The Committee on Health Policy (Benacquisto) recommended the following:

**Senate Amendment (with title amendment)**

Delete everything after the enacting clause and insert:

Section 1. Paragraph (c) of subsection (2) of section 409.967, Florida Statutes, is amended to read:

409.967 Managed care plan accountability.—

(2) The agency shall establish such contract requirements as are necessary for the operation of the statewide managed care program. In addition to any other provisions the agency may deem
necessary, the contract must require:

(c) Access.—

1. The agency shall establish specific standards for the number, type, and regional distribution of providers in managed care plan networks to ensure access to care for both adults and children. Each plan must maintain a regionwide network of providers in sufficient numbers to meet the access standards for specific medical services for all recipients enrolled in the plan. The exclusive use of mail-order pharmacies may not be sufficient to meet network access standards. Consistent with the standards established by the agency, provider networks may include providers located outside the region. A plan may contract with a new hospital facility before the date the hospital becomes operational if the hospital has commenced construction, will be licensed and operational by January 1, 2013, and a final order has issued in any civil or administrative challenge. Each plan shall establish and maintain an accurate and complete electronic database of contracted providers, including information about licensure or registration, locations and hours of operation, specialty credentials and other certifications, specific performance indicators, and such other information as the agency deems necessary. The database must be available online to both the agency and the public and have the capability to compare the availability of providers to network adequacy standards and to accept and display feedback from each provider’s patients. Each plan shall submit quarterly reports to the agency identifying the number of enrollees assigned to each primary care provider.

2. Each managed care plan must publish any prescribed drug
formulary or preferred drug list on the plan’s website in a
manner that is accessible to and searchable by enrollees and
providers. The plan must update the list within 24 hours after
making a change. Each plan must ensure that the prior
authorization process for prescribed drugs is readily accessible
to health care providers, including posting appropriate contact
information on its website and providing timely responses to
providers. For Medicaid recipients diagnosed with hemophilia who
have been prescribed anti-hemophilic-factor replacement
products, the agency shall provide for those products and
hemophilia overlay services through the agency’s hemophilia
disease management program.

3. Managed care plans, and their fiscal agents or
intermediaries, must accept prior authorization requests for any
service electronically.

4. Managed care plans, and their fiscal agents and
intermediaries, may not implement, manage, or require a prior
authorization process or step therapy procedures and may not
impose any other conditions on recipients as a prerequisite to
receiving medication-assisted treatment (MAT) services, as
defined in s. 397.311, to treat substance abuse disorders.

5. Managed care plans serving children in the care and
custody of the Department of Children and Families must maintain
complete medical, dental, and behavioral health encounter
information and participate in making such information available
to the department or the applicable contracted community-based
care lead agency for use in providing comprehensive and
coordinated case management. The agency and the department shall
establish an interagency agreement to provide guidance for the
format, confidentiality, recipient, scope, and method of
information to be made available and the deadlines for
submission of the data. The scope of information available to
the department shall be the data that managed care plans are
required to submit to the agency. The agency shall determine the
plan’s compliance with standards for access to medical, dental,
and behavioral health services; the use of medications; and
followup on all medically necessary services recommended as a
result of early and periodic screening, diagnosis, and
treatment.

Section 2. Section 456.0301, Florida Statutes, is created
to read:

456.0301 Requirement for instruction on controlled
substance prescribing.-

(1)(a) If not already required by the licensee’s practice
act, the appropriate board shall require each person registered
with the United States Drug Enforcement Administration and
authorized to prescribe controlled substances pursuant to 21
U.S.C. s. 822 to complete a board-approved 2-hour continuing
education course on prescribing controlled substances as part of
biennial license renewal. The course must include information on
the current standards for prescribing controlled substances,
particularly opiates; alternatives to these standards; and
information on the risks of opioid addiction following all
stages of treatment in the management of acute pain. The course
may be offered in a distance learning format and must be
included within the number of continuing education hours
required by law. The department may not renew the license of any
prescriber registered with the United States Drug Enforcement

Administration to prescribe controlled substances who has failed to complete the course. When required by this paragraph, the course must be completed by January 31, 2019, and at each subsequent renewal.

(b) Each such licensee shall submit confirmation of having completed such course when applying for biennial license renewal.

(2) Each board may adopt rules to administer this section.

Section 3. Paragraph (gg) of subsection (1) of section 456.072, Florida Statutes, is amended to read:

456.072 Grounds for discipline; penalties; enforcement.—

(1) The following acts shall constitute grounds for which the disciplinary actions specified in subsection (2) may be taken:

(gg) Engaging in a pattern of practice when prescribing medicinal drugs or controlled substances which demonstrates a lack of reasonable skill or safety to patients, a violation of any provision of this chapter or ss. 893.055 and 893.0551, a violation of the applicable practice act, or a violation of any rules adopted under this chapter or the applicable practice act of the prescribing practitioner. Notwithstanding s. 456.073(13), the department may initiate an investigation and establish such a pattern from billing records, data, or any other information obtained by the department.

