinic's certificate of registration and prohibit all physicians associated with that pain-management clinic from practicing at that clinic location based upon an annual inspection and evaluation of the factors described in subsection (4)(3).

(2) CERTIFICATE OF EXEMPTION.—

(a) A pain management clinic claiming an exemption from the registration requirements of subsection (1) must apply for a
certificate of exemption on a form adopted in rule by the
department. The form must require the applicant to provide:

1. The name or names under which the applicant does
business.

2. The address at which the pain management clinic is
located.

3. The specific exemption the applicant is claiming with
supporting documentation.

4. Any other information deemed necessary by the
department.

(b) The department must approve or deny the certificate
within 30 days after the receipt of a complete application.

(c) The certificate of exemption must be renewed
biennially, except that the department may issue the initial
certificates of exemption for up to 3 years in order to stagger
renewal dates.

(d) A certificateholder must prominently display the
certificate of exemption and make it available to the department
or the board upon request.

(e) A new certificate of exemption is required for a
change of address and is not transferable. A certificate of
exemption is valid only for the applicant, qualifying owners,
licenses, registrations, certifications, and services provided
under a specific statutory exemption and is valid only to the
specific exemption claimed and granted.
(f) A certificateholder must notify the department at least 60 days before any anticipated relocation or name change of the pain management clinic or a change of ownership.

(g) If a pain management clinic no longer qualifies for a certificate of exemption, the certificateholder must notify the department within 3 days after becoming aware that the clinic no longer qualifies for a certificate of exemption and register as a pain management clinic under subsection (1) or cease operations.

(3)(2) PHYSICIAN RESPONSIBILITIES.—These responsibilities apply to any physician who provides professional services in a pain-management clinic that is required to be registered in subsection (1).

(a) A physician may not practice medicine in a pain-management clinic, as described in subsection (5)(4), if the pain-management clinic is not registered with the department as required by this section. Any physician who qualifies to practice medicine in a pain-management clinic pursuant to rules adopted by the Board of Medicine as of July 1, 2012, may continue to practice medicine in a pain-management clinic as long as the physician continues to meet the qualifications set forth in the board rules. A physician who violates this paragraph is subject to disciplinary action by his or her appropriate medical regulatory board.

(4)(3) INSPECTION.—
(a) The department shall inspect the pain-management clinic annually, including a review of the patient records, to ensure that it complies with this section and the rules of the Board of Medicine adopted pursuant to subsection (5) unless the clinic is accredited by a nationally recognized accrediting agency approved by the Board of Medicine.

(5) RULEMAKING.—

(a) The department shall adopt rules necessary to administer the registration, exemption, and inspection of pain-management clinics which establish the specific requirements, procedures, forms, and fees.

Section 5. Effective January 1, 2019, present subsections (2) through (5) of section 459.0137, Florida Statutes, are renumbered as subsections (3) through (6), respectively, paragraphs (a) and (g) of subsection (1), paragraph (a) of present subsection (2), paragraph (a) of present subsection (3), and paragraph (a) of present subsection (4) of that section are amended, and a new subsection (2) is added to that section, to read:

459.0137 Pain-management clinics.—

(1) REGISTRATION.—

(a)1. As used in this section, the term:

a. "Board eligible" means successful completion of an anesthesia, physical medicine and rehabilitation, rheumatology, or neurology residency program approved by the Accreditation
Council for Graduate Medical Education or the American Osteopathic Association for a period of 6 years from successful completion of such residency program.

b. "Chronic nonmalignant pain" means pain unrelated to cancer which persists beyond the usual course of disease or the injury that is the cause of the pain or more than 90 days after surgery.

c. "Pain-management clinic" or "clinic" means any publicly or privately owned facility:

   (I) That advertises in any medium for any type of pain-management services; or

   (II) Where in any month a majority of patients are prescribed opioids, benzodiazepines, barbiturates, or carisoprodol for the treatment of chronic nonmalignant pain.

