227 Be It Enacted by the Legislature of the State of Florida:

228

229 Section 1. Section 193.461, Florida Statutes, is amended to
230 read:

231 193.461 Agricultural lands; classification and assessment;
232 mandated eradication or quarantine program; natural disasters.-

2018740er

233 (1) The property appraiser shall, on an annual basis,
234 classify for assessment purposes all lands within the county as
235 either agricultural or nonagricultural.

236 (2) Any landowner whose land is denied agricultural
237 classification by the property appraiser may appeal to the value
238 adjustment board. The property appraiser shall notify the
239 landowner in writing of the denial of agricultural
240 classification on or before July 1 of the year for which the
241 application was filed. The notification shall advise the
242 landowner of his or her right to appeal to the value adjustment
243 board and of the filing deadline. The property appraiser shall
244 have available at his or her office a list by ownership of all
245 applications received showing the acreage, the full valuation
246 under s. 193.011, the valuation of the land under the provisions
247 of this section, and whether or not the classification requested
248 was granted.

249 (3) (a) Lands may not be classified as agricultural lands
250 unless a return is filed on or before March 1 of each year.
251 Before classifying such lands as agricultural lands, the
252 property appraiser may require the taxpayer or the taxpayer's
253 representative to furnish the property appraiser such
254 information as may reasonably be required to establish that such
255 lands were actually used for a bona fide agricultural purpose.
256 Failure to make timely application by March 1 constitutes a
257 waiver for 1 year of the privilege granted in this section for
258 agricultural assessment. However, an applicant who is qualified
259 to receive an agricultural classification who fails to file an
260 application by March 1 must file an application for the
261 classification with the property appraiser on or before the 25th

2018740er

262 day after the mailing by the property appraiser of the notice
263 required under s. 194.011(1). Upon receipt of sufficient
264 evidence, as determined by the property appraiser, that
265 demonstrates that the applicant was unable to apply for the
266 classification in a timely manner or that otherwise demonstrates
267 extenuating circumstances that warrant the granting of the
268 classification, the property appraiser may grant the
269 classification. If the applicant files an application for the
270 classification and fails to provide sufficient evidence to the
271 property appraiser as required, the applicant may file, pursuant
272 to s. 194.011(3), a petition with the value adjustment board
273 requesting that the classification be granted. The petition may
274 be filed at any time during the taxable year on or before the
275 25th day following the mailing of the notice by the property
276 appraiser as provided in s. 194.011(1). Notwithstanding s.
277 194.013, the applicant must pay a nonrefundable fee of \$15 upon
278 filing the petition. Upon reviewing the petition, if the person
279 is qualified to receive the classification and demonstrates
280 particular extenuating circumstances judged by the value
281 adjustment board to warrant granting the classification, the
282 value adjustment board may grant the classification for the
283 current year. The owner of land that was classified agricultural
284 in the previous year and whose ownership or use has not changed
285 may reapply on a short form as provided by the department. The
286 lessee of property may make original application or reapply
287 using the short form if the lease, or an affidavit executed by
288 the owner, provides that the lessee is empowered to make
289 application for the agricultural classification on behalf of the
290 owner and a copy of the lease or affidavit accompanies the

2018740er

291 application. A county may, at the request of the property
292 appraiser and by a majority vote of its governing body, waive
293 the requirement that an annual application or statement be made
294 for classification of property within the county after an
295 initial application is made and the classification granted by
296 the property appraiser. Such waiver may be revoked by a majority
297 vote of the governing body of the county.

298 (b) Subject to the restrictions specified in this section,
299 only lands that are used primarily for bona fide agricultural
300 purposes shall be classified agricultural. The term "bona fide
301 agricultural purposes" means good faith commercial agricultural
302 use of the land.

303 1. In determining whether the use of the land for
304 agricultural purposes is bona fide, the following factors may be
305 taken into consideration:

306 a. The length of time the land has been so used.

307 b. Whether the use has been continuous.

308 c. The purchase price paid.

309 d. Size, as it relates to specific agricultural use, but a
310 minimum acreage may not be required for agricultural assessment.