Section 4. Paragraphs (a) through (g) of subsection (1) of section 456.44, Florida Statutes, are redesignated as paragraphs (b) through (h), respectively, a new paragraph (a) is added to that subsection, subsection (3) is amended, and subsections (4) and (5) are added to that section, to read:
456.44 Controlled substance prescribing.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Acute pain" means the normal, predicted, physiological, and time-limited response to an adverse chemical, thermal, or mechanical stimulus associated with surgery, trauma, or acute illness.

(3) STANDARDS OF PRACTICE FOR TREATMENT OF CHRONIC NONMALIGNANT PAIN.—The standards of practice in this section do not supersede the level of care, skill, and treatment recognized in general law related to health care licensure.

(a) A complete medical history and a physical examination must be conducted before beginning any treatment and must be documented in the medical record. The exact components of the physical examination shall be left to the judgment of the registrant who is expected to perform a physical examination proportionate to the diagnosis that justifies a treatment. The medical record must, at a minimum, document the nature and intensity of the pain, current and past treatments for pain, underlying or coexisting diseases or conditions, the effect of the pain on physical and psychological function, a review of previous medical records, previous diagnostic studies, and history of alcohol and substance abuse. The medical record shall also document the presence of one or more recognized medical indications for the use of a controlled substance. Each registrant must develop a written plan for assessing each patient’s risk of aberrant drug-related behavior, which may include patient drug testing. Registrants must assess each patient’s risk for aberrant drug-related behavior and monitor that risk on an ongoing basis in accordance with the plan.
(b) Each registrant must develop a written individualized treatment plan for each patient. The treatment plan shall state objectives that will be used to determine treatment success, such as pain relief and improved physical and psychosocial function, and shall indicate if any further diagnostic evaluations or other treatments are planned. After treatment begins, the registrant shall adjust drug therapy to the individual medical needs of each patient. Other treatment modalities, including a rehabilitation program, shall be considered depending on the etiology of the pain and the extent to which the pain is associated with physical and psychosocial impairment. The interdisciplinary nature of the treatment plan shall be documented.

(c) The registrant shall discuss the risks and benefits of the use of controlled substances, including the risks of abuse and addiction, as well as physical dependence and its consequences, with the patient, persons designated by the patient, or the patient’s surrogate or guardian if the patient is incompetent. The registrant shall use a written controlled substance agreement between the registrant and the patient outlining the patient’s responsibilities, including, but not limited to:

1. Number and frequency of controlled substance prescriptions and refills.

2. Patient compliance and reasons for which drug therapy may be discontinued, such as a violation of the agreement.

3. An agreement that controlled substances for the treatment of chronic nonmalignant pain shall be prescribed by a single treating registrant unless otherwise authorized by the
treated registrant and documented in the medical record.

(d) The patient shall be seen by the registrant at regular intervals, not to exceed 3 months, to assess the efficacy of treatment, ensure that controlled substance therapy remains indicated, evaluate the patient’s progress toward treatment objectives, consider adverse drug effects, and review the etiology of the pain. Continuation or modification of therapy shall depend on the registrant’s evaluation of the patient’s progress. If treatment goals are not being achieved, despite medication adjustments, the registrant shall reevaluate the appropriateness of continued treatment. The registrant shall monitor patient compliance in medication usage, related treatment plans, controlled substance agreements, and indications of substance abuse or diversion at a minimum of 3-month intervals.

(e) The registrant shall refer the patient as necessary for additional evaluation and treatment in order to achieve treatment objectives. Special attention shall be given to those patients who are at risk for misusing their medications and those whose living arrangements pose a risk for medication misuse or diversion. The management of pain in patients with a history of substance abuse or with a comorbid psychiatric disorder requires extra care, monitoring, and documentation and requires consultation with or referral to an addiction medicine specialist or a psychiatrist.

(f) A registrant must maintain accurate, current, and complete records that are accessible and readily available for review and comply with the requirements of this section, the applicable practice act, and applicable board rules. The medical
records must include, but are not limited to:

1. The complete medical history and a physical examination, including history of drug abuse or dependence.
2. Diagnostic, therapeutic, and laboratory results.
3. Evaluations and consultations.
4. Treatment objectives.
5. Discussion of risks and benefits.
6. Treatments.
7. Medications, including date, type, dosage, and quantity prescribed.
8. Instructions and agreements.
9. Periodic reviews.
10. Results of any drug testing.
12. If a written prescription for a controlled substance is given to the patient, a duplicate of the prescription.
13. The registrant’s full name presented in a legible manner.