2. Each pain-management clinic must register with the department or hold a valid certificate of exemption pursuant to subsection (2).

3. The following clinics are exempt from the registration requirement of paragraphs (c)-(m) and must apply to the department for a certificate of exemption unless:

   a. A clinic is licensed as a facility pursuant to chapter 395;

   b. A clinic in which the majority of the physicians who provide services in the clinic primarily provide surgical services;
c. The clinic is owned by a publicly held corporation whose shares are traded on a national exchange or on the over-the-counter market and whose total assets at the end of the corporation's most recent fiscal quarter exceeded $50 million;
d. The clinic is affiliated with an accredited medical school at which training is provided for medical students, residents, or fellows;
e. The clinic that does not prescribe controlled substances for the treatment of pain;
f. The clinic is owned by a corporate entity exempt from federal taxation under 26 U.S.C. s. 501(c)(3);
g. The clinic is wholly owned and operated by one or more board-eligible or board-certified anesthesiologists, physiatrists, rheumatologists, or neurologists; or
h. The clinic is wholly owned and operated by a physician multispecialty practice where one or more board-eligible or board-certified medical specialists, who have also completed fellowships in pain medicine approved by the Accreditation Council for Graduate Medical Education or the American Osteopathic Association or who are also board-certified in pain medicine by the American Board of Pain Medicine or a board approved by the American Board of Medical Specialties, the American Association of Physician Specialists, or the American Osteopathic Association, perform interventional pain procedures of the type routinely billed using surgical codes.
(g) The department may revoke the clinic's certificate of registration and prohibit all physicians associated with that pain-management clinic from practicing at that clinic location based upon an annual inspection and evaluation of the factors described in subsection (4)(3).

(2) CERTIFICATE OF EXEMPTION.—

(a) A pain management clinic claiming an exemption from the registration requirements of subsection (1) must apply for a certificate of exemption on a form adopted in rule by the department. The form must require the applicant to provide:

1. The name or names under which the applicant does business.
2. The address at which the pain management clinic is located.
3. The specific exemption the applicant is claiming with supporting documentation.
4. Any other information deemed necessary by the department.

(b) The department must approve or deny the certificate within 30 days after the receipt of a complete application.

(c) The certificate of exemption must be renewed biennially, except that the department may issue the initial certificates of exemption for up to 3 years in order to stagger renewal dates.
(d) A certificateholder must prominently display the certificate of exemption and make it available to the department or the board upon request.

(e) A new certificate of exemption is required for a change of address and is not transferable. A certificate of exemption is valid only for the applicant, qualifying owners, licenses, registrations, certifications, and services provided under a specific statutory exemption and is valid only to the specific exemption claimed and granted.

(f) A certificateholder must notify the department at least 60 days before any anticipated relocation or name change of the pain management clinic or a change of ownership.

(g) If a pain management clinic no longer qualifies for a certificate of exemption, the certificateholder must notify the department within 3 days after becoming aware that the clinic no longer qualifies for a certificate of exemption and register as a pain management clinic under subsection (1) or cease operations.

(3)(2) PHYSICIAN RESPONSIBILITIES.—These responsibilities apply to any osteopathic physician who provides professional services in a pain-management clinic that is required to be registered in subsection (1).

(a) An osteopathic physician may not practice medicine in a pain-management clinic, as described in subsection (5) (4), if the pain-management clinic is not registered with the department.
as required by this section. Any physician who qualifies to practice medicine in a pain-management clinic pursuant to rules adopted by the Board of Osteopathic Medicine as of July 1, 2012, may continue to practice medicine in a pain-management clinic as long as the physician continues to meet the qualifications set forth in the board rules. An osteopathic physician who violates this paragraph is subject to disciplinary action by his or her appropriate medical regulatory board.

(4) INSPECTION.—

(a) The department shall inspect the pain-management clinic annually, including a review of the patient records, to ensure that it complies with this section and the rules of the Board of Osteopathic Medicine adopted pursuant to subsection (5) unless the clinic is accredited by a nationally recognized accrediting agency approved by the Board of Osteopathic Medicine.