311 e. Whether an indicated effort has been made to care
312 sufficiently and adequately for the land in accordance with
313 accepted commercial agricultural practices, including, without
314 limitation, fertilizing, liming, tilling, mowing, reforesting,
315 and other accepted agricultural practices.

316 f. Whether the land is under lease and, if so, the
317 effective length, terms, and conditions of the lease.

318 g. Such other factors as may become applicable.

319 2. Offering property for sale does not constitute a primary

2018740er

320 use of land and may not be the basis for denying an agricultural
321 classification if the land continues to be used primarily for
322 bona fide agricultural purposes while it is being offered for
323 sale.

324 (c) The maintenance of a dwelling on part of the lands used
325 for agricultural purposes does ~~shall~~ not in itself preclude an
326 agricultural classification.

327 (d) When property receiving an agricultural classification
328 contains a residence under the same ownership, the portion of
329 the property consisting of the residence and curtilage must be
330 assessed separately, pursuant to s. 193.011, to qualify for the
331 assessment limitation set forth in s. 193.155. The remaining
332 property may be classified under the provisions of paragraphs
333 (a) and (b).

334 (e) Notwithstanding the provisions of paragraph (a), land
335 that has received an agricultural classification from the value
336 adjustment board or a court of competent jurisdiction pursuant
337 to this section is entitled to receive such classification in
338 any subsequent year until such agricultural use of the land is
339 abandoned or discontinued, the land is diverted to a
340 nonagricultural use, or the land is reclassified as
341 nonagricultural pursuant to subsection (4). The property
342 appraiser must, no later than January 31 of each year, provide
343 notice to the owner of land that was classified agricultural in
344 the previous year informing the owner of the requirements of
345 this paragraph and requiring the owner to certify that neither
346 the ownership nor the use of the land has changed. The
347 department shall, by administrative rule, prescribe the form of
348 the notice to be used by the property appraiser under this

2018740er

349 paragraph. If a county has waived the requirement that an annual
350 application or statement be made for classification of property
351 pursuant to paragraph (a), the county may, by a majority vote of
352 its governing body, waive the notice and certification
353 requirements of this paragraph and shall provide the property
354 owner with the same notification provided to owners of land
355 granted an agricultural classification by the property
356 appraiser. Such waiver may be revoked by a majority vote of the
357 county's governing body. This paragraph does not apply to any
358 property if the agricultural classification of that property is
359 the subject of current litigation.

360 (4) The property appraiser shall reclassify the following
361 lands as nonagricultural:

362 (a) Land diverted from an agricultural to a nonagricultural
363 use.

364 (b) Land no longer being utilized for agricultural
365 purposes.

366 (5) For the purpose of this section, the term "agricultural
367 purposes" includes, but is not limited to, horticulture;
368 floriculture; viticulture; forestry; dairy; livestock; poultry;
369 bee; pisciculture, if the land is used principally for the
370 production of tropical fish; aquaculture, including algaculture;
371 sod farming; and all forms of farm products as defined in s.
372 823.14(3) and farm production.

373 (6) (a) In years in which proper application for
374 agricultural assessment has been made and granted pursuant to
375 this section, the assessment of land shall be based solely on
376 its agricultural use. The property appraiser shall consider the
377 following use factors only:

2018740er

- 378 1. The quantity and size of the property;
379 2. The condition of the property;
380 3. The present market value of the property as agricultural
381 land;
382 4. The income produced by the property;
383 5. The productivity of land in its present use;
384 6. The economic merchantability of the agricultural
385 product; and
386 7. Such other agricultural factors as may from time to time
387 become applicable, which are reflective of the standard present
388 practices of agricultural use and production.

389 (b) Notwithstanding any provision relating to annual
390 assessment found in s. 192.042, the property appraiser shall
391 rely on 5-year moving average data when utilizing the income
392 methodology approach in an assessment of property used for
393 agricultural purposes.

394 (c)1. For purposes of the income methodology approach to
395 assessment of property used for agricultural purposes,
396 irrigation systems, including pumps and motors, physically
397 attached to the land shall be considered a part of the average
398 yields per acre and shall have no separately assessable
399 contributory value.