(g) A registrant shall immediately refer patients with signs or symptoms of substance abuse to a board-certified pain management physician, an addiction medicine specialist, or a mental health addiction facility as it pertains to drug abuse or addiction unless the registrant is a physician who is board-certified or board-eligible in pain management. Throughout the period of time before receiving the consultant’s report, a prescribing registrant shall clearly and completely document medical justification for continued treatment with controlled substances and those steps taken to ensure medically appropriate
use of controlled substances by the patient. Upon receipt of the
consultant’s written report, the prescribing registrant shall
incorporate the consultant’s recommendations for continuing,
modifying, or discontinuing controlled substance therapy. The
resulting changes in treatment shall be specifically documented
in the patient’s medical record. Evidence or behavioral
indications of diversion shall be followed by discontinuation of
controlled substance therapy, and the patient shall be
discharged, and all results of testing and actions taken by the
registrant shall be documented in the patient’s medical record.

This subsection does not apply to a board-eligible or board-
certified anesthesiologist, physiatrist, rheumatologist, or
neurologist, or to a board-certified physician who has surgical
privileges at a hospital or ambulatory surgery center and
primarily provides surgical services. This subsection does not
apply to a board-eligible or board-certified medical specialist
who has also completed a fellowship in pain medicine approved by
the Accreditation Council for Graduate Medical Education or the
American Osteopathic Association, or who is board eligible or
board certified in pain medicine by the American Board of Pain
Medicine, the American Board of Interventional Pain Physicians,
the American Association of Physician Specialists, or a board
approved by the American Board of Medical Specialties or the
American Osteopathic Association and performs interventional
pain procedures of the type routinely billed using surgical
codes. This subsection does not apply to a registrant who
prescribes medically necessary controlled substances for a
patient during an inpatient stay in a hospital licensed under
(4) STANDARDS OF PRACTICE FOR TREATMENT OF ACUTE PAIN.—The applicable boards shall adopt rules establishing guidelines for prescribing controlled substances for acute pain, including evaluation of the patient, creation and maintenance of a treatment plan, obtaining informed consent and agreement for treatment, periodic review of the treatment plan, consultation, medical record review, and compliance with controlled substance laws and regulations. Failure of a prescriber to follow such guidelines constitutes grounds for disciplinary action pursuant to s. 456.072(1)(gg), punishable as provided in s. 456.072(2).

(5) PRESCRIPTION SUPPLY.—

(a) Except as provided in paragraph (b), a prescription for an opioid drug listed as a Schedule II controlled substance in s. 893.03 or 21 U.S.C. s. 812, for the treatment of acute pain may not exceed a 3-day supply.

(b) Up to a 7-day supply of an opioid described in paragraph (a) may be prescribed if:

1. The practitioner, in his or her professional judgment, believes that more than a 3-day supply of such an opioid is medically necessary to treat the patient’s pain as an acute medical condition.

2. The practitioner indicates “MEDICALLY NECESSARY” on the prescription.

3. The prescriber adequately documents in the patient’s medical records the acute medical condition and lack of alternative treatment options that justify deviation from the 3-day supply limit established in this subsection.

Section 5. Effective January 1, 2019, subsections (2)
through (5) of section 458.3265, Florida Statutes, are renumbered as subsections (3) through (6), respectively, paragraphs (a) and (g) of subsection (1), paragraph (a) of present subsection (2), paragraph (a) of present subsection (3) and paragraph (a) of present subsection (4) of that section, are amended, and a new subsection (2) is added to that section, to read:

Verification of health plan eligibility through a real-time inquiry or adjudication system is considered to be proper identification.

(b) This subsection does not apply in an institutional setting or to a long-term care facility, including, but not limited to, an assisted living facility or a hospital to which
patients are admitted.

(c) As used in this subsection, the term “proper identification” means an identification that is issued by a state or the Federal Government containing the person’s photograph, printed name, and signature or a document considered acceptable under 8 C.F.R. s. 274a.2(b)(1)(v)(A) and (B).

(2) A practitioner who dispenses medicinal drugs for human consumption for fee or remuneration of any kind, whether direct or indirect, must:

(d)1. Before dispensing a controlled substance to a person not known to the dispenser, require the person purchasing, receiving, or otherwise acquiring the controlled substance to present valid photographic identification or other verification of his or her identity. If the person does not have proper identification, the dispenser may verify the validity of the prescription and the identity of the patient with the prescriber or his or her authorized agent. Verification of health plan eligibility through a real-time inquiry or adjudication system is considered to be proper identification.

2. This paragraph does not apply in an institutional setting or to a long-term care facility, including, but not limited to, an assisted living facility or a hospital to which patients are admitted.

3. As used in this paragraph, the term “proper
"identification" means an identification that is issued by a state or the Federal Government containing the person’s photograph, printed name, and signature or a document considered acceptable under 8 C.F.R. s. 274a.2(b)(1)(v)(A) and (B).
