Senator Lee moved the following:

**Senate Amendment (with title amendment)**

Delete everything after the enacting clause and insert:

Section 1. Section 125.01055, Florida Statutes, is amended to read:

125.01055 Affordable housing.—

(1) Notwithstanding any other provision of law, a county may adopt and maintain in effect any law, ordinance, rule, or other measure that is adopted for the purpose of increasing the supply of affordable housing using land use mechanisms such as
inclusionary housing ordinances.

(2) An inclusionary housing ordinance may require a developer to provide a specified number or percentage of affordable housing units to be included in a development or allow a developer to contribute to a housing fund or other alternatives in lieu of building the affordable housing units. However, in exchange, a county must provide incentives to fully offset all costs to the developer of its affordable housing contribution. Such incentives may include, but are not limited to:

(a) Allowing the developer density or intensity bonus incentives or more floor space than allowed under the current or proposed future land use designation or zoning;

(b) Reducing or waiving fees, such as impact fees or water and sewer charges; or

(c) Granting other incentives.

(3) Subsection (2) does not apply in an area of critical state concern, as designated in s. 380.0552.

Section 2. Section 125.022, Florida Statutes, is amended to read:

125.022 Development permits and orders.—
(1) Within 30 days after receiving an application for approval of a development permit or development order, a county must review the application for completeness and issue a letter indicating that all required information is submitted or specifying with particularity any areas that are deficient. If the application is deficient, the applicant has 30 days to address the deficiencies by submitting the required additional information. Within 120 days after the county has deemed the
application complete, or 180 days for applications that require final action through a quasi-judicial hearing or a public hearing, the county must approve, approve with conditions, or deny the application for a development permit or development order. Both parties may agree to a reasonable request for an extension of time, particularly in the event of a force majeure or other extraordinary circumstance. An approval, approval with conditions, or denial of the application for a development permit or development order must include written findings supporting the county’s decision. The timeframes contained in this subsection do not apply in an area of critical state concern, as designated in s. 380.0552.

(2) When reviewing an application for a development permit or development order that is certified by a professional listed in s. 403.0877, a county may not request additional information from the applicant more than three times, unless the applicant waives the limitation in writing. Before a third request for additional information, the applicant must be offered a meeting to attempt to resolve outstanding issues. Except as provided in subsection (5), if the applicant believes the request for additional information is not authorized by ordinance, rule, statute, or other legal authority, the county, at the applicant’s request, shall proceed to process the application for approval or denial.

(3) When a county denies an application for a development permit or development order, the county shall give written notice to the applicant. The notice must include a citation to the applicable portions of an ordinance, rule, statute, or other legal authority for the denial of the permit.
or order.

(4) As used in this section, the terms “development permit” and “development order” have the same meaning as in s. 163.3164, but do not include building permits.

(5) For any development permit application filed with the county after July 1, 2012, a county may not require as a condition of processing or issuing a development permit or development order that an applicant obtain a permit or approval from any state or federal agency unless the agency has issued a final agency action that denies the federal or state permit before the county action on the local development permit.

(6) Issuance of a development permit or development order by a county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. A county shall attach such a disclaimer to the issuance of a development permit and shall include a permit condition that all other applicable state or federal permits be obtained before commencement of the development.

(7) This section does not prohibit a county from providing information to an applicant regarding what other state or federal permits may apply.

Section 3. Subsection (3) of section 163.3167, Florida Statutes, is amended to read:

163.3167 Scope of act.
(3) A municipality established after the effective date of this act shall, within 1 year after incorporation, establish a local planning agency, pursuant to s. 163.3174, and prepare and adopt a comprehensive plan of the type and in the manner set out in this act within 3 years after the date of such incorporation. A county comprehensive plan is shall be deemed controlling until the municipality adopts a comprehensive plan in accordance with this act. A comprehensive plan adopted after January 1, 2019, and all land development regulations adopted to implement the comprehensive plan must incorporate each development order existing before the comprehensive plan’s effective date, may not impair the completion of a development in accordance with such existing development order, and must vest the density and intensity approved by such development order existing on the effective date of the comprehensive plan without limitation or modification.

Section 4. Paragraph (i) of subsection (5) and paragraph (h) of subsection (6) of section 163.3180, Florida Statutes, are amended to read:

163.3180 Concurrency.—

(5)

(i) If a local government elects to repeal transportation concurrency, it is encouraged to adopt an alternative mobility funding system that uses one or more of the tools and techniques identified in paragraph (f). Any alternative mobility funding system adopted may not be used to deny, time, or phase an application for site plan approval, plat approval, final subdivision approval, building permits, or the functional equivalent of such approvals provided that the developer agrees
to pay for the development’s identified transportation impacts via the funding mechanism implemented by the local government. The revenue from the funding mechanism used in the alternative system must be used to implement the needs of the local government’s plan which serves as the basis for the fee imposed. A mobility fee-based funding system must comply with § 163.31801 governing the dual rational nexus test applicable to impact fees. An alternative system that is not mobility fee-based shall not be applied in a manner that imposes upon new development any responsibility for funding an existing transportation deficiency as defined in paragraph (h).