400 2. Litter containment structures located on producing
401 poultry farms and animal waste nutrient containment structures
402 located on producing dairy farms shall be assessed by the
403 methodology described in subparagraph 1.

404 3. Structures or improvements used in horticultural
405 production for frost or freeze protection, which are consistent
406 with the interim measures or best management practices adopted

2018740er

407 by the Department of Agriculture and Consumer Services pursuant
408 to s. 570.93 or s. 403.067(7)(c), shall be assessed by the
409 methodology described in subparagraph 1.

410 4. Screened enclosed structures used in horticultural
411 production for protection from pests and diseases or to comply
412 with state or federal eradication or compliance agreements shall
413 be assessed by the methodology described in subparagraph 1.

414 (d) In years in which proper application for agricultural
415 assessment has not been made, the land shall be assessed under
416 the provisions of s. 193.011.

417 (7)(a) Lands classified for assessment purposes as
418 agricultural lands which are taken out of production by a state
419 or federal eradication or quarantine program, including the
420 Citrus Health Response Program, shall continue to be classified
421 as agricultural lands for 5 years after the date of execution of
422 a compliance agreement between the landowner and the Department
423 of Agriculture and Consumer Services or a federal agency, as
424 applicable, pursuant to such program or successor programs.
425 Lands under these programs which are converted to fallow or
426 otherwise nonincome-producing uses shall continue to be
427 classified as agricultural lands and shall be assessed at a de
428 minimis value of up to \$50 per acre on a single-year assessment
429 methodology while fallow or otherwise used for nonincome-
430 producing purposes. Lands under these programs which are
431 replanted in citrus pursuant to the requirements of the
432 compliance agreement shall continue to be classified as
433 agricultural lands and shall be assessed at a de minimis value
434 of up to \$50 per acre, on a single-year assessment methodology,
435 during the 5-year term of agreement. However, lands converted to

2018740er

436 other income-producing agricultural uses permissible under such
437 programs shall be assessed pursuant to this section. Land under
438 a mandated eradication or quarantine program which is diverted
439 from an agricultural to a nonagricultural use shall be assessed
440 under s. 193.011.

441 (b) Lands classified for assessment purposes as
442 agricultural lands that participate in a dispersed water storage
443 program pursuant to a contract with the Department of
444 Environmental Protection or a water management district which
445 requires flooding of land shall continue to be classified as
446 agricultural lands for the duration of the inclusion of the
447 lands in such program or successor programs and shall be
448 assessed as nonproductive agricultural lands. Land that
449 participates in a dispersed water storage program that is
450 diverted from an agricultural to a nonagricultural use shall be
451 assessed under s. 193.011.

452 (c) Lands classified for assessment purposes as
453 agricultural lands which are not being used for agricultural
454 production as a result of a natural disaster for which a state
455 of emergency is declared pursuant to s. 252.36, when such
456 disaster results in the halting of agricultural production, must
457 continue to be classified as agricultural lands for 5 years
458 after termination of the emergency declaration. However, if such
459 lands are diverted from agricultural use to nonagricultural use
460 during or after the 5-year recovery period, such lands must be
461 assessed under s. 193.011. This paragraph applies retroactively
462 to natural disasters that occurred on or after July 1, 2017.

463 Section 2. Section 252.3569, Florida Statutes, is created

640 problems, or making complaints.

641 Section 9. Paragraph (g) of subsection (1) of section
642 501.059, Florida Statutes, is amended, and paragraph (i) is
643 added to that subsection, and subsection (5), paragraph (c) of
644 subsection (8), and subsection (9) of that section are amended,
645 to read:

646 501.059 Telephone solicitation.—

647 (1) As used in this section, the term:

648 (g) "Telephonic sales call" means a telephone call, ~~or~~ text
649 message, or voicemail transmission to a consumer for the purpose
650 of soliciting a sale of any consumer goods or services,
651 soliciting an extension of credit for consumer goods or
652 services, or obtaining information that will or may be used for
653 the direct solicitation of a sale of consumer goods or services
654 or an extension of credit for such purposes.