(5) RULEMAKING.—

(a) The department shall adopt rules necessary to administer the registration, exemption, and inspection of pain-management clinics which establish the specific requirements, procedures, forms, and fees.

Section 6. Section 465.0155, Florida Statutes, is amended to read:

465.0155 Standards of practice.—
(1) Consistent with the provisions of this act, the board shall adopt by rule standards of practice relating to the practice of pharmacy which shall be binding on every state agency and shall be applied by such agencies when enforcing or implementing any authority granted by any applicable statute, rule, or regulation, whether federal or state.

(2)(a) Before dispensing a controlled substance to a person not known to the pharmacist, the pharmacist must require the person purchasing, receiving, or otherwise acquiring the controlled substance to present valid photographic identification or other verification of his or her identity. If the person does not have proper identification, the pharmacist may verify the validity of the prescription and the identity of the patient with the prescriber or his or her authorized agent. Verification of health plan eligibility through a real-time inquiry or adjudication system is considered to be proper identification.

(b) This subsection does not apply in an institutional setting or to a long-term care facility, including, but not limited to, an assisted living facility or a hospital to which patients are admitted.

(c) As used in this subsection, the term "proper identification" means an identification that is issued by a state or the Federal Government containing the person's
photograph, printed name, and signature or a document considered acceptable under 8 C.F.R. s. 274a.2(b)(1)(v)(A) and (B).

Section 7. Paragraph (b) of subsection (1) of section 465.0276, Florida Statutes, is amended, and paragraph (d) is added to subsection (2) of that section, to read:

465.0276 Dispensing practitioner.—

(1)

(b) A practitioner registered under this section may not dispense a controlled substance listed in Schedule II or Schedule III as provided in s. 893.03. This paragraph does not apply to:

1. The dispensing of complimentary packages of medicinal drugs which are labeled as a drug sample or complimentary drug as defined in s. 499.028 to the practitioner's own patients in the regular course of her or his practice without the payment of a fee or remuneration of any kind, whether direct or indirect, as provided in subsection (4).

2. The dispensing of controlled substances in the health care system of the Department of Corrections.

3. The dispensing of a controlled substance listed in Schedule II or Schedule III in connection with the performance of a surgical procedure.

   a. For an opioid drug listed as a Schedule II controlled substance in s. 893.03 or 21 U.S.C. s. 812:
(I) For the treatment of acute pain, the amount dispensed pursuant to this subparagraph may not exceed a 3-day supply, or a 7-day supply if the criteria in s. 456.44(5)(a) are met.

(II) For the treatment of pain other than acute pain, a practitioner must indicate "NONACUTE PAIN" on a prescription.

(III) For the treatment of pain related to a traumatic injury with an Injury Severity Score of 9 or greater, a practitioner must concurrently prescribe an emergency opioid antagonist, as defined in s. 381.887(1).

b. For a controlled substance listed in Schedule III, the amount dispensed pursuant to this subparagraph may not exceed a 14-day supply.

c. The exception in this subparagraph does not allow for the dispensing of a controlled substance listed in Schedule II or Schedule III more than 14 days after the performance of the surgical procedure.

d. For purposes of this subparagraph, the term "surgical procedure" means any procedure in any setting which involves, or reasonably should involve:

(I) Perioperative medication and sedation that allows the patient to tolerate unpleasant procedures while maintaining adequate cardiorespiratory function and the ability to respond purposefully to verbal or tactile stimulation and makes intra- and postoperative monitoring necessary; or
(II) The use of general anesthesia or major conduction anesthesia and preoperative sedation.

4. The dispensing of a controlled substance listed in Schedule II or Schedule III pursuant to an approved clinical trial. For purposes of this subparagraph, the term "approved clinical trial" means a clinical research study or clinical investigation that, in whole or in part, is state or federally funded or is conducted under an investigational new drug application that is reviewed by the United States Food and Drug Administration.