(6)

(h)1. In order to limit the liability of local governments, a local government may allow a landowner to proceed with development of a specific parcel of land notwithstanding a failure of the development to satisfy school concurrency, if all the following factors are shown to exist:

a. The proposed development would be consistent with the future land use designation for the specific property and with pertinent portions of the adopted local plan, as determined by the local government.

b. The local government’s capital improvements element and the school board’s educational facilities plan provide for school facilities adequate to serve the proposed development, and the local government or school board has not implemented that element or the project includes a plan that demonstrates that the capital facilities needed as a result of the project can be reasonably provided.

c. The local government and school board have provided a
means by which the landowner will be assessed a proportionate share of the cost of providing the school facilities necessary to serve the proposed development.

2. If a local government applies school concurrency, it may not deny an application for site plan, final subdivision approval, or the functional equivalent for a development or phase of a development authorizing residential development for failure to achieve and maintain the level-of-service standard for public school capacity in a local school concurrency management system where adequate school facilities will be in place or under actual construction within 3 years after the issuance of final subdivision or site plan approval, or the functional equivalent. School concurrency is satisfied if the developer executes a legally binding commitment to provide mitigation proportionate to the demand for public school facilities to be created by actual development of the property, including, but not limited to, the options described in subparagraph a. Options for proportionate-share mitigation of impacts on public school facilities must be established in the comprehensive plan and the interlocal agreement pursuant to s. 163.31777.

a. Appropriate mitigation options include the contribution of land; the construction, expansion, or payment for land acquisition or construction of a public school facility; the construction of a charter school that complies with the requirements of s. 1002.33(18); or the creation of mitigation banking based on the construction of a public school facility in exchange for the right to sell capacity credits. Such options must include execution by the applicant and the local government.
of a development agreement that constitutes a legally binding commitment to pay proportionate-share mitigation for the additional residential units approved by the local government in a development order and actually developed on the property, taking into account residential density allowed on the property prior to the plan amendment that increased the overall residential density. The district school board must be a party to such an agreement. As a condition of its entry into such a development agreement, the local government may require the landowner to agree to continuing renewal of the agreement upon its expiration.

b. If the interlocal agreement and the local government comprehensive plan authorize a contribution of land; the construction, expansion, or payment for land acquisition; the construction or expansion of a public school facility, or a portion thereof; or the construction of a charter school that complies with the requirements of s. 1002.33(18), as proportionate-share mitigation, the local government shall credit such a contribution, construction, expansion, or payment toward any other impact fee or exaction imposed by local ordinance for public educational facilities the same need, on a dollar-for-dollar basis at fair market value. The credit must be based on the total impact fee assessed and not on the impact fee for any particular type of school.

c. Any proportionate-share mitigation must be directed by the school board toward a school capacity improvement identified in the 5-year school board educational facilities plan that satisfies the demands created by the development in accordance with a binding developer’s agreement.
3. This paragraph does not limit the authority of a local government to deny a development permit or its functional equivalent pursuant to its home rule regulatory powers, except as provided in this part.

Section 5. Section 163.31801, Florida Statutes, is amended to read:

163.31801 Impact fees; short title; intent; minimum requirements; audits; challenges definitions; ordinances levying impact fees.—

(1) This section may be cited as the “Florida Impact Fee Act.”

(2) The Legislature finds that impact fees are an important source of revenue for a local government to use in funding the infrastructure necessitated by new growth. The Legislature further finds that impact fees are an outgrowth of the home rule power of a local government to provide certain services within its jurisdiction. Due to the growth of impact fee collections and local governments’ reliance on impact fees, it is the intent of the Legislature to ensure that, when a county or municipality adopts an impact fee by ordinance or a special district adopts an impact fee by resolution, the governing authority complies with this section.

(3) At a minimum, an impact fee adopted by ordinance of a county or municipality or by resolution of a special district must satisfy all of the following conditions, at minimum:

(a) Require that The calculation of the impact fee must be based on the most recent and localized data.

(b) The local government must provide for accounting and reporting of impact fee collections and expenditures. If a local
governmental entity imposes an impact fee to address its infrastructure needs, the entity must account for the revenues and expenditures of such impact fee in a separate accounting fund.