655 (i) "Voicemail transmission" means technologies that
656 deliver a voice message directly to a voicemail application,
657 service, or device.

658 (5) A telephone solicitor or other person may not initiate
659 an outbound telephone call, ~~or~~ text message, or voicemail
660 transmission to a consumer, business, or donor or potential
661 donor who has previously communicated to the telephone solicitor
662 or other person that he or she does not wish to receive an
663 outbound telephone call, ~~or~~ text message, or voicemail
664 transmission:

665 (a) Made by or on behalf of the seller whose goods or
666 services are being offered; or

672 made to fail to transmit or cause not to be transmitted the
673 originating telephone number and, when made available by the
674 telephone solicitor's carrier, the name of the telephone
675 solicitor to any caller identification service in use by a
676 recipient of a telephonic sales call. However, it shall not be a
677 violation to substitute, for the name and telephone number used
678 in or billed for making the call, the name of the seller on
679 behalf of which a telephonic sales call is placed and the
680 seller's customer service telephone number, which is answered
681 during regular business hours. If a telephone number is made
682 available through a caller identification service as a result of
683 a telephonic sales call, the solicitor must ensure that
684 telephone number is capable of receiving telephone calls and
685 must connect the original call recipient, upon calling such
686 number, to the telephone solicitor or to the seller on behalf of
687 which a telephonic sales call was placed. For purposes of this
688 section, the term "caller identification service" means a
689 service that allows a telephone subscriber to have the telephone
690 number and, where available, the name of the calling party
691 transmitted contemporaneously with the telephone call and
692 displayed on a device in or connected to the subscriber's
693 telephone.

694 (9) (a) The department shall investigate any complaints
695 received concerning violations of this section. If, after
696 investigating a complaint, the department finds that there has

2018740er

697 been a violation of this section, the department or the
698 Department of Legal Affairs may bring an action to impose a
699 civil penalty and to seek other relief, including injunctive
700 relief, as the court deems appropriate against the telephone
701 solicitor. The civil penalty shall be in the Class IV ~~III~~
702 category pursuant to s. 570.971 for each violation and shall be
703 deposited in the General Inspection Trust Fund if the action or
704 proceeding was brought by the department, or the Legal Affairs
705 Revolving Trust Fund if the action or proceeding was brought by
706 the Department of Legal Affairs. This civil penalty may be
707 recovered in any action brought under this part by the
708 department, or the department may terminate any investigation or
709 action upon agreement by the person to pay a stipulated civil
710 penalty. The department or the court may waive any civil penalty
711 if the person has previously made full restitution or
712 reimbursement or has paid actual damages to the consumers who
713 have been injured by the violation.

714 (b) The department may, as an alternative to the civil
715 penalties provided in paragraph (a), impose an administrative
716 fine in the Class III ~~II~~ category pursuant to s. 570.971 for each
717 act or omission that constitutes a violation of this section. An
718 administrative proceeding that could result in the entry of an
719 order imposing an administrative penalty must be conducted
720 pursuant to chapter 120.

721 Section 10. Section 501.6175, Florida Statutes, is created
722 to read:

739 including a written request transmitted by electronic mail, a
740 commercial telephone seller must make the records it keeps
741 pursuant to this section available for inspection and copying by
742 the department during the department's normal business hours.
743 This section does not limit the department's ability to inspect

3134 and all buildings or residences. Contractors are subdivided into
3135 two divisions, Division I, consisting of those contractors
3136 defined in paragraphs (a)-(c), and Division II, consisting of
3137 those contractors defined in paragraphs (d)-(q):

3138 (m) "Plumbing contractor" means a contractor whose services

3169 qualified contractor in the field concerned, all other work
3170 incidental to the work but which is specified as being the work
3171 of a trade other than that of a plumbing contractor. This
3172 definition does not limit the scope of work of any specialty
3173 contractor certified pursuant to s. 489.113(6) and does not
3174 require certification or registration under this part as a
3175 category I liquefied petroleum gas dealer, or category V LP gas
3176 installer, as defined in s. 527.01, ~~or specialty installer~~ who
3177 is licensed under chapter 527 or an authorized employee of a