5. The dispensing of methadone in a facility licensed under s. 397.427 where medication-assisted treatment for opiate addiction is provided.

6. The dispensing of a controlled substance listed in Schedule II or Schedule III to a patient of a facility licensed under part IV of chapter 400.

7. The dispensing of controlled substances listed in Schedule II or Schedule III which have been approved by the United States Food and Drug Administration for the purpose of treating opiate addictions, including, but not limited to, buprenorphine and buprenorphine combination products, by a practitioner authorized under 21 U.S.C. s. 823, as amended, to the practitioner's own patients for the medication-assisted treatment of opiate addiction.
(2) A practitioner who dispenses medicinal drugs for human consumption for fee or remuneration of any kind, whether direct or indirect, must:

(d)1. Before dispensing a controlled substance to a person not known to the dispenser, require the person purchasing, receiving, or otherwise acquiring the controlled substance to present valid photographic identification or other verification of his or her identity. If the person does not have proper identification, the dispenser may verify the validity of the prescription and the identity of the patient with the prescriber or his or her authorized agent. Verification of health plan eligibility through a real-time inquiry or adjudication system is considered to be proper identification.

2. This paragraph does not apply in an institutional setting or to a long-term care facility, including, but not limited to, an assisted living facility or a hospital to which patients are admitted.

3. As used in this paragraph, the term "proper identification" means an identification that is issued by a state or the Federal Government containing the person's photograph, printed name, and signature or a document considered acceptable under 8 C.F.R. s. 274a.2(b)(1)(v)(A) and (B).
TITLE AMENDMENT

Remove lines 3869-3935 of the amendment and insert:

An act relating to controlled substances; creating s. 456.0301, F.S.; requiring certain boards to require certain registered practitioners to complete a specified board-approved continuing education course to obtain authorization to prescribe controlled substances as part of biennial license renewal and before a specified date; providing course requirements; providing that the course may be offered in a distance learning format and requiring that it be included within required continuing education hours; prohibiting the Department of Health from renewing the license of a prescriber under specified circumstances; specifying a deadline for course completion; providing an exception from the course requirements for certain licensees; requiring such licensees to submit confirmation of course completion; authorizing certain boards to adopt rules; amending s. 456.072, F.S.; authorizing disciplinary action against practitioners for violating specified provisions relating to controlled substances; amending s. 456.44, F.S.; defining the term "acute pain"; requiring the applicable boards to adopt rules establishing certain guidelines for prescribing controlled substances for acute pain; providing that the failure of a prescriber to follow specified guidelines is grounds for disciplinary action;
limiting opioid drug prescriptions for the treatment of acute pain to a specified period under certain circumstances; authorizing such prescriptions for an extended period if specified requirements are met; requiring a prescriber who prescribes an opioid drug for the treatment of pain other than acute pain to include a specific indication on the prescription; requiring a prescriber who prescribes an opioid drug for the treatment of pain related to a traumatic injury with a specified Injury Severity Score to concurrently prescribe an emergency opioid antagonist; amending ss. 458.3265 and 459.0137, F.S.; requiring pain management clinics to register with the department or hold a valid certificate of exemption; requiring certain clinics to apply to the department for a certificate of exemption; providing requirements for such certificates; requiring the department to adopt rules necessary to administer such exemptions; amending s. 465.0155, F.S.; providing requirements for pharmacists for the dispensing of controlled substances to persons not known to them; defining the term "proper identification"; amending s. 465.0276, F.S.; prohibiting the dispensing of certain controlled substances in an amount that exceeds a 3-day supply unless certain criteria are met; providing an exception for the dispensing of certain controlled substances.
substances by a practitioner to the practitioner's own
patients for the medication-assisted treatment of opiate
dependency; providing requirements for practitioners for the
dispensing of controlled substances to persons not known to
them; defining the term "proper identification"; amending
s. 893.03, F.S.;