(c) Limit Administrative charges for the collection of impact fees must be limited to actual costs.

(d) The local government must provide notice that not be provided less than 90 days before the effective date of an ordinance or resolution imposing a new or increased impact fee. A county or municipality is not required to wait 90 days to decrease, suspend, or eliminate an impact fee.

(e) Collection of the impact fee may not be required to occur earlier than the date of issuance of the building permit for the property that is subject to the fee.

(f) The impact fee must be proportional and reasonably connected to, or have a rational nexus with, the need for additional capital facilities and the increased impact generated by the new residential or commercial construction.

(g) The impact fee must be proportional and reasonably connected to, or have a rational nexus with, the expenditures of the funds collected and the benefits accruing to the new residential or nonresidential construction.

(h) The local government must specifically earmark funds collected under the impact fee for use in acquiring, constructing, or improving capital facilities to benefit new users.

(i) Revenues generated by the impact fee may not be used, in whole or in part, to pay existing debt or for previously approved projects unless the expenditure is reasonably connected
to, or has a rational nexus with, the increased impact generated
by the new residential or nonresidential construction.

(4) The local government must credit against the collection
of the impact fee any contribution, whether identified in a
proportionate share agreement or other form of exaction, related
to public education facilities, including land dedication, site
planning and design, or construction. Any contribution must be
applied to reduce any education-based impact fees on a dollar-
for-dollar basis at fair market value.

(5) If a local government increases its impact fee rates,
the holder of any impact fee credits, whether such credits are
granted under s. 163.3180, s. 380.06, or otherwise, which were
in existence before the increase, is entitled to the full
benefit of the intensity or density prepaid by the credit
balance as of the date it was first established. This subsection
shall operate prospectively and not retrospectively.

(6) Audits of financial statements of local governmental
entities and district school boards which are performed by a
certified public accountant pursuant to s. 218.39 and submitted
to the Auditor General must include an affidavit signed by the
chief financial officer of the local governmental entity or
district school board stating that the local governmental entity
or district school board has complied with this section.

(7) In any action challenging an impact fee or the
government’s failure to provide required dollar-for-dollar
credits for the payment of impact fees as provided in s.
163.3180(6)(h)2.b., the government has the burden of proving by
a preponderance of the evidence that the imposition or amount of
the fee or credit meets the requirements of state legal
precedent and or this section. The court may not use a
deferential standard for the benefit of the government.
(8) A county, municipality, or special district may provide
an exception or waiver for an impact fee for the development or
construction of housing that is affordable, as defined in s. 420.9071. If a county, municipality, or special district
provides such an exception or waiver, it is not required to use
any revenues to offset the impact.
(9) This section does not apply to water and sewer
connection fees.
Section 6. Paragraph (j) is added to subsection (2) of
section 163.3202, Florida Statutes, to read:
163.3202 Land development regulations.—
(2) Local land development regulations shall contain
specific and detailed provisions necessary or desirable to
implement the adopted comprehensive plan and shall at a minimum:
(j) Incorporate preexisting development orders identified
pursuant to s. 163.3167(3).
Section 7. Section 166.033, Florida Statutes, is amended to
read:
166.033 Development permits and orders.—
(1) Within 30 days after receiving an application for
approval of a development permit or development order, a
municipality must review the application for completeness and
issue a letter indicating that all required information is
submitted or specifying with particularity any areas that are
deficient. If the application is deficient, the applicant has 30
days to address the deficiencies by submitting the required
additional information. Within 120 days after the municipality
has deemed the application complete, or 180 days for
applications that require final action through a quasi-judicial
hearing or a public hearing, the municipality must approve,
approve with conditions, or deny the application for a
development permit or development order. Both parties may agree
to a reasonable request for an extension of time, particularly
in the event of a force majeure or other extraordinary
circumstance. An approval, approval with conditions, or denial
of the application for a development permit or development order
must include written findings supporting the municipality’s
decision. The timeframes contained in this subsection do not
apply in an area of critical state concern, as designated in s.
380.0552 or chapter 28-36, Florida Administrative Code.

(2) When reviewing an application for a development
permit or development order that is certified by a professional
listed in s. 403.0877, a municipality may not request additional
information from the applicant more than three times, unless the
applicant waives the limitation in writing. Before a third
request for additional information, the applicant must be
offered a meeting to attempt to resolve outstanding issues.
Except as provided in subsection (5), if the applicant
believes the request for additional information is not
authorized by ordinance, rule, statute, or other legal
authority, the municipality, at the applicant’s request, shall
proceed to process the application for approval or denial.

(3) When a municipality denies an application for a
development permit or development order, the municipality shall
give written notice to the applicant. The notice must include a
citation to the applicable portions of an ordinance, rule,
statute, or other legal authority for the denial of the permit or order.

