Senator Hooper moved the following:

Senate Amendment to Amendment (852378) (with title amendment)

Between lines 57 and 58 insert:

(f) A prescription for optical devices may be issued based on the refractive error of the human eye as determined or confirmed through a telehealth service if the service includes a contemporaneous eye health examination.
And the title is amended as follows:

Delete line 252 and insert:

medicine without a license; authorizing a prescription for optical devices to be issued based on the use of a telehealth service if the service includes a contemporaneous eye health examination; providing recordkeeping