(4) As used in this section, the terms “development permit” and “development order” have the same meaning as in s. 163.3164, but do not include building permits.

(5) For any development permit application filed with the municipality after July 1, 2012, a municipality may not require as a condition of processing or issuing a development permit or development order that an applicant obtain a permit or approval from any state or federal agency unless the agency has issued a final agency action that denies the federal or state permit before the municipal action on the local development permit.

(6) Issuance of a development permit or development order by a municipality does not create any right on the part of an applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the municipality for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. A municipality shall attach such a disclaimer to the issuance of development permits and shall include a permit condition that all other applicable state or federal permits be obtained before commencement of the development.

(7) This section does not prohibit a municipality from providing information to an applicant regarding what other state or federal permits may apply.

Section 8. Section 166.04151, Florida Statutes, is amended...
to read:

166.04151 Affordable housing.—

(1) Notwithstanding any other provision of law, a municipality may adopt and maintain in effect any law, ordinance, rule, or other measure that is adopted for the purpose of increasing the supply of affordable housing using land use mechanisms such as inclusionary housing ordinances.

(2) An inclusionary housing ordinance may require a developer to provide a specified number or percentage of affordable housing units to be included in a development or allow a developer to contribute to a housing fund or other alternatives in lieu of building the affordable housing units. However, in exchange, a municipality must provide incentives to fully offset all costs to the developer of its affordable housing contribution. Such incentives may include, but are not limited to:

(a) Allowing the developer density or intensity bonus incentives or more floor space than allowed under the current or proposed future land use designation or zoning;

(b) Reducing or waiving fees, such as impact fees or water and sewer charges; or

(c) Granting other incentives.

(3) Subsection (2) does not apply in an area of critical state concern, as designated by s. 380.0552 or chapter 28-36, Florida Administrative Code.

Section 9. This act shall take effect upon becoming a law.

And the title is amended as follows:
Delete everything before the enacting clause and insert:

A bill to be entitled
An act relating to community development and housing;
amending s. 125.01055, F.S.; authorizing an
inclusionary housing ordinance to require a developer
to provide a specified number or percentage of
affordable housing units to be included in a
development or allow a developer to contribute to a
housing fund or other alternatives; requiring a county
to provide certain incentives to fully offset all
costs to the developer of its affordable housing
contribution; providing applicability; amending s.
125.022, F.S.; requiring that a county review the
application for completeness and issue a certain
letter within a specified period after receiving an
application for approval of a development permit or
development order; providing procedures for addressing
deficiencies in, and for approving or denying, the
application; providing applicability of certain
timeframes; conforming provisions to changes made by
the act; defining the term "development order";
amending s. 163.3167, F.S.; providing requirements for
a comprehensive plan adopted after a specified date
and all land development regulations adopted to
implement the comprehensive plan; amending s.
163.3180, F.S.; revising compliance requirements for a
mobility fee-based funding system; requiring a local
government to credit certain contributions,
constructions, expansions, or payments toward any other impact fee or exaction imposed by local ordinance for public educational facilities; providing requirements for the basis of the credit; amending s. 163.31801, F.S.; adding minimum conditions that certain impact fees must satisfy; requiring a local government to credit against the collection of an impact fee any contribution related to public education facilities, subject to certain requirements; requiring the holder of certain impact fee credits to be entitled to a certain benefit if a local government increases its impact fee rates; providing applicability; providing that the government, in certain actions, has the burden of proving by a preponderance of the evidence that the imposition or amount of certain required dollar-for-dollar credits for the payment of impact fees meets certain requirements; prohibiting the court from using a deferential standard for the benefit of the government; authorizing a county, municipality, or special district to provide an exception or waiver for an impact fee for the development or construction of housing that is affordable; providing that if a county, municipality, or special district provides such exception or waiver, it is not required to use any revenues to offset the impact; providing applicability; amending s. 163.3202, F.S.; requiring local land development regulations to incorporate certain preexisting development orders; amending s.
166.033, F.S.; requiring that a municipality review the application for completeness and issue a certain letter within a specified period after receiving an application for approval of a development permit or development order; providing procedures for addressing deficiencies in, and for approving or denying, the application; providing applicability of certain timeframes; conforming provisions to changes made by the act; defining the term “development order”; amending s. 166.04151, F.S.; authorizing an inclusionary housing ordinance to require a developer to provide a specified number or percentage of affordable housing units to be included in a development or allow a developer to contribute to a housing fund or other alternatives; requiring a municipality to provide certain incentives to fully offset all costs to the developer of its affordable housing contribution; providing applicability; providing an effective date.
